

Versatile, Virtually Indestructible and Ready for the Extreme

Pro-Clean is the ideal one-step cleaning solution for maintaining the clarity of lenses and optics.

Pro-Clean optimizes camera performance by keeping lower lens "bubble," mini-domes, traditional cameras, and other precision lens mirrors, covers or screens free of haze and static.

Pro-Clean is completely non-toxic and contains no alcohol, ammonia or other harsh detergents, and will leave CCTV camera lenses streak and scratch free.

Description:

The proper maintenance and cleaning of CCTV Cameras is the most efficient way to assure cameras continue functioning at optimum levels. To help maintain camera integrity Dotworkz has engineered the Pro-Clean lens/optics cleaning solution; a non-toxic, ammonia-free cleaner that contains no harsh chemicals or detergents, and is safe for the camera and environment. Pro-Clean dissipates static, and cleans without leaving haze or residue behind.

Features:

- Specifically formulated for outdoor video, digital signage, public displays, and security mirrors
- Removes pollution, dust, salts, and static
- Non-Toxic and Ammonia-Free
- Streak, haze and scratch free solution
- Cleans both coated and non-coated lenses
- Optimum performance with neutral pH
