## RCM+ Rack Mounted Vertical Cable Manager With Cover Double Sided Dual Density Style

- Double-sided SB864 Series cable managers utilize the SB860 and SB862 Series cable managers in back-to-back combination for use in applications with varying cable management requirements
- High-density extended fingers provide maximum cable support for each rack mounting space
- Low-density vertical cabling section can be used with RCM+ horizontal cable managers
- Front and rear vertical sections can be spaced apart when mounting on racks deeper than 3" (76mm), allowing cables to be routed out through side openings created between the vertical sections
- High-density vertical cable section can be used with RCM+ extended horizontal cable manager
- Snap-on gates on both sides allows for quick opening from either side or complete removal
- Open back design allows unrestricted routing of cables between front and rear sections
- Optional back removable covers are designed with pass through openings for cable routing, keyhole slots for cable spools, slots for cable straps, and keyhole slots for direct ePDU mounting
- Installation is easy and can be done in minutes using standard hand tools
- 1/4" (6.3mm) accessory mounting holes run the full height on both sides of cable manager to accommodate the attachment of cable management accessories
- UL Listed as a Communication Circuit Accessory. File No. E171936
- Material: Aluminum with UL 94V-0 black plastic components
- Finishes\_\_: Flat Black Powder Coat (FB), Silver Powder Coat (SL), or Eaton White (EW)
- Vertical cable manager includes:  
(2) vertical cabling sections, (1) door,  
(50) push-in fasteners, (12) cable strap mounts, (4) cable retainer bars, required number of gates and mounting hardware
