Marshall

AR-DM61-BT

Multichannel Digital Audio Monitor

The **Marshall AR-DM61** audio rack monitor uses an advanced design that removes many limitations found in other products. It has built-in support for most common input types and the ability to adapt to future needs.

The **AR-DM61-BT** is a powerful audio/video QC solution ideal for use in TV Control Rooms, Broadcast Trucks, Transfer Stations, House of Worship Facilities, and many other Pro AV applications.

Features

- 10-inch LCD Intuitive Touchscreen Panel displays up to 64 channels vertical or switch to 96-step high precision horizontal bars
- Special LKFS bars provides weighted display for group of channels
- Built-in live video preview monitor
- Accepts multiple signal type input
- High-powered stereo speakers (up to 100 dB output)
- Push-to-mute functionality
- Slim 1 RU Design
- Dolby™ option module supports AC-3, Dolby-E and more
- Optional Dante™ Networked Audio module
- Built-in web server makes it convenient to setup and customize
- Software upgradeable “Future-proof” platform

Multiple Module Support - Dante, Dolby, 3G SDI, and More

3GSDI

Dante™

DOLBY

The AR-DM61-BT supports optional Dante™ Networked Audio and Dolby Digital (AC-3, Dolby-E), along with two 3GSDI inputs.

Full 64 Channel Audio Display

The only audio monitoring product that provides a full 64 channel display, with one-touch 96-step detailed horizontal bar view.

Built-In Live Video Confidence Screen

For accurate measuring, the AR-DM61-BT offers a live preview screen of selected SDI input.

Powerful Speakers in 1RU

Two high-powered stereo speakers can output up to 100 dB in volume, and the entire monitor fits into a slim, 1 rack unit design.
