Kantech Partners with LifeSafety Power

LifeSafety Power®

Kantech Partners with LifeSafety Power

LifeSafety Power Supplies are now available for purchase through the Kantech portfolio. Please note that the current SKUs are power supplies ONLY, power supplies with room for the KT controller family will follow early next calendar year.

Power Supplies	Description
LSP Power Supply	
KT-LSP-2SL1	LifeSafety Power 75W Power Supply w/B100 (output module provides secondary 12VDC output), C4 Board (provides 4 outputs and 4 trigger inputs for lock control, fused) in a E1 Enclosure
KT-LSP-3SL1	LifeSafety Power 75W Power Supply w/B100 (output module provides secondary 12VDC output), C8D8 (C8 board provides 8 outputs and 8 trigger inputs for lock control, fused; D8 board provides 8 outputs, fused) in a E2 Enclosure
KT-LSP-4SL1	LifeSafety Power 150W Power Supply w/B100 (output module provides secondary 12VDC output), C8D8 (C8 board provides 8 outputs and 8 trigger inputs for lock control, fused; D8 board provides 8 outputs, fused) in a E4 Enclosure
KT-LSP-C4E1	LifeSafety Power 75W Power Supply w/C4 Board (provides 4 outputs and 4 trigger inputs for lock control, fused) in a E1 Enclosure
KT-LSP-C4D8E1	LifeSafety Power Dual 75/150W Power Supply w/C4D8 Boards (C4 board provides 4 outputs and 4 trigger inputs for lock control, fused; D8 board provides 8 outputs, fused) in a E1 Enclosure
KT-LSP-C8E1	LifeSafety Power 75W Power Supply w/C8 Board (provides 8 outputs and 8 triggers inputs for lock control, fused) in a E1 Enclosure
KT-LSP-C8D8E2	LifeSafety Power Dual 75/150W Power Supply w/C8D8 Boards (C8 board provides 8 outputs and 8 trigger inputs for lock control, fused; D8 board provides 8 outputs, fused) in a E2 Enclosure
