

Product Overview:

Order the exact amount of cable needed for your pre-designed RF or IR assistive listening system with the LA-390 preassembled cable. Each order comes with both BNC connectors attached to our RG-8 cable cut to the desired length. The minimum length per item is 15.2 m (50 ft.).

This is price per linear foot. Please add the length below and simply add to cart. Our team will cut the cable to the desired length.

Highlights:

- Ordered in custom lengths (beginning at 50 ft.)
- Pre-cut and assembled to your desired specifications
- RG-8 cable and BNC connectors made for use with RF and IR system installations

Includes:

One (1) RG-8 50 Ohm Preassembled Coaxial Cable (Per ft.)

Product Specification: RG-8 50 Ohm Preassembled Coaxial Cable (Per ft./3 m)	
Physical	
Material	Conductor: Twisted Bare CopperShield: Braided Bare Copper
Diameter	Conductor: 0.12 in. (3 mm)Insulation: 0.28 in. (7 mm)Overall: 0.39 in. (10 mm)
Cable Type	RG-8/U Low Loss 50 Ohm
Gauge	11 AWG
Weight	Per ft.: 4 oz. (113 g)
Number of Conductors	1
