

New Product Introduction

Full-color camera and full-color kit

EXCLUSIVE
@ADI

Applications:

The Capture Advance full-color camera and kit take 24/7 video surveillance to the next level, providing full-color, true WDR video even in low light environments. The kit is quick to install thanks to the PoE plug and play feature, while the 4MP cameras (those included in the kit and sold separately) boast a built-in microphone and IP66 rating.

Features:

- Full-color, crisp 4MP video even in low light environments
- Cameras boast built-in mic and IP66 rating
- Kit features easy installation with PoE plug and play
- 4K NVR includes a 2TB hard drive, smart search and playback
- NDAA Compliant
