Ports:	Full-size HDMI, 4- USB 2.0, 4 pole Stereo output and Composite video port, RJ45 network connector
Mounting:	Surface-mounted (usually installed near the system central equipment). Mounting bracket not included.

SYSTEM NOTES

Alpha Communications® has designed the AlphaEcall™ 200 series to work as a complete system. The AlphaEcall™ 200 head-end equipment has been carefully designed and engineered to work with AlphaEcall™ 200 wired and wireless devices. Alpha Communications® will not warrant or support components of the AlphaEcall™ 200 series that are purchased separately unless the components are add-ons to previously sold systems. Alpha Communications® will also not warrant or support a system that is a mix of Alpha Communications® and non-Alpha Communications® components, unless prior permission has been obtained. A site survey must be performed and submitted before ordering a AlphaEcall™ 200 series system with wireless devices. Customer, when ordering, is certifying that they have done a proper site survey, and is responsible for same. In order to properly track our systems and to inform facilities of software upgrades or other issues, full site

information (site name, address and phone number) will be required when placing an order. Site information and AlphaEcall™ 200 serial numbers will also be required when requesting any technical support.

ARCHITECTS' AND ENGINEERS' SPECIFICATIONS

The AlphaEcall™ 200 series central desk/wall Master Station(s) shall be Alpha Communications® model **AEC200DM**, or approved equal. The **AEC200DM** shall be built into a rugged painted metallic housing, and shall be powered by the included plug-in power supply. When connecting multiple **AEC200DM**'s and/or **AEC200PC**'s together contractor shall furnish the required local area network (LAN). Although designed as a desk mount station, the **AEC200DM** can easily mount on the surface of a finished wall.

The **AEC200DM** shall feature a built-in 7.0" touchscreen, built-in Windows OS as well as full size HDMI interface, 4-USB 2.0 ports, audio output, 4 pole Stereo output and Composite video port, and RJ45 8-pin network connector jack.

The **AEC200DM** shall also work in conjunction with the **AEC200PC** PC/server(s), as required.

Contractor shall observe all local and national electrical and building codes.
