

Solutions for Education

Today's rapidly changing educational landscape demands intelligent, easy-to-use technology that inspires new ways of thinking. At Epson, we have 40 years of experience developing groundbreaking education tools to help engage students, promote collaboration, and support faculty and administrators. From the classroom to the administrative office, our cost-effective, reliable and versatile Brighter Futures® solutions will help you shape your curriculum and drive the future of education at your institution.

Designed for the Classroom and Beyond

Enhance every student's learning experience with dynamic, user-friendly imaging technology that invites participation and engages viewers in any environment, whether it's a classroom, lab or gymnasium. From advanced displays, projectors, printers and scanners all the way to our innovative Moverio® smart glasses, Epson's comprehensive suite of education solutions will meet any need.

Budget-friendly Solutions

We understand budgets can be tight, so we make solutions accessible through our Brighter Futures program with special pricing

for schools, districts and other agencies. Our products offer outstanding value, solid reliability, and easy integration with existing curriculum software and systems to help schools achieve a better bottom line. Find the latest pricing information online at www.epson.ca/edguide

Reliability You Can Count On

Our products are designed to work day in and day out, so teachers and staff can focus on the classroom. Offering decades of road-tested reliability, Epson® education solutions are backed by unsurpassed customer service and support that goes the extra mile.

Displays and Projectors

Interactive Displays

Short-throw Projectors

Advanced Networking Projectors

Large-venue Projectors

Whether you're searching for state-of-the-art laser displays, networked classroom projectors, or visual solutions for larger rooms and venues, Epson offers a comprehensive lineup of displays and projectors that are designed to connect students and teachers in ways never before imagined.

We understand that — just like no two students are alike — each classroom and learning environment offers a unique space for exploration and understanding. From interactive whiteboarding solutions that make collaborative, personalized learning a regular part of instruction to high-brightness, large-venue products for well-lit spaces, Epson is education's #1 choice for projection technology.

All projected images in this catalogue are simulated.

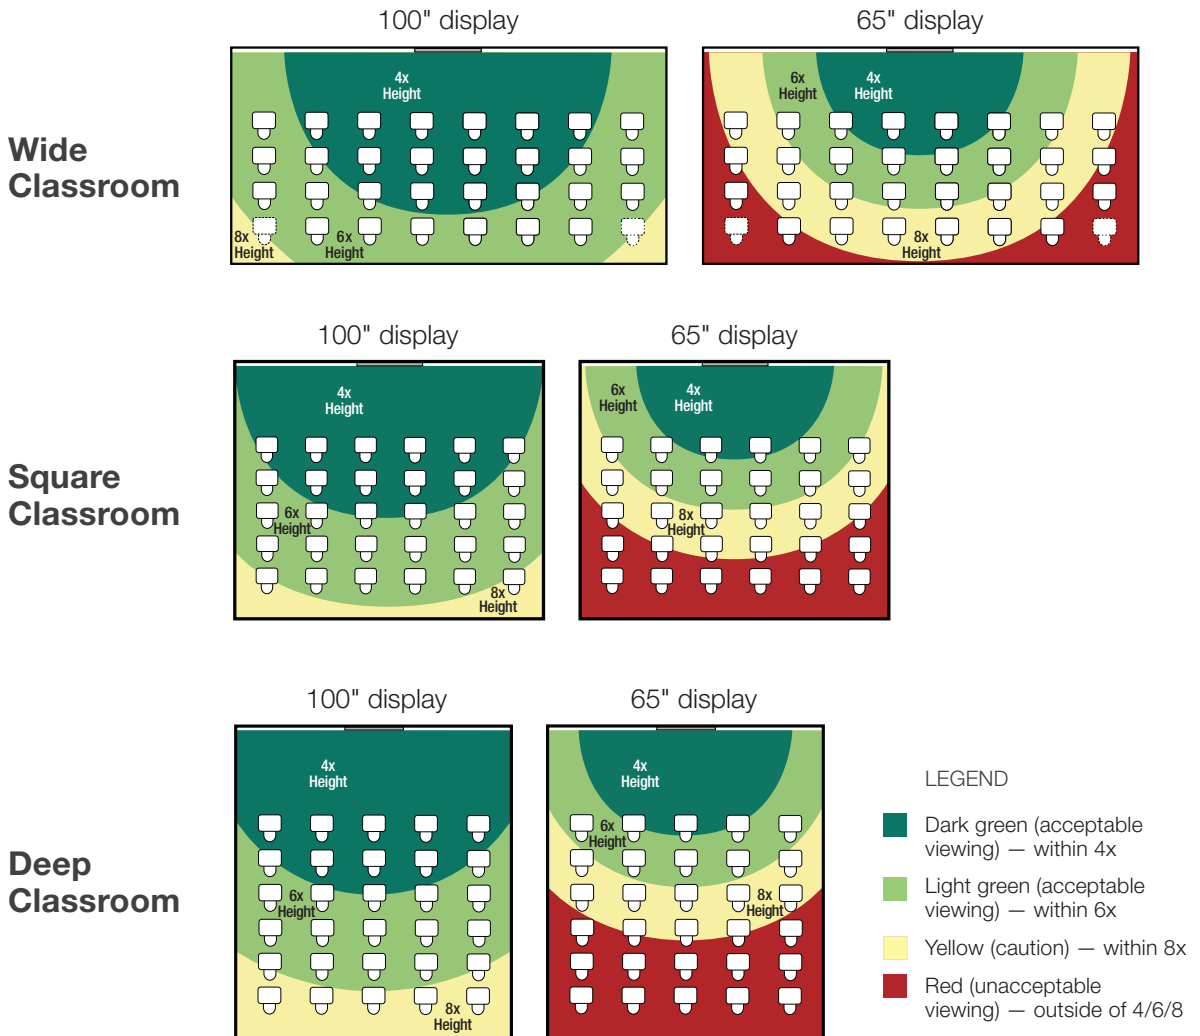

Display Size Makes a Difference in the Classroom

A recent study shows that 58 percent of students can't read content on a 70" flat panel!

That's why it's important that a classroom display is large enough for every student to clearly see it in an average-sized classroom — and read what's on it from anywhere in the room. For many classrooms, flat-panel displays are simply too small to give students optimum readability. In contrast, Epson offers the flexibility to maximize readability for all students. To understand the connection between display size and viewing distance, and for help in making sure your display image size meets your goals, visit www.epson.ca/classroomdisplaysize

Visibility in different rooms and seating arrangements

For detailed information on why “Display Size Matters” for classrooms, including the 4/6/8 rule, visit www.epson.ca/classroomdisplaysize

Epson Technology Advantages

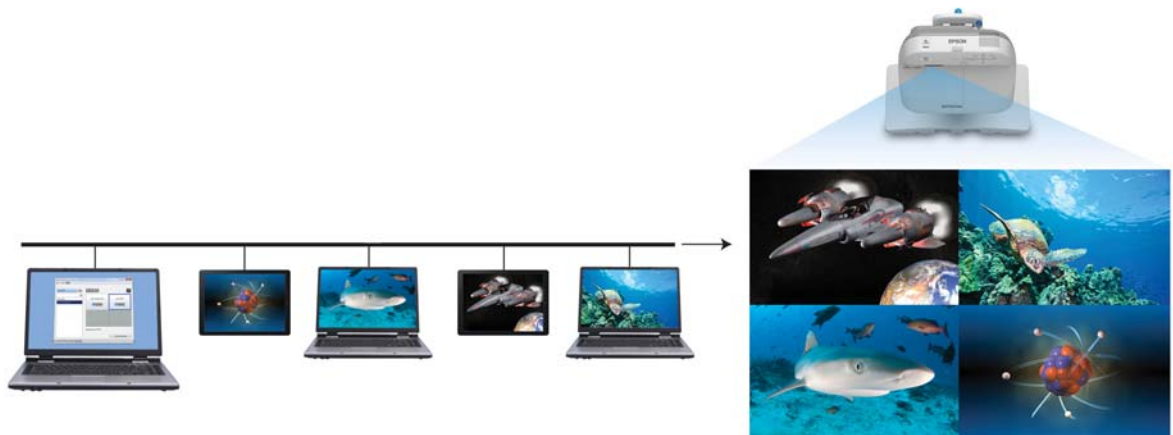

Offering up to 3x Higher Colour Brightness compared to 1-chip DLP projectors²; Epson visual solutions are an ideal fit for any learning space, with large, easy-to-see images and the latest in connectivity and support for Chromebooks, tablets and smartphones.

Wirelessly share content from multiple devices, including Chromebooks

Designed for today's BYOD and 1:1 classrooms, Epson iProjection™ is a robust wireless solution offering true multi-platform support for Chromebooks, PCs and Mac® computers, as well as iOS® and Android™ devices³. Students and teachers alike can wirelessly display documents, images, webpages and more from their devices for the entire classroom to see on the big screen. Advanced functionality includes two-way content sharing — available with select Epson models — annotation, real-time mobile camera display and more⁴.

Plus, Epson iProjection's built-in Moderator feature — available for both mobile devices and computers⁴ — allows teachers to connect up to 50 devices, then manage and display content from up to four students at a time. It's the perfect tool for sharing a variety of content at once, or for comparing students' work side by side.

And, Epson iProjection for Chromebook™ makes it easy for students to wirelessly share their Chromebook screens with the rest of the class. With full mirroring capabilities, the app allows students to display content from Google Docs™, Google Slides and Google Sheets™, as well as Web content from their Chrome™ browser (audio support not available for mirroring).

Epson Laser Projection Technology

Virtually maintenance-free operation

As a world leader in digital 3LCD projection solutions, Epson continues to drive the future of classroom and projection technology with its full suite of laser displays and projectors. Featuring lamp-free, long-life, laser light engines, Epson laser solutions achieve new levels of performance and reliability — including up to 20,000 hours of virtually maintenance-free operation⁵

Why choose laser?

- **Breakthrough laser technology** — long-life laser light engine provides up to 20,000 hours of virtually maintenance-free operation⁵
- **Outstanding colour performance and contrast** — get exceptional, true-to-life colour reproduction and deep, dark blacks for stunning visuals you can count on for an array of applications
- **Instant ON/OFF** — displays and projectors reach maximum brightness and turn off almost immediately, with no warmup or cool-down period required
- **Reliable 24/7 operation** — ideal for applications requiring continuous projection

Explore Epson Laser Displays and Projectors

Laser Interactive Displays

Full HD, ultra short-throw interactive laser displays for collaborative learning experiences

Laser Digital Signage Displays

Bold, rich, Full HD laser displays for virtually any signage or presentation need

Laser Large-venue Projectors

High-lumen laser projectors designed for exceptional performance in auditoriums, gymnasiums and more

Interactive Displays

Engage the entire classroom with these bright, dynamic and easy-to-use interactive displays, available in laser and lamp-based models. Offering dual-user pen-based and/or touch-enabled interactivity for up to six users at a time (on select models), these displays are designed to maximize classroom collaboration and allow you to share lessons — or students’ work — from Chromebooks, computers, iOS and Android devices, or annotate PC-free with no device at all.

Large-venue Projectors

Designed for exceptional performance, Epson large-venue installation projectors are powerful performers for virtually all large spaces, including auditoriums, gymnasiums, cafeterias, stadiums and more. Available in laser and lamp-based models, these large-venue projectors feature high lumens for bright, colourful images and utilize advanced display technologies to create immersive experiences that will captivate any audience.

Visit www.epson.ca/largevenue for more information and to compare models.

Why choose Epson for your large-venue projection needs?

- **3-chip, 3LCD technology** — for higher colour brightness compared to 1-chip DLP projectors
- **Industry-leading service and support** — limited warranty of 3 years or 20,000 hours, whichever comes first, plus free Next-Business-Day replacement¹² with postage-paid returns
- **Epson 4K Enhancement Technology^{13*}** — a revolutionary technology that accepts 4K signal and enhances the native resolution for output that surpasses Full HD image quality
- **Wide selection of powered lenses with lens memory** — including zero- and negative-offset 0.35 ultra short-throw lenses for shallow spaces**
- **Diverse connectivity options*** — including HDBaseT, DVI-D, HDMI, 5-BNC and wireless
- **Emulation Mode^{14*}** — saves time and money when replacing other manufacturers' projectors
- **Compatible with leading control systems** — such as Crestron, AMX, Extron XTP®, Control4 and Art-Net*

**Lens compatibility varies by model. See page 22–23 for details.

Optional Ultra Short-throw Lenses

Transform your Pro G or Pro L Series projector into an ultra short-throw display for ultimate installation flexibility. Install the projector just inches from the screen or wall — away from foot traffic — and still get huge, bright, crisp projection. Featuring a 0.35 throw ratio — plus zero offset on the ELPLX01 and negative offset on the ELPLX02 — these lenses are ideal for installation in narrow or tight spaces. And, wide lens shift gives you even more flexibility when you need it.

Using this lens, you can project from above or below for a dynamic screen or wall display.

*Lens compatibility varies by model. See pages 22–23 for details.

Display and Projector Accessories

Connectivity

HDBaseT Transmitter | V12H547020 (ELPHD01)

Maximize convenience with this optional HDBaseT transmitter box, a great companion piece to select models in the PowerLite 2000 and 5000 Series, as well as the Pro G and L Series. Three inputs are featured for easy installation: HDMI, LAN and RS-232 to output into a CAT-5/6 cable.

Wireless LAN Module | V12H731P02 (ELPAP10) / V12H418P12 (ELPAP07)

These high-speed, wireless network adapters plug directly into select Epson projectors and displays, allowing quick and easy access to the LAN or peer-to-peer networks without wires or cables. When used with Epson EasyMP® Monitor, Network Projection and Multi-PC Projection software, they allow users to remotely access and control projectors over the wireless LAN.

- Compliant with 802.11 b/g/n standards
- Uses USB Type A connector
- Compatible with PC or Mac
- Able to transmit audio

Sound Enhancement

Active Speakers | V12H467020 (ELPSP02)

Enhance the learning experience with 30 W of rich, powerful sound. This active speaker set (with built-in amplifiers) lets students clearly hear lessons. The ELPSP02 speakers can be easily mounted on the wall and can be used with any Epson projector or display, with or without the PowerLite Pilot.

Audio/Visual Control Systems

PixiePlus™ | ELPSP10

Featuring a sleek, space-saving design, PixiePlus is an affordable, easy-to-use projector control system designed for in-wall installation.

- Easy installation — installs in any standard wall box
- Save both money and energy — automatic projector shutdown timer feature

PowerLite Pilot 2 Connection and Control Box | V12H614020 (ELPCB02)

A convenient wall-mounted A/V control box for Epson short-throw and ultra short-throw displays, the PowerLite Pilot 2 supports an array of devices. It's now easier than ever to operate your audio/video source, computer, mobile device and more — even the latest high-definition and MHL-enabled mobile devices. Get greater flexibility, consolidated cable management and streamlined control of classroom multimedia devices.

Whiteboards and Screens

100" Whiteboard (16:10) | V12H831000

A combined projection and dry-erase surface, this 100" Whiteboard is the ultimate projection partner for classrooms. Featuring a matte-white, low-gloss surface, this Whiteboard enables high-quality projection with minimal glare or reflection. Ideal for use with widescreen projectors.

ES1000 Ultra Portable Tabletop Projection Screen | V12H002S4Y

This lightweight, compact screen is the perfect partner for on-the-go lessons. When you're ready to present, the ES1000's unique one-piece design allows you to set up quickly and easily on any tabletop in less than 30 seconds. It conveniently accommodates up to a 50" (diagonal) image. And, when it's time to shut down, the ES1000 stores quickly and easily in just seconds.

ES3000 Ultra Portable Projector Screen | V12H002S3Y

An easy-to-use, portable projection screen, the ES3000 is designed to expand to the size that best meets your needs: standard 4:3, widescreen 16:9 or widescreen 16:10. Plus, you can take it anywhere — with the included wheeled case, it's easy to transport. Its unique, one-piece design means there's no need to assemble various components. And, when it's time to shut down, the ES3000 stores quickly and easily.

Interactive Pens

Replacement Pens | Orange V12H773010 (ELPPN05A) / Blue V11H774010 (ELPPN05B)

These two pens offer interactive drawing and mouse capabilities and simultaneous operation with BrightLink 500 Series, 600 Series and 710Ui interactive displays. Powered by a single AA battery, the pens include a convenient on/off power button with Sleep Mode to prolong battery life.

Mounting Accessories

Short-throw Wall Mount | V12H706020 (ELPMB45)

Designed exclusively for use with Epson's PowerLite 500 Series short-throw displays, as well as the PowerLite 530 for SMART and BrightLink 536Wi, this wall mount offers an easy, affordable solution for integration with a variety of interactive or standard dry-erase whiteboards. The wide mounting plate and telescopic extension arm offer convenient and flexible installation, while the vertical and horizontal adjustments provide easy image alignment. And, when your short-throw display is attached to the wall mount, there is less shadow interference and glare, which ensures a more optimal presenting and viewing experience.

Ultra Short-throw Wall Mount | V12H777020 (ELPMB46)

Designed exclusively for use with Epson's PowerLite 600 Series and BrightLink 600 Series ultra short-throw displays, as well as the PowerLite 680 for SMART and PowerLite 685W for SMART, this wall mount offers an easy, affordable solution for integration with a variety of interactive or standard dry-erase whiteboards. The wide mounting plate and telescopic extension arm offer convenient and flexible installation from 53" – 100", while the vertical and horizontal adjustments provide easy image alignment. And, when your ultra short-throw display is attached to the wall mount, there is less shadow interference and glare, which ensures a more optimal presenting and viewing experience.

Ultra Short-throw Wall Mount for Laser Displays | V12H902020 (ELPMB53)

Designed exclusively for use with Epson's PowerLite, BrightLink and BrightLink Pro ultra short-throw laser displays, this wall mount offers an easy, affordable solution for wall-mounted displays. The wide mounting plate and telescopic extension arm offer convenient and flexible installation from 70" – 100" for BrightLink 710Ui and BrightLink Pro 1470Ui, and up to 130" for the PowerLite 700U. And, when your ultra short-throw display is attached to the wall mount, there is less shadow interference and glare, which ensures a more optimal presenting and viewing experience.

Low Ceiling Mount / High Ceiling Mount | V12H802010 (ELPMB47) / V12H803010 (ELPMB48)

Specifically designed for use with Epson Pro G and L Series projectors, these heavy-duty mounts support up to 165 lb and offer independent adjustments for vertical tilt, horizontal roll, and rotation. The Low Ceiling Mount offers a low-profile, aesthetic design, while the High Ceiling Mount features MicroZone adjustments for fast, precise projector registration. And, their sleek, silver finish blends in with ceilings.

Adapter Plate for SMART UF55/65/70/75 Series Mount | V12H870001

A cost-effective solution for extending the life of previous interactive investments, this easy-to-install bracket enables a quick retrofit solution for SMART Board interactive systems using select Epson projectors.

Display and Projector Accessories

Universal Projector Kit | V12H808001 (ELPMBPJG)

Includes a Universal Projector Mount, 3" (76 mm) Fixed Extension Column and Speed-Connect Ceiling Plate.

Custom Micro-adjustable Projector Mount | V12H809001 (ELPMBPRH)

Specifically designed for use with the Epson Pro G and PowerLite 2000 and 5000 Series.

Speed-Connect Above-tile Suspended Ceiling Kit | V12H804001 (ELPMBP04)

Provides a host of features that ensure a faster, more secure installation of most lightweight, front-projection models.

Suspended Ceiling Tile Replacement Kit | V12H805001 (ELPMBP05)

Designed to replace one 2' x 2' ceiling tile or to sit above a suspended ceiling.

Speed-Connect Suspended Ceiling Tile Replacement Kit | V12H806001 (ELPMBP06)

Provides features that ensure a faster, more secure installation of most lightweight, front-projection models.

6" Speed-Connect Ceiling Plate | V12H807001 (ELPMBP07)

Offers a clean look and time-saving cable management features while focusing on the speed of installation.

9" – 12" Adjustable Extension Column | V12H810001 (ELPMBC02)

Saves installation time and maximizes security.

6" Fixed Extension Column | V12H811001 (ELPMBC03)

Lowers projectors to the desired height.

3" Fixed Extension Column | V12H812001 (ELPMBC04)

Lowers projectors to the desired height.

Projector Disclaimers

- 1 Leading 70" class 4K resolution flat panel in a 22' (width) by 27' (depth) classroom-style arrangement. When asked to copy down six short items of information from slides being displayed, 58 percent of students ages 12 – 22 copied at least one item incorrectly. Based on U.S. research conducted by Radius Research.
- 2 Colour brightness (colour light output) in brightest mode, measured by a third-party lab in accordance with IDMS 15.4. Colour brightness will vary depending on usage conditions. Top-selling Epson 3LCD projectors versus top-selling 1-chip DLP projectors based on PMA Research sales data for Dec. 2015 through Nov. 2016.
- 3 For wireless functionality, including via the Epson iProjection App, the projector must be configured on a network, either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Check your owner's manual to determine if a wireless LAN module must be purchased separately to enable a wireless connection. Not all Epson projectors are able to be networked. The Epson iProjection App does not support all files and formats. See www.epson.ca for details.
- 4 Moderator control, Connecting via QR code and Projector Remote are not available on Epson iProjection for Chromebooks.
- 5 20,000 hours is the estimated projector life when used in Normal Mode. Actual hours may vary depending on mode and usage environment. PowerLite, BrightLink and BrightLink Pro Series laser displays come with a 3-year limited warranty; Pro L Series projectors have a limited warranty of 3 years or 20,000 hours, whichever comes first.
- 6 Colour brightness (colour light output) and white brightness (white light output) will vary depending on usage conditions. Colour light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.
- 7 Full HD WUXGA (1920 x 1200), SXGA+ (1400 x 1050), WXGA (1280 x 800), XGA (1024 x 768), SVGA (800 x 600).
- 8 Lamp life will vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.
- 9 Certain functionality is only available through Epson Interactive Tools (EIT) software. For a list of supported operating systems, visit www.epson.ca
- 10 Includes one Mobile High-Definition Link® (MHL) HDMI port.
- 11 Works only with Epson projectors that support presentation over the network capability.
- 12 Expedited shipping not available in all areas. Road Service orders must be in by 3 p.m. Eastern Time for Next-Business-Day delivery.
- 13 4K Enhancement Technology shifts each pixel diagonally by 0.5 pixels to double the resolution and surpass Full HD image quality.
- 14 Emulation Mode is limited to certain code sets and may not support all codes. Contact Epson Support for the latest supported sets.

Document Cameras

Document Camera

Journey to the intersection of discovery and understanding with Epson document cameras, which allow students and teachers to explore content, objects and complex concepts in real time. With features like one-touch auto focus, digital zoom, HDMI connectivity and a microscope adapter, these essential instructional tools elevate math, science, technology and arts lessons into engaging and dynamic learning experiences.

Easy-to-use Document Cameras

Engage students like never before with Epson’s easy-to-use document cameras. Capture and display books, 3D objects and experiments with amazing HD 1080p resolution. Display content from your tablet, PC or Mac computer, record lessons for viewing at a later time, and give students a more interactive learning experience.

Printers

Cartridge-Free Printers

Distributed Printing

Multifunction Graphics Printers

Bring colour printing back to school with Epson printers and all-in-ones. Ideal for educators, administrators and students alike, this innovative lineup — including our groundbreaking EcoTank® Supertank printers and Replaceable Ink Pack System (RIPS) printers — makes colour printing affordable again.

Cartridge-Free Printing for Classrooms

Epson's EcoTank line of Supertank all-in-one printers features Cartridge-Free Printing and revolutionary ink replacement technology. They offer an unbeatable combination of value* and convenience, with super-high-capacity, easy-to-fill ink tanks. These all-in-one printers come with enough ink in the box to print for up to 2 years*, so you can print thousands of pages black/colour** before replacing ink.

Maximize convenience, savings, quality and reliability, all in one incredible printer. EcoTank printers offer the freedom to print in colour, with less impact on your supplies budget — you'll save up to 80 percent on ink with low-cost replacement bottles*** (ET-3750, ET-4750 and ET-16500 only). It's the smart choice for high-volume, high-quality, hassle-free printing.

FEATURES

- **Cartridge-Free Printing** — comes with up to 2 years of ink in the box*
- **Save up to 80 percent on ink with low-cost replacement bottles***** — features easy-to-fill, supersized ink tanks (ET-3750, ET-4750, and ET-16500 only)
- **Chromebook printing right out of the box** — no additional software is required
- **Ultimate wireless solution plus Ethernet** — easy iPad®, iPhone®, Android tablet and smartphone printing²; includes Wi-Fi Direct¹ for network-free printing

*Based on average monthly document print volumes of about 300 pages (ET-3750, ET-4750, ET-16500) and 800 pages (WF-R4640).

**ET-3750/4750/16500 included ink bottle yields based on the ISO/IEC 24712 pattern with Epson's methodology. WF-R4640 included ink pack yields are estimated based on ISO/IEC 24711 test in Default Mode printing continuously. Actual ink yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink colour. All ink colours are used for printing and printer maintenance, and all colours must be available for printing. For more information, visit www.epson.ca/inkinfo

***Savings comparison based on the purchase cost of replacement ink bottles and the cost of enough cartridges to achieve the total page yields of the bottles using the manufacturers' online prices and yields for the highest-capacity cartridges for the best-selling similarly featured consumer inkjet printers priced at \$499 USD or less per NPD, July 2016. Actual savings will vary based on print tasks, print volumes and usage conditions.

****Designed for use exclusively with Epson ink packs.

- **Low total cost of ownership** — select models use up to 70 percent less power than laser printers⁶; and up to 80 percent lower printing costs with the WF-R5190 and WF-R5690⁷
- **Versatile paper handling** — auto 2-sided printing with multiple trays for uninterrupted printing with different paper types
- **PaperCut™ ready** — customizable print management option; manage and track prints from touchscreen via user login or ID card
- **Security features** — PIN number certification for job release; user control access, printer and network settings via Web Config with printer's IP address; SSL/TLS security; IPsec

RECOMMENDED ACCESSORIES

WorkForce Pro WF-5000 Series

- Optional 250-sheet Paper Cassette Tray (C12C817011)

WorkForce Pro WF-6000 Series

- Optional 500-sheet Paper Cassette Tray (C12C932011)
- Optional Cabinet (C12C932681)
- Maintenance Box (C13T671200)

WHAT IS THE REPLACEABLE INK PACK SYSTEM (RIPS)?

WorkForce Pro printers featuring Epson's Replaceable Ink Pack System use high-capacity ink packs that reduce total operating costs, providing amazingly affordable, low-cost printing plus versatile media handling for budget-minded schools.

The replacement ink packs for the WF-R5190 and WF-R5690 deliver enough ink to print up to 50,000 pages black/50,000 colour** — equivalent to 100 reams of paper or up to 35 toner cartridges.***

*Designed for use exclusively with Epson cartridges or ink packs (ink delivery varies by model)†.

**Replacement cartridge and ink pack yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Actual ink yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink colour. All ink colours are used for printing and printer/all-in-one maintenance, and all colours have to be installed for printing. For print quality, part of the ink from the included cartridges or packs is used for printer startup and a variable amount of ink remains in the cartridges or packs after the "replace cartridge" or "replace ink pack" signal. For more information, see www.epson.ca/inkinfo

***About 35 toner cartridges estimate based on print yields of the replacement Black and colour ink packs as compared to highest-capacity toner cartridges for similarly featured colour laser printers based on NPD data, Sept. 2016.

Wide-format, Distributed Printing for Libraries and Media Centres

Epson's WorkForce and WorkForce Pro wide-format printers and all-in-ones offer fast tabloid printing and scanning for pages as large as 13" x 19". Their versatility is ideal for printing posters, flyers and worksheets by both students and staff.

- † Black and colour print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software, and page complexity. For more information, visit www.epson.ca/printspeed
- †† Black print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software, and page complexity. For more information, visit www.epson.ca/printspeed
- 1 Wi-Fi CERTIFIED™; level of performance subject to the range of the router being used. Wi-Fi Direct may require printer software.
- 2 Most features require an Internet connection to the printer, as well as an Internet- and/or email-enabled device. For a list of Epson Connect™ enabled printers and compatible devices and apps, visit www.epson.ca/connect
- 3 NFC requires use of a device that includes NFC, and may require additional software.
- 4 With optional paper tray(s). Number of optional trays varies by model.
- 5 Not all media types are supported for PCL printing.
- 6 Compared to similarly featured monochrome laser printers, priced less than \$500 and under 40 ppm, based upon NPD, June 2015 (WF-M5194, WF-M5694); Compared to best-selling colour single and multifunction laser printers priced at \$699 (USD) or less as of December 2013. Actual power savings will vary by product model and usage (WF-5110, WF-5190, WF-5620, WF-5690); Compared to best-selling colour lasers priced at \$600 (USD) or less as of May 2015. Actual power savings will vary by product model and usage (WF-6090, WF-6590).
- 7 Total costs of printing with the ink included with the WF-R5190/5690 printers and replacement ink compared with the costs of printing equivalent ISO pages with the best-selling similarly-featured colour laser printers (per NPD June 2015). Toner costs based on manufacturers' ISO yields and online pricing; printer costs based on NPD average selling price. Actual savings will vary based on usage conditions.
- 8 Compared to best-selling A3 colour MFPs with MSRP of \$41,000 or less. Competitive data gathered from manufacturer websites and third-party industry sources as of Nov. 2016.

Scanners

Maximize productivity and simplify file management. Our wide array of mobile, desktop, flatbed, photo and large-format scanners makes it easy to capture important student documents, artwork, photos and more.

Mobile Scanners

Desktop/Workgroup Scanners

Flatbed Scanners

Photo and Graphic Arts Scanners

Document Scanners for Staff on the Go

These lightweight mobile document scanners let educators and administrators scan documents, ID cards and more, whether working on campus or remotely. For even more flexibility, this versatile lineup includes a wireless model and ADF model for easy, efficient organization in virtually any setting.

MODEL	WorkForce DS-30	WorkForce DS-40	Epson DS-320
Product Code	B11B206201	B11B225201	B11B243201
Limited Warranty	1-year	1-year	3-year ¹
Power Source	USB	USB, battery or optional AC	AC or USB*
ADF Capacity	–	–	20 pages
Simplex/Duplex Scan Speeds	4.6 ppm/–	7 ppm/–	25 ppm/50 ipm ²
Wireless	–	Yes	–
TWAIN/ISIS [®] Drivers	TWAIN	TWAIN	Both
Scan-to-cloud ³ /OCR Software	Yes	Yes	Yes
Max. Page Length	14"	36" ⁴	44"
Network Interface Unit	–	–	–
Optical Resolution (dpi)	600	600	600

FEATURES

- **Organization on the go** — scanners easily fit in a shoulder bag or briefcase
- **Scan to online storage accounts** — intuitively scan to Dropbox[®], SharePoint[®], Evernote[®], FileBound, Google Drive[™] and more
- **Generate searchable and editable files** — scan to editable Word and Excel[®] files or searchable PDF files⁵
- **Powerful software included** — Epson Document Capture, OCR software and more

RECOMMENDED ACCESSORIES

- Maintenance Sheets for DS-30/DS-40 (B12B818291)
- AC Adapter for DS-40 (B12B867201)
- Separation Pad for DS-320 (B12B819271)
- Pick-up Roller for DS-320 (B12B819251)

*USB power requires USB 3.0 connection port on your computer.

Document Scanners for Records, Grading, Forms and More

These fast, efficient and compact desktop/workgroup scanners breeze through stacks of 2-sided documents — plus rigid ID cards, folded pages up to 11" x 17"* and more. Designed for situations where speed is critical and dependability is paramount, these workgroup scanners offer world-class performance at a significant value.

MODEL	Epson DS-410	Epson DS-530	Epson DS-575W	Epson DS-770	Epson DS-780N	WorkForce DS-860

Network Interface	–	Optional unit	Wireless/Optional unit	Optional unit	Built-in (RJ-45)	Optional unit
Optical Resolution (dpi)	600	600	600	600	600	600

FEATURES

- **Seamless compatibility with document management systems** — TWAIN and ISIS drivers available for easy integration with existing software¹⁰
- **World-class performance and reliability** — advanced paper feed technology includes Dynamic Skew Correction and Double-feed Detection
- **Scan to online storage accounts³** — intuitively scan to Dropbox, Google Drive, SharePoint, Evernote and more
- **Generate searchable and editable files** — scan to editable Word and Excel files or searchable PDF files⁵; OCR software included

RECOMMENDED ACCESSORIES

- Network Interface Unit (B12B808441)
- Flatbed Dock** for DS-530/770 (B12B819011)
- Carrier Sheets
 - DS-410/530/575W/770/780N (B12B819051)
 - DS-860 (B12B813431)
- Roller Assembly Kit
 - DS-410 (B12B819381)
 - DS-530/575W/770/780N (B12B819031)
 - DS-860 (B11B813581)

*Requires optional carrier sheet.
 **Requires Epson Perfection V19/V39 flatbed scanner (sold separately).

Document Scanners for High-speed, High-volume Scanning

Offering high-speed duplex document scanning* along with flatbed versatility, these scanners are the smart solution for fast, easy scanning for virtually any need. Use the high-capacity ADFs* to blaze through stacks of 1- or 2-sided documents, or use the flatbed to scan hardbound books or other odd-sized items.

FEATURES

- **Remarkable tonal range and shadow detail** – film scanning with high Dmax for smooth gradations and fine shadow detail
- **Scan 35mm slides, negatives and film** – select models include a built-in Transparency Unit
- **Automatically remove dust and scratches** – Digital ICE Technologies remove many surface defects from film and prints
- **ReadyScan® LED light source** – for fast scans with no warmup time needed

RECOMMENDED ACCESSORIES

- Fluid Mount Accessory for V800/V850 (B12B818272)
- Transparency Unit for 12000XL-GA (B12B819221)

Scanner Disclaimers

- For more information, go to www.epson.ca/3yearsscannerwarranty
- Based on letter-sized scans at 300 dpi using the AC adapter.
- With Document Capture Pro installed on the connected PC. Internet connection is required. (Windows only on the DS-30/860/6500/7500/50000/60000/70000); wirelessly scan to smartphones or tablets (Android/iOS devices) via the Epson DocumentScan app; wirelessly scan to the cloud, PCs or Macs with Epson Document Capture software, installed on the connected Windows PC or Mac. Internet connection is required (DS-40/575W); with Epson Document Capture software installed on the connected Windows PC or Mac. Internet connection required (DS-320/410/530/770/780N/1630).
- Maximum scan size for Mac is 8.5" x 14"; maximum scan size for Windows® is 8.5" x 36".
- Windows only on some models. See product specifications for more details.
- Based on letter-sized scans at 300 dpi in Black-and-White, Grayscale or Colour Mode.
- Based on letter-sized scans at 300 dpi in Black-and-White, Grayscale or Colour Mode, using the USB or wireless interface.
- Based on letter-sized scans at 300 dpi in Black-and-White, Grayscale or Colour Mode, using the USB interface.
- Based on letter-sized scans at 300 dpi in Black-and-White, Grayscale or Colour Mode, using the USB interface. Scan speed varies depending on network conditions.
- May require Internet access for software download.
- Scan speed based on letter-size paper; 300 dpi from when page scan begins.
- Maximum scan size for Mac is 8.5" x 14"; maximum scan size for Windows is 8.5" x 40".
- Maximum scan size for Mac is 11.7" x 16.54"; maximum scan size for Windows is 11.7" x 17".
- Based on 200 dpi, letter-size, in Black-and-White or colour.
- Maximum scan size for Mac is 11" x 17" via the ADF or flatbed; maximum scan size for Windows is 11.7" x 100" via the ADF.
- Subject to limited warranty terms and conditions. Expedited shipping not available in all areas. Road Service orders must be in by 3 p.m. Eastern Time for Next-Business-Day delivery.
- Optical resolution is the maximum scan resolution of the image sensor, using the definition of ISO 14473.

Augmented Reality Smart Glasses

Augmented Reality

Ideal for computer programming classes, STEM applications and drone training programs, Moverio augmented reality (AR) glasses provide a new way of seeing the world. Epson's revolutionary Si-OLED micro-projection technology delivers a highly transparent display that blends digital content seamlessly with the real world.

Smart Glasses for Classroom Applications

Moverio smart glasses are designed to change how you experience the world around you. Continuing to set the standard in augmented reality, Epson offers an innovative and affordable solution with this lightweight, comfortable eyewear, plus a growing ecosystem of partners and hardware.

MODEL	Moverio BT-300FPV (FPV/Drone Edition)	Moverio BT-350
Product Code	V11H756020F	V11H837020
Binocular Display Resolution	720p (1280 x 720)	
Camera	Front-facing; high-resolution (5MP, 1080p at 30 fps)	
Connectivity	Dual-band wireless connectivity; Bluetooth® Smart (BLE)	
Internal Memory	16GB	
Memory Card Support	Supports microSDHC cards up to 32GB*	Embedded 32GB microSD card
Platform	Touchpad control unit runs Android OS 5.1 and features an Intel® Atom chipset	
Weight	2.5 oz/69 g (glasses only)	4.2 oz/119 g (glasses only)
Battery	Rechargeable with up to 6 hours of battery life**	
Accessories Included	Dark lens shades, mounting clips for DJI™, carrying case	Flip shade, neck strap, soft storage bag

FEATURES

- **Built on an Android platform** — familiar and open development environment, plus access to the Moverio SDK with developer tools and resources
- **Ideal for computer programming students** — students can learn how to program Android and Unity applications to support a wearable display, versus traditional mobile devices
- **FPV Edition** — compatible with DJI GO and GO 4 App, providing drone enthusiasts with First-person View (FPV) piloting to maintain line-of-sight control
- **From the world leader in projection technology** — revolutionary Si-OLED micro-projection technology for superior transparency and amazing colour and contrast
- **Integration with Dino-Lite® handheld digital microscopes** — connecting Moverio smart glasses to a Dino-Lite microscope allows students to view the output directly in their field of view

RECOMMENDED ACCESSORIES

- Quint Controller Dock for Moverio BT-350 (V12H882W02)

*SDHC card not included.

**Battery life may vary considerably depending on applications used, device settings (for example, wireless on or off, brightness setting), and temperature.
