

**Product Overview:**

Ideal for conferences, workshops, or spaces where assistive listening may be needed temporarily, the LA-338 Tabletop Tripod provides a sturdy, solid mounting position for your LT-84 Transmitter/Radiator combo or LA-141 Expansion Radiators.

The mini ball head accepts any device with a 1/4"-20 thread opening, and the single lever allows you to move and adjust the ball in any direction. The head is capable of swiveling and panning 360°, and a groove allows it to tilt 90° in one direction.

Weighing just 4.7 oz., the LA-338 can support up to 5lbs and is adjustable to a height of 3.8". It also folds to a length of 7.1" for convenient carrying and storage when not in use.

**Highlights:**

- Compact, lightweight, and fully adjustable
- Ball head swivels and pans 360°, and tilts 90° in one direction
- 1/4"-20 threads fit most devices
- Ideal for use with the LT-84 Transmitter/Radiator combo or the LA-141 Expansion Radiator
- Supports up to 5lbs

**Includes:**

One (1) Tabletop Tripod
