SECURITY. SAFETY.
SMART HOME CONTROL.

**TOGETHER,
UNDER ONE ROOF.**

ProSeries A7

Honeywell Home ProSeries Platform by Resideo.

EVERYTHING YOU NEED TO KEEP YOUR HOME SECURE, SAFE & UNDER CONTROL.

At Resideo, we know that your home is as unique as you are. That's why we developed our ultimate professional security system.

Whether you're looking for a system to protect against intruders, alert you to potential hazards or just welcome you home after a long day, ProSeries products bring security, safety and comfort together in a hassle-free package that's easy to control and grows over time alongside your family. So you can relax and enjoy life – feeling protected by a network of security experts.

THE PROSERIES PACKAGE

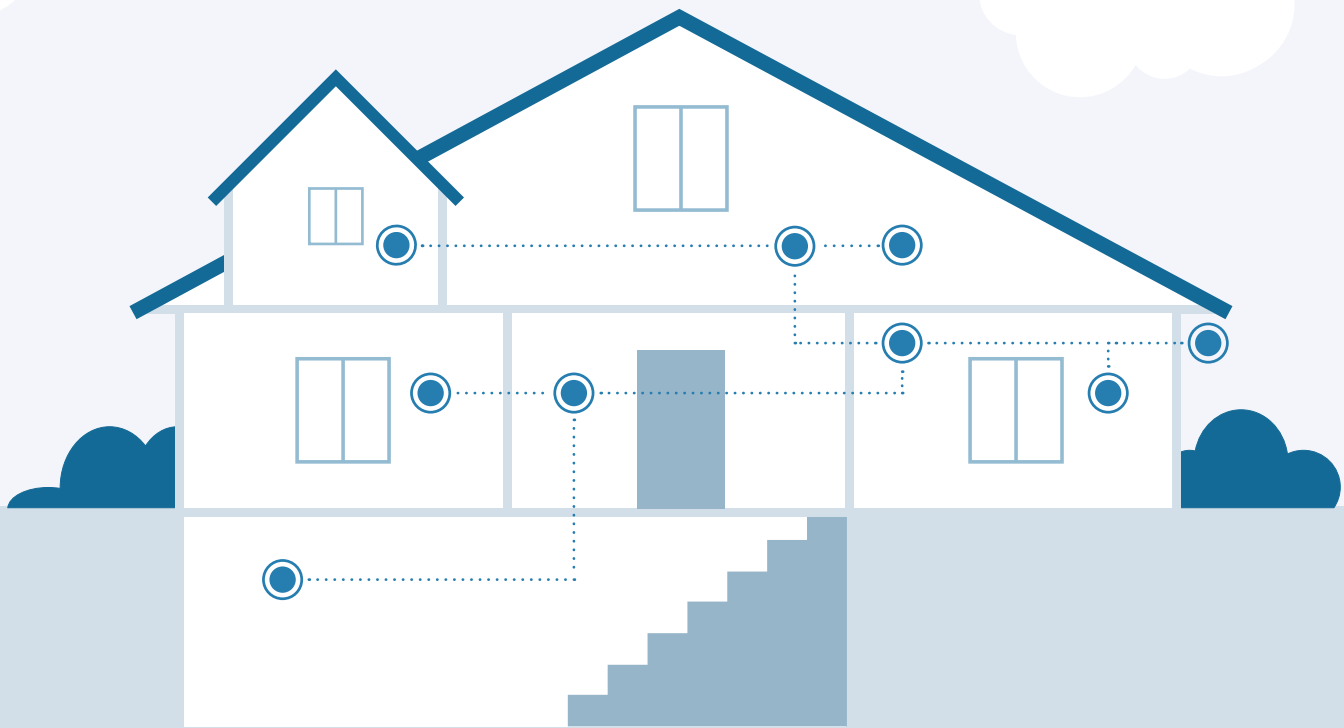

World-class security

Whole-home safety

Smart home control

Motion detectors

Sensors

Professional monitoring

Sirens

World-class security.

THE ULTIMATE SECURITY BLANKET, TAILORED TO FIT YOUR HOME.

As a homeowner, nothing matters more than helping protect your home and the people inside it. So why put them in the hands of a generic, one-size-fits-all security system?

The ProSeries platform offers flexible, professionally installed security tailored specifically for your home and family. It alerts you to movement and potential intruders, allowing you to verify these – reducing false alarms from mischievous pets! What's more, 24/7 professional monitoring can verify alarms and alert appropriate first-responders if necessary. Put simply, no matter how big or small your world ProSeries products help you keep it safe and secure, wherever you are.

Heat sensors

Smoke sensors

Flood sensors

Carbon monoxide sensors

Medical & panic transmitters

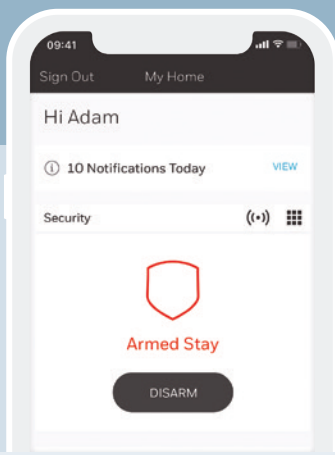

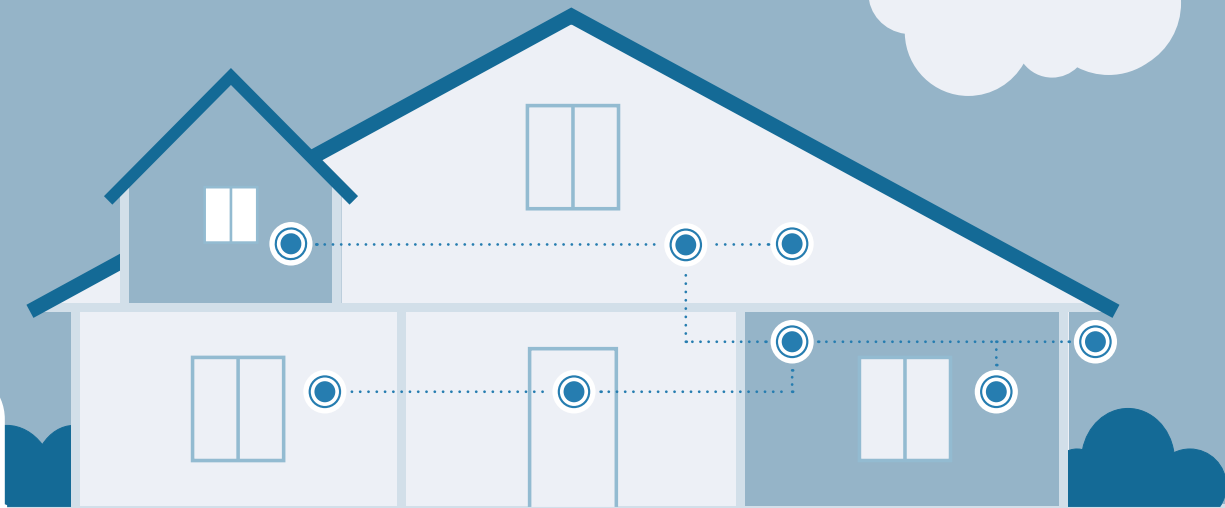

Whole-home safety.

OUR WHOLE FAMILY, BROUGHT TOGETHER TO PROTECT YOURS.

When it comes to looking after the things we love, we all want simple, reliable ways to keep our homes safe. But unfortunately, 'simplest' doesn't always mean 'safest'.

The ProSeries platform combines the whole family of Resideo safety products to create a home that looks after the people inside it. From fires to floods, carbon monoxide to smoke – even medical emergencies – the system helps ensure everyone, no matter where they are in the house, knows if they need to get out quickly. And it's built and installed by home safety experts – no more guesswork with overcomplicated 'do-it-yourself' systems. So if you're looking to protect the things that matter most, trust a professional to bring security and safety together.

Smart home control.

SECURE WHEN THERE'S AN EMERGENCY. INVALUABLE WHEN THERE'S NOT.

Life can be hectic, even if you're not worrying about an emergency or false-alarm at home. That's why the ProSeries platform doesn't just help protect you – it brings your smart home products together, allowing you to manage them from one single system.

ProSeries products connect your home, with dedicated touch-screen panels to control security settings, raise your temperature, adjust lights and much more; all with the touch of a button.

When you're away, the Total Connect app ensures you stay in touch with your home. And when you get back, scene setting functions adjust lighting and thermostats automatically when you disarm the system – so you can enjoy a warm welcome.

Smart home integration

Automatic unlock/disarm

Scene setting function

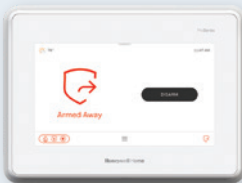

The ProSeries system.

WELCOME TO THE FAMILY.

ProSeries products are designed to be flexible. Its modular design is based on a single platform, so it adapts to any home. And if your needs grow, it can grow right alongside them. Our Pros can help you find the right solution for you and your budget, leaving time for you to focus on what really matters.

What comes next?

RELAX AND LET US TAKE IT FROM HERE.

No two homes are the same, and we're all looking for something a little different from our home security. That's why our network of trusted professionals work with you to tailor the ProSeries system to meet your exact needs.

While full control of the system stays in your hands, you can confidently leave installation, updates, maintenance and monitoring to our professional partners.

Expert installation from trained professionals not only helps ensure your safety and security is installed to high standards from the outset, it also means you don't need to worry about complicated set-ups or tricky instruction manuals.

So just sit back, relax, and let the Pros take it from here.
