

# Product Specifications

## 1/4" X 1" Fender Washer

Part number FENW141  
Category number 4110  
UPC 781002155102

Fender Washers differ from standard Flat Washers in that their outside diameters are much larger in proportion to their center holes. With this design, a fender washer can be placed under the head of a bolt or nut, to help distribute forces applied when tightening, or to cover an oversized hole.

Physical Characteristics		Packaging Details		Performance Data		Certifications	
Type	Fender Washer	Standard Qty	100	Special Features	Distributes Forces Evenly, Large Surface Covers Oversized Holes	RoHS Compliant	
Size	1/4" x 1"	Sleeve Qty	500			Yes
