## Structured cabling for a connected lifestyle

Internet-connected devices and smart technologies now permeate all areas of residential and light commercial buildings. As a result, developers, business owners, and homeowners require a stronger wireless and wired network infrastructure. A structured cabling infrastructure with a **Leviton Structured Media™ Center** provides the reliability, security, and flexibility that smart homes require. It houses all the equipment that controls distribution of signals coming from outside the home, including copper and fiber optic lines for cable, internet, and telephone.

The Structured Media Center also integrates seamlessly with Leviton's comprehensive family of Wi-Fi enabled home solutions:

- **Leviton Smart Load Center** uses intelligent circuit breakers to let you view energy consumption in real time and know when and why a circuit breaker trips
- **Leviton Decora Smart™** Wi-Fi dimmers, switches, plug-ins and more let you control lights, electronics, and appliances

You can control these smart devices from anywhere with the **My Leviton** app, and use your voice to control Decora Smart Wi-Fi lighting through Amazon Alexa or Google Assistant.

### Multi-Dwelling Unit Configuration

Install an infrastructure that delivers the high bandwidth tenants demand, while supporting high-end video and audio.

# Structured Media™

Homeowners and businesses need reliable internet for fast streaming, video conferencing, online gaming, and responsive smart devices. The Leviton line of Structured Media™ Centers creates the ideal solution to keep you connected.

- 7 Populating the SMC
- 8 Advantages of Wireless SMCs
- 10 Plastic Structured Media Enclosures
- 12 Metal Structured Media Enclosures
- 16 Accessories & Tools
- 18 Fiber-to-the-Home, Compact Enclosures & Mounting Brackets
- 20 Voice, Data, TV Panels, & Expansion Boards
- 24 Structured Media Power Supplies
- 23 Splitters & Modules

## The Nerve Center of the Connected Home

For every residence — single-family home, high-rise, or hotel — Leviton offers an unparalleled selection of structured wiring solutions for networking, audio, video, and more. And we offer the ideal central distribution point to manage them all.

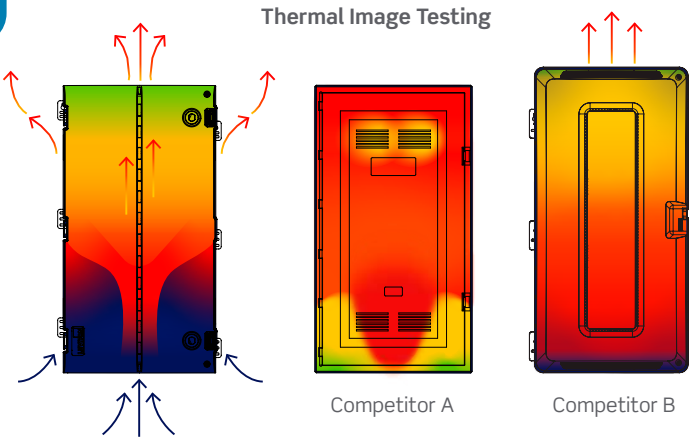

- 1 Structured Media Center:** These versatile enclosures allow you to manage and distribute a full range of voice, data networking, audio, and video wiring from one central location. The enclosures support wood and steel frame construction types, and Wireless Structured Media Centers for expanding the reach of a wireless network.
- 2 Data Patching and Distribution:** Leviton offers durable Cat 6 and 5e panels and modules for data cable distribution. The high-end Twist & Mount Panel makes installation simple and provides easy access for moves, additions, or changes in the home network.
- 3 Telephone Patching and Distribution:** Choose from a wide selection of telephone distribution boards, modules, or panels for telephone and security systems. Our Telephone Input Distribution Panel (TIDP) supports inputs for use with triple-play modems and complements the look and simplicity of our Twist & Mount Patch Panels.
- 4 High-Flex Patch Cords:** eXtreme™ High-Flex Cat 6 Patch Cords allow for tighter radius connections and a cleaner finished appearance inside a dressed Structured Media Center.
- 5 User or Service Provider Active Gear:** Leviton offers a range of accessories for mounting and securing active gear, such as shelf brackets, saddle ties and VELCRO® Brand strips. And when used with a plastic Vented Hinged Door, the enclosures have added depth to support bulkier routers and other equipment.
- 6 Premium and Passive CATV Splitters:** Distribute the incoming RF signal to locations throughout a home via coaxial cable using Leviton passive CATV splitters, or use Premium splitters to optimize the performance of digital cable signals to handle HDTV.
- 7 Integrated Power Supply:** Structured cabling systems rely on active gear that requires low-voltage power and surge protection. Leviton offers power supplies with extra plugs that eliminate the need for bulky power adapters within enclosures.

VELCRO® is a registered trademark of Velcro BVBA. Used with permission.

Plastic Wireless SMCs support the full reach of wireless signals, while providing **easy installation, mounting flexibility, more capacity, and better thermal management.**

### TRI-PLANE HEAT DISSIPATION

- Innovative venting pattern promotes intake of cool air and outward flow of warm air
- Extends the life of active equipment and maximizes performance
- Available when using Vented Hinged Door

Leviton plastic enclosures with Vented Door are up to 25% cooler than competitors

### RETROFIT CAPABILITIES

Easily retrofit your existing Leviton metal enclosure to support stronger wireless signals by adding a plastic Vented Cover or plastic Vented Hinged Door and Trim Ring.

- Adding a Vented Hinged Door creates Tri-Plane Heat Dissipation, which improves airflow and cooling for active equipment by as much as 40% over a vented metal door
- The Vented Hinged Door and Trim Ring add depth, increasing capacity inside the enclosure
- Plastic Vented Doors are compatible with Leviton 14", 28", and 42" metal enclosures

## CONNECTED MULTI-BAY SYSTEM

- Ideal for fiber-to-the-home (FTTH) applications, providing separate dedicated service provider space
- Heat separation and containment
- Fully independent and isolated enclosures for better security

## DOOR & MOUNTING VERSATILITY

- Offset mounting tabs for side-by-side installs
- Fast, tool-free door removal and installation
- Door hinges available on either side for universal left or right orientation
- Engineered so door remains open during install or during moves, adds and changes

Door opens 180° for better access

## RATCHETING HINGE & LATCH SYSTEM

- Fast, tool-free door installation
- Ratcheting feature accommodates wall imperfections and varying drywall thicknesses

Door easily snaps onto latch

## INDUSTRY LEADING CAPACITY

Adding a Vented Hinged Door to a Wireless SMC adds depth, creating up to 18% more cubic inches of capacity, and 14-20% more capacity than competitor plastic enclosures. Also, an enhanced hole pattern allows for more mounting options inside the enclosure.

## WIRELESS STRUCTURED MEDIA CENTERS FOR WIRELESS NETWORKS

Available in three sizes, the Wireless Structured Media Centers support a wide range of building types and floor plans. By consolidating network equipment in a Wireless Structured Media Center, users can boost network functionality, eliminate clutter, and have an easily accessible location to manage all connected devices. Each model offers industry-leading capacity and integrated cable management features for enhanced internal organization.

- Accommodates a variety of telephone/video distribution configurations
- Uses ABS polymer construction to permit the full reach of wireless signals by diminishing the effect of interference
- 180-degree hinged cover allows for quick and easy access to network equipment
- Makes servicing and expansion easy with seven 1-inch and three 2-inch knockouts and additional 1-inch nested knockouts
- Compatible with Leviton Connected Home patch panels, voice, data, video, and audio distribution modules
- Assures safety with UL compliant ABS flame-retardant polymer
- Vented door assists in airflow for cooling active gear
- Ratcheting Hinge and Latch System creates fast, tool-free door installations and helps accommodate for wall imperfections
- Existing metal Structured Media Center enclosure can be retrofitted for RF transparency by using Trim Ring Accessory (49605-28T) and door (49605-28S)
- Optional door locks available

## 14" PLASTIC ENCLOSURES, COVERS, & DOORS

The 14" enclosure creates a single distribution point for all low voltage cables in an apartment, condo, or small home, accommodating basic residential networking systems and accessories.

14" PLASTIC STRUCTURED MEDIA CENTERS (14" X 14.26" X 3.42")	
DESCRIPTION	PART NO.
14" Enclosure with Vented Cover	49605-140
14" Enclosure with Vented Hinged Door	49605-14P
<b>[A]</b> 14" Enclosure Only	49605-14E

<b>[D]</b> 14" Trim Ring Accessory	49605-14T
<b>[E]</b> Structured Media Center Lock & Key for 14", 21", 28", and 42" hinged doors	5L000-L0K

## 28" PLASTIC ENCLOSURES, COVERS, & DOORS

The 28" enclosure serves as command central for virtually all technology including home networking, internet, satellite video, camera, VoIP, telephone, intercom, and audio. It is ideal for homes with more advanced multimedia needs and provides for future growth.

## 42" PLASTIC ENCLOSURES, COVERS, & DOORS

The 42" enclosure is extra long to accommodate extensive voice, data, audio, and video equipment in larger homes or small businesses, and to provide maximum room for expansion. It accommodates a wide variety of modules for home networking, DSL, internet, satellite video, camera, VoIP, multi-line telephones, intercom, audio distribution, and volume controls.

## METAL STRUCTURED MEDIA CENTERS FOR WIRED NETWORKS

Leviton offers four enclosure sizes — 14", 21", 28", and 42" — that address different capacities and provide expandable functionality for “wired” homes. These enclosures provide a convenient termination location for wiring home runs from wall outlets, and create a distribution point for voice, data, and video applications in a single-family residence or multi-dwelling unit.

- Accommodates two or more full-width Pre-Configured Structured Cabling Panels
- One-piece white-steel unit holds quarter-, half-, and full-width expansion modules with the ability to mount most modules vertically or horizontally
- Can be surface mounted or recessed
- Ideal for new installations and retrofits
- Powder-coated white cover features 3/4" overlap to hide irregular drywall cuts
- Multiple knock-outs on top and bottom facilitate cable entry and routing
- Cut-out in base of enclosure for mounting single- and double-gang J-boxes and power modules
- Six 3" square self-healing foam grommets accommodate and protect cable bundles (in metal versions)
- Standards Compliance: ACA and CULus listed; UL Listed for fire and burglary

## 14" & 21" METAL STRUCTURED MEDIA ENCLOSURES, COVERS & DOORS

14" and 21" enclosures create a single distribution point for all low-voltage cables in an apartment or smaller home. The 14" enclosures can accommodate two Pre-Configured Structured Cabling Panels, while the 21" enclosures have a four module capacity. Both are built tough to make installation easier and help reduce labor costs.

### 14" METAL STRUCTURED MEDIA CENTERS (14" X 14.38" X 3.60")

DESCRIPTION	PART NO.
14" Enclosure and Flush-Mount Cover	47605-140

<b>[D]</b> 21" Flush-Mount Cover only	47605-21C
21" Premium Vented Hinged Door	47605-21S

## 28" & 42" METAL STRUCTURED MEDIA ENCLOSURES, COVERS & DOORS

The 28" enclosures can comfortably accommodate up to eight distribution modules, depending on selection and density. The 42" enclosures have generous capacity for up to 12 modules, and can also simultaneously accommodate many diverse functions. In larger homes, many contractors specify multiple Structured Media enclosures, sometimes separating coaxial cable-based CATV or satellite TV equipment from the Cat 5e or Cat 6 UTP-based communications and networking equipment.

# Structured Media™ | Metal Series Extender Brackets

## 28" & 42" METAL EXTENDER BRACKETS

- Extender Brackets provide additional 2" depth
- Allows for better cable management and for large modules within the enclosure
- Made of sturdy, white powder-coated, 18-gauge sheet metal
- Louvers enhance ventilation for added protection against heat build up from installed modules

### 28" & 42" METAL STRUCTURED MEDIA ENCLOSURE EXTENDER BRACKETS

DESCRIPTION	PART NO.
Extender Bracket, 2" depth extension package for 28" Structured Media Enclosure	47612-28B
Extender Bracket, 2" depth extension package for 42" Structured Media Enclosure	47612-42B

### SPOTLIGHT

### Structured Media Extender Brackets

**Leviton Extender Brackets** provide an additional 2 inches of depth and enhanced ventilation for active gear within Leviton 28" and 42" Structured Media Centers. The brackets attach between the enclosure and the cover to form a 2-inch deep, vented frame. The increased depth also allows space for better cable management and for larger modules, such as audio amplifiers, to be mounted within the Structured Media Center.

Extender Bracket Frame  
(Enclosure sold separately)

## MULTI-BAY ENCLOSURES

- Multi-bay enclosure design allows separate lockable sections for FTTH integration
- In a separate bay, a full Leviton structured wiring system can be easily connected and optimized up to Gigabit speeds to maximize incoming fiber optic connection
- Ideal for new installations or retrofits
- Attachment tube supports a multi-bay solution utilizing two or more standard enclosures (what is a standard enclosure?)

MULTI-BAY ENCLOSURES

## MULTI-BAY ATTACHMENT TUBE

Use the easy-to-install Multi-Bay Attachment Tube between two or more Wireless Structured Media Center Enclosures of any size to create a secure, fully isolated location for service provider equipment.

- Isolates service provider equipment from end-user connectivity and controls for better security
- Heat separation and containment keeps equipment in both enclosures cooler and more efficient
- Include Lock and Key for added security on one or more of the connected enclosures
- Allows for two Structured Media Centers to be stacked

### MULTI-BAY CONNECTOR TUBE

## SPOTLIGHT Mounting Bracket

**The 12-Port QuickPort™ Mounting Bracket** offers an economical custom network distribution board to support their exact system requirements. By selecting from Leviton's diverse line of QuickPort connectivity, users are able to mix and match media distribution for up to 12-Ports with any combination of data, video, audio or voice lines, including CAT 6, CAT 5e, HDMI, Coax F-Connector, S-Video, RCA, and traditional telephone connectors. The bracket can be positioned horizontally or vertically to accommodate for cable routing.

### MOUNTING BRACKETS

- Made of sturdy white ABS plastic
- Comes with push-lock pins
- Snap-in installation in any Leviton 14", 21", 28", 30", or 42" Structured Media Enclosure
- Allows for cable management via routing under bracket

#### MOUNTING BRACKETS FOR STRUCTURED MEDIA ENCLOSURES

DESCRIPTION	PART NO.
<b>[D]</b> Single Plastic Bracket, for single expansion board	47612-SBK
<b>[E]</b> Expansion Plastic Bracket, for up to five expansion boards	47612-EBK
Shelf Plastic Bracket, for up to three expansion boards and CATV splitter	47612-VSB
Half Plastic Bracket, for up to three expansion boards	47612-HBK
<b>[F]</b> Data Plastic Bracket, for mounting routers and switches	47612-DBK
<b>[G]</b> 12-Port QuickPort™ Mounting Bracket	47600-QPB

**MULTIMEDIA ADAPTER BRACKET**

- Create a custom audio/video or copper mini-panel in a Structured Media Enclosure
- Constructed of white powder-coated sheet metal
- Mounts vertically or horizontally

**MOUNTING PLATE**

- Constructed of black powder-coated sheet metal
- Comes with push-lock pins

**QUICKPORT™ MOUNTING PLATE**

- Accepts any combination of the following QuickPort adapters or connectors: F-Connector, Banana Jacks, Speaker Binding Posts, RCA, S-Video, Voice Grade, and Cat 5, HOME 5e™, or HOME 6™

**ALL SECURITY BRACKETS**

- Made of white powder-coated sheet steel
- Comes with push-lock pins

**UNIVERSAL SECURITY BRACKETS**

- Available in 6" and 12" lengths, both 1" wide
- Allows an unlimited number of upgrades (restricted only by the enclosure's size) to be added to an existing security system terminated within any Leviton Structured Media Enclosure
- Sold in pairs with self-tapping screws and spacers to easily connect the largest number of security alarm manufacturers' panels

**UNIVERSAL SHELF BRACKET**

- Includes a 30-inch roll of VELCRO® Brand hook and loop with two saddle ties, providing flexible options to secure active gear

**UNIVERSAL SECURITY PLATES**

- Half-Width (6") and Full-Width (12") Plates
- Comes with four adhesive clips for mounting within any Leviton Structured Media Enclosure

### TWIST & MOUNT PATCH PANELS AND EXPANSION BOARDS

Twist & Mount Patch Panels allow installers to punchdown Cat 5e or Cat 6 cabling on component-rated commercial-style patch panels. With a low-profile, it provides extra room for patch cord bend radii in the Structured Media Center Enclosure.

- Used for terminating both voice (Cat 5e) and data (Cat 5e or Cat 6) drops
- Provided blank designation strips make connector labeling a snap
- Universal T568A and T568B wiring labels ensure compatibility in both residential and commercial installations
- Meets or exceeds all ANSI/TIA-568 C standards for Cat 5e and 6 cabling
- Four front-mounted hooks provide easy suspension during punchdown
- 12-port panels accept expansion boards for future growth
- Panel dimensions are 7" (177.8mm) H x 6" (152.4mm) W x 1.5" (38.1mm) D

#### TWIST & MOUNT PATCH PANELS AND EXPANSION BOARDS

### TELEPHONE INPUT DISTRIBUTION PANEL (TIDP)

The companion TIDP matches the Twist & Mount Patch Panel in height and depth, and includes telephone input jacks for easy connection to one, two, three, or four telephone jacks on a cable modem.

- Supports four-line telephone distribution
- Offers choice of inputs and outputs: one 4-pair 110-style IDC input, four industry-standard RJ-11 connector inputs for use with triple-play modems, and twelve modular industry-standard RJ-45 connector outputs
- Includes a security jack to interface with security systems
- Test and Auxiliary Disconnect Outlet (ADO) port for isolation and testing of telephone line connections
- Includes twelve 8" telephone patch cords
- Dimensions: 7" (177.8mm) H x 3.52" (89.5mm) W x 1.5" (38.1mm) D

## PRE-CONFIGURED STRUCTURED CABLING PANELS

Leviton Pre-Configured Structured Cabling Panels combine some of our most popular voice, data, and radio frequency modules to create an economical, one-stop home media distribution point. Some modules are available in expansion styles to fill unused panel slots as shown below. Choose the pre-configured combination that best meets your needs and then enhance it with expansion boards or stand-alone modules

PRE-CONFIGURED STRUCTURED CABLING PANELS - FULL SIZE		
DESCRIPTION	CONSISTS OF	PART NO.
<b>[A]</b> Basic Telephone & Video Panel	- One 1x9 Bridged Telephone Board - One 6-way 2 GHz TV Splitter	47606-BTV

# Structured Media™ | Pre-Configured Structured Cabling Panels, Modules & Expansion Boards

## PRE-CONFIGURED STRUCTURED CABLING PANELS – COMPACT SERIES

Compact Pre-Configured Structured Cabling Panels are the simple solution for basic telephone and TV distribution in multi-dwelling units and apartments, or any place where space and budgets are a priority. Panels feature a space-saving profile and provide simple bridged telephone connections to nine locations and 2GHz video to six or eight locations.

DESCRIPTION	CONSISTS OF	PART NO.
[A] Telephone & 6-way TV	- One 1x9 Bridged Telephone Board - One 6-way 2 GHz TV Splitter	47603-2G6
Telephone & 8-way TV	- One 1x9 Bridged Telephone Board - One 8-way 2 GHz TV Splitter	47603-2G8
[B] Telephone Security & 6-way TV	- One Telephone Security Board - One 6-way 1 GHz TV Splitter	47603-TSV
[C] Telephone Data & 6-way TV	- One 1x4 4-Line Bridged Telephone and 4-Port Cat 5e Combo Board - One 6-way 1 GHz TV Splitter	47603-DP6

STAND-ALONE MODULES WITH BRACKETS	
DESCRIPTION	PART NO.
[D] 1x9 Bridged Telephone Module	47689-00B
[E] Cat 5e Voice & Data Module	47605-C5B
[F] Cat 6 Voice & Data Module	47611-C6B
[G] DSL Filter Module	47616-DSB
Telephone Security Module	47609-TSV

EXPANSION BOARDS			
DESCRIPTION	APPLICATION	FEATURES	PART NO.
[H] Cat 5e Voice & Data Board	Data, Telephone, Fax, Modem	- Patch phone or data connections to six locations - Combine with a TLDM, key system or network switches for added applications - 4-pair 110-type IDC punchdowns - Six Cat 5e RJ45 ports - Printed circuit board	47603-0C5
[I] Cat 6 Voice & Data Board	Data, Telephone, Fax, Modem	- ANSI/TIA-568C channel-rated for Gigabit Ethernet - Combine with Gigabit Internet Router or Ethernet Switch for additional applications - 4-pair 110-type IDC punchdowns and six Cat 6 connectors	47611-0C6

EXPANSION BOARDS			
DESCRIPTION	APPLICATION	FEATURES	PART NO.
[A] VDSL Board w/ 1x5 Bridged Phone w/ Data Pass-through IDCs	Data, Telephone, Modem	- Bridge up to four telephone lines to five locations - Connect up to five separate telephones per line - IDC connectors for Cat 5 or Cat 5e wire - Termination point and pass through for a data connection via IDCs up to 150MHz	47609-D5P
[B] Combo Phone & Data Board w/ 1x4 Bridged Phone and 4-Port Cat 5e	Data, Telephone	- Provides data and phone connections on a single board - 1x4 phone portion provides four telephone lines up to four locations via IDC punchdowns - Four ports of Cat 5e 150MHz data connections via modular RJ-45 connectors and 4-pair 110-type IDC punchdowns	47609-4DP
[C] 1x9 Bridged Telephone Board	Telephone, Fax, Modem	- Bridge up to four telephone lines to nine locations - Connect up to nine separate telephones per line - Printed circuit board - 4-pair 110-type IDC punchdowns	47603-110
[D] 1x6 Bridged Telephone Board	Telephone, Fax, Modem	- Bridge up to four telephone lines to six locations - Connect up to six separate telephones per line - Printed circuit board - IDC connectors for Cat 5 or Cat 5e wire - RJ-45 expansion port	47609-0F6
[E] 1x10 Bridged Telephone Board	Telephone, Fax, Modem	- Bridge up to six telephone lines to ten locations - Connect up to ten separate telephones per line - Printed circuit board - IDC connectors for Cat 5 or Cat 5e wire - Security port - Punchdown security interface to accommodate alarm systems	47609-S10
[F] 1x4 Bridged Telephone Board	Telephone, Fax, Modem	- 1x4 phone board provides four lines up to four locations via IDC punchdowns	47609-004
[G] Telephone Patching Board/Expanded 4-line Telephone Distribution	Telephone, Fax, Modem	- Bridge up to four telephone lines to seven locations - Printed circuit board module - One incoming 4-pair 110-type IDC punchdown - Seven outgoing RJ-45 connector connections - Combine with a Cat 5e board to route telephone to remote locations	47609-EMP
DSL Filter Board	Telephone, Modem	- Filters DSL signal from phone line before distribution throughout home or office - Eliminates need for individual filters at wallplate - Use with any phone distribution module - Printed circuit board module w/ RJ-45 connector and 110-type punchdown	47616-DSF
Telephone Line Distribution Board	Telephone, Fax, Modem	- 19 multi-line telephone connections in combinations of two or four lines - Bridge line 1 service to 12 locations and 4-line service to 8 locations - Connect to Cat 5e Voice & Data Board(s) or additional panels for more connections and easier adds/moves/changes - Independent RJ-45 connector and punchdown security interface to accommodate alarm systems	47603-TDM
[H] 4x12 Telephone Distribution Board	Telephone, Fax	- Bridge up to four telephone lines to twelve locations	47603-12B
[I] 4x18 Telephone Distribution Board	Telephone, Fax	- Bridge up to four telephone lines to eighteen locations	47603-18B

**SURGE PROTECTION & STANDARD AC POWER MODULES**

- For use with 14", 21", 28", and 42" Structured Media Enclosures
- Surge protected units provide EMI/RFI filtering, meet UL 1449 standards
- Power Strip includes three NEMA 5-15R receptacles and 1.5-foot cord attached

**AC POWER MODULES FOR 14", 21", 28", & 42" STRUCTURED MEDIA ENCLOSURES**

DESCRIPTION	PART NO.
<b>[A]</b> Surge AC Power Module w/ two duplex receptacles	47605-ODP
Non-Surge AC Power Module w/ two duplex receptacles	47605-NDP
<b>[B]</b> AC Surge Module w/ six duplex receptacles	48212-06S
<b>[C]</b> 3-Outlet AC Power Strip for Structured Media Centers	49605-APS

**J-BOX KITS**

- J-Box Kit dimensions: 2.00" (50.8mm) H x 3.00" (76.2mm) W x 2.50" (63.5mm) D

**J-BOX KITS FOR 14", 21", 28", & 42" STRUCTURED MEDIA ENCLOSURES**

DESCRIPTION	PART NO.
<b>[D]</b> Surge J-Box Kit, one duplex receptacle, wallplate	47605-ACS
Non-Surge J-Box Kit, one duplex receptacle, wallplate	47605-ACN

**UNIVERSAL DC POWER SUPPLIES**

- Compact units fit into Leviton 14", 21", 28", and 42" Structured Media Enclosures
- Compatible with incoming AC voltage in the range of 100-240 VAC, 50-60 Hz

**DC POWER SUPPLIES**

DESCRIPTION	PART NO.
IEC to NEMA 15A Adapter Power Cord, 12" (accessory for above)	48212-IEC
<b>[E]</b> Versatile Power Supply w/ six 12 VDC connectors and two NEMA 15A receptacles	47605-PSC

**DC BUS**

- Provides fully regulated 12 VDC and 24 VDC power
- Contains six 12 VDC power outputs at up to 1500 mA total
- Contains three 24 VDC power outputs at up to 1000 mA total, including one F-connector for coax connection
- Includes 2.1 mm and 1.3 mm mini power jacks for 12 and 24 VDC

**DC BUS**

DESCRIPTION	PART NO.
<b>[F]</b> DC Bus, 12 VDC and 24 VDC	48212-124

## PASSIVE TV SPLITTERS

- Splits TV signals; outputs for up to six or eight televisions
- Provides digital cable, cable TV, and other TV services, via coaxial cable, to any room in the house
- Die-cast housing and printed circuit board
- Use with the TV Amplifier for increased signal strength
- Dimensions of Splitters:  
1.14" (29.0mm) H x 3.36" (85.3mm) W x 2.65" (67.3mm) D
- Dimensions of Splitters with bracket:  
1.40" (35.6mm) H x 6.58" (167.1mm) W x 2.65" (76.2mm) D

<b>[D]</b> 1x8 Passive TV Splitter w/ bracket for 14", 21", 28", and 42" Enclosures	47690-8C2

## PREMIUM CATV MODULES

- Distribute incoming RF signals (HDTV, cable TV, antenna, or other modulated sources) to 8 or 16 locations throughout the home or office on coaxial cable.
- Meets DOCSIS and SCTE transmission requirements
- Automatically adjust output level on all active ports to match incoming signal level (unity gain)
- Robust machine-threaded, gold-plated brass F-ports meet SCTE requirements
- Termination caps included for unused ports
- Easily installs into Leviton Structured Media Enclosures, horizontally or vertically
- 12VDC power supply included

## MOBILE DEVICE STATION

- Turns a receptacle outlet into a convenient storage location for smartphones and MP3 players
- Installs without creating any new holes in the wall
- Available in both Decora™ and Renu™ styles
- Integrated cable management keeps charging cables organized and protected
- Requires a Leviton wallplate, sold separately
- Ideal with Leviton USB charger/tamper-resistant receptacle

## USB CHARGER / TAMPER-RESISTANT RECEPTACLE

- USB ports with a combined power of 3.6A, ideal for charging tablets and other high-draw devices
- Compact design fits in a standard wallbox, is compatible with standard wallplates, and can be multi-ganged with other standard Leviton devices
- Back and side wired for easy installation
- Smart chip designed for recognizing and optimizing the charging requirements of your device
- Tamper-Resistant NEC® Compliant shutter mechanism blocks access to contacts from most foreign objects

## MOBILE DEVICE STATION & USB CHARGER / RECEPTACLE

DESCRIPTION	PART NO.
<b>[C]</b> Decora Mobile Device Station	47112-00 ^

**RECESSED ONE-GANG RECEPTACLES**

- cULus approved, code-compliant solution offers two 15A/125VAC NEMA 5-15R power outlets
- Supplies AC power for two components (flat panel TVs and video receiver)
- Fits most common electrical boxes available at electrical distributors and home centers

**RECESSED TWO-GANG DUPLEX RECEPTACLE W/ SIX QUICKPORT™ OPENINGS**

- UL approved, code-compliant solution offers two 15A/125VAC NEMA 5-15R power outlets and six QuickPort openings (four blank inserts included)
- Fully compatible with Leviton QuickPort Modules
- Includes plastic electrical box designed for use in new and retrofit construction
- Centralizes connection points for AC power, audio, video, data, and phone
- Wallplate built into device

**RECESSED DEVICES**

DESCRIPTION	PART NO.
1-Gang Recessed Single Receptacle 15A-125VAC, 2-Pole, 3-Wire — NEMA 5-15R, includes clock hanger hook	00688-00*
1-Gang Recessed Single Receptacle, Non-Magnetic Stainless Steel 15A-125VAC, 2-Pole, 3-Wire — NEMA 5-15R, includes clock hanger hook	05261-0CH
<b>[A]</b> 1-Gang Recessed Duplex Receptacle 15A-125VAC, 2-Pole, 3-Wire — NEMA 5-15R	00689-00†
1-Gang Recessed Single Receptacle, Non-Magnetic Stainless Steel 20A-125VAC, 2-Pole, 3-Wire — NEMA 5-15R, includes clock hanger hook	05361-0CH
<b>[B]</b> 2-Gang Recessed Duplex Receptacle and Openings for six QuickPort™ Modules 15A-125VAC, 2-Pole, 3-Wire — NEMA 5-15R	00690-00*

\* = Color: White (W), Ivory (I)      † = Color: White (W), Lt. Almond (T), Ivory (I), Black (E)

**RECESSED ENTERTAINMENT BOX (REB)**

- Affordable solution manages home theater electronics in a single location
- Ideal for new construction (stud-mounted) and retrofit (wall-mounted) applications
- Low-profile frame provides neat, recessed installation
- Optional high-profile cover includes sliding plastic front panel, and channels all wires through the bottom of the unit
- Any combination of line and low-voltage products can be configured in openings
- Paintable white ABS molded plastic for structural integrity

C

**RECESSED ENTERTAINMENT BOX (REB)**

DESCRIPTION	PART NO.
<b>[C]</b> REB Box w/ Low-Profile Frame	47617-REB
REB Box w/ High-Profile Cover	47617-RBH
REB Box w/ Low-Profile Frame, 3 per rack pack counter display	47617-REC
High-Profile Cover	47617-HPC
Low-Profile Frame	47617-LPF
Replacement Snap-in Plates, 2 per bag	47617-PLT

## LEVITON ARCHITECTURAL EDITION™ AUDIO SPEAKER WALLPLATES

Integrated Home Theater and Multi-Room Wallplates combine the build-quality and signal-path purity of a custom “audiophile” plate with the connectivity speed and convenience of a ready-made spring-clip design. For use with low-voltage rings and standard low-voltage junction boxes.

### MULTI-ROOM INSTALL WALLPLATE

- Integrated wallplate for connecting Left and Right Audio Speakers (± connections)
- Two extra openings for additional QuickPort connectors (e.g. adding a subwoofer or A-BUS jack)
- Wallplates feature two QuickPort™ openings for adding other connectors (blanks installed)

### HOME THEATER INTERFACE WALLPLATE

- Accommodates from 5.1 to 7.1 channel surround-sound systems, which connect to the AV Receiver
- Features RCA connectors for connecting subwoofers
- Two extra openings for additional QuickPort connectors (e.g. adding an A-BUS jack or IR port)

A

B

HOME THEATER & MULTI-ROOM WALLPLATES		
DESCRIPTION	Multi-Room Install Wallplate	Home Theater Interface Wallplate
PART NO.	[A] AEMRK-000	[B] AEHTK-000
SPECIFICATIONS		
Connector Type (front of module)	Four audiophile-grade, gold-plated black and red spring clips, two QuickPort openings	14 audiophile-grade, gold-plated black and red spring clips, two RCA connectors, two QuickPort openings
Connector Type (back of module)	Two two-pin in-line pluggable screw terminals	Eight-pin and six-pin in-line pluggable screw terminals
Wallplate Design	Single-gang, impact-resistant plastic	Three-gang, impact-resistant plastic
Mounting Depth	2.5" (64mm)	2.5" (64mm)
Wiring	14-16 gauge speaker wire	14-16 gauge speaker wire

### SPEAKER INPUT PLATES

- Allows for simple, solderless connections to any home entertainment speaker system
- Designed to be used with in-wall speaker wiring schemes

SPEAKER INPUT PLATES	
DESCRIPTION	PART NO.
[C] 1-Gang Single-Spring-Clip Device Audio/Video Wallplate, standard size, polymer break resistant, box mount	40951-1PW
[D] 1-Gang Double-Spring-Clip Device Audio/Video Wallplate, standard size, polymer break resistant, box mount	40952-2PW

D

**DISTRIBUTED AUDIO**

Leviton Architectural Edition™ audio distribution and control modules centralize audio distribution and make for quicker, more reliable connections.

**SYSTEM-MATCHING MODULE**

- Combine with non-impedance-matching Decora™ Volume Controls (SGVST-00W) to control up to six speaker pairs (cannot be used with impedance-matching volume controls)
- Mounts in Structured Media Enclosures and connects six rooms/zones
- AutoSurge™ circuit technology protects speakers from potentially damaging transients
- Transformer-Free™ impedance-matching design ensures linear frequency response, signal integrity, and high-power handling capacity
- Aerospace-grade Cermetile resistors replace conventional autoformers to maintain audio signal purity
- Independent channel grounds assure safe connection for all conventional audio amplifiers
- Detachable cable connectors are compatible with all standard speaker wire sizes (14-18 gauge)

A

SYSTEM-MATCHING MODULE	
DESCRIPTION	PART NO.
[A] System-Matching Module for impedance-matching passive two-channel multi-room audio systems	SGAMP-000
SPECIFICATIONS	
Power Handling	150 W RMS per channel / 225 W peak
Frequency Response (± .5 dB)	10 Hz-40 kHz
Dimensions	2.57" (68.6mm) H x 6.38" (161.9mm) W x 5.38" (136.5mm) D

**1X6 AUDIO DISTRIBUTION MODULE**

- Combines with impedance-matching Decora Volume Controls (SGVSM-00W) to control up to six speaker pairs from an amplifier or receiver
- Mounts in Structured Media Enclosures and connects six rooms/zones
- Parallel connection scheme ensures the best sound quality
- User-removable connectors facilitate installation
- Connects with standard speaker wire
- Meets or exceeds applicable standards: UL and cULus listed

B

1X6 AUDIO DISTRIBUTION MODULE	
DESCRIPTION	PART NO.
[B] 1x6 Passive Audio Module	48211-06A
SPECIFICATIONS	
Wire Gauge	14-18 AWG
Requirements	Product must be used with impedance-matched volume controls or controllers (SGVSM-00W)
Dimensions	6.58" (167.1mm) H x 2.89" (73.4mm) W x 1.42" (36.1mm) D

### STRAUSS VOLUME CONTROLS

Strauss volume controls use a contemporary Decora™ slider design to bring precision and elegance to any installed system. They are available in both standard and impedance-matched versions; color-change kits ensure the right finishing touch for every application.

- Decora slide control with precision 12-position switch (including full OFF position)
- Transformer-Free™ attenuation technology ensures linear frequency response, signal integrity, and high-power handling ability
- Cermetile resistors replace conventional autoformers to preserve audio signal purity
- Detachable cable connector is compatible with all standard speaker wire sizes (14-18 gauge)
- Decora designer styling adds an elegant touch to any décor
- Can be used outdoors when mounted with any compatible Decora all-weather cover

DECORA STRAUSS TRANSFORMER-FREE VOLUME CONTROLS	
DESCRIPTION	PART NO.
<b>[A]</b> Decora Strauss Transformer-Free Volume Control	SGVST-00W
Decora Strauss Transformer-Free Impedance-Matching Volume Control	SGVSM-00W
SPECIFICATIONS	
Frequency Response	20 Hz-20 kHz ± 1 dB
Power Handling	200W peak/100W RMS
Speaker Impedance	4-16 Ohms (nominal 8 Ohms)
Mounting	Standard single-gang design (mounting depth 2.5" (64mm))
Materials	Frame and slider white polycarbonate high-impact, fire-retardant plastic rated UL94 V-0

Today's networks must be fast and reliable, with the flexibility to handle ever-increasing data demands. Leviton can help expand your network possibilities and prepare you for the future. Our end-to-end cabling systems feature robust construction that reduces downtime, and performance that exceeds standards. We offer quick-ship make-to-order solutions from our US and UK factories. We even invent new products for customers when the product they need is not available. All of this adds up to the **highest return on infrastructure investment.**
