- Steel
- Monel

P22™
PAPER.
Available in:
- Steel

STAPLE FINISHES

Steel:
Low Corrosion Resistance. Ideal for indoor applications.

Stainless Steel:
Corrosion Resistant. Ideal for outdoor applications.

Monel:
Corrosion Proof. Ideal for marine and harsh saltwater applications where fighting the elements is a must.

T50® HEAVY DUTY STAPLES

T50® staples are the world's best-selling heavy duty staple platform. Made to deliver exceptional holding power, these staples are used for all heavy duty stapling applications. **Available in: Steel, Stainless Steel and Monel.**

BEST-SELLING ALL PURPOSE

1/2"
12mm
#508™

BEST FOR:
- Soft Woods
- Insulation
- Carpet Padding
- House Wrap
- Roofing Paper

9/16"
14mm
#509™

BEST FOR:
- Thick Insulation
- Roofing
- Carpet Padding

If the staple stands away from the surface, the staple is too long. Choose the next shorter leg length.

PRO TIP:
Buy the size you think you need, PLUS the next shorter size.

Make sure 3/16" of the staple is inside the base material.

BASE MATERIAL
The harder the base (Oak, Plywood, MDF) the shorter the staple, the softer (Pine, Douglas Fir, Foam) the base, the longer the staple.

JT21™ LIGHT DUTY STAPLES

Built with the same quality and precision as the T50®, these staples utilize a thinner wire in a smaller staple format to deliver great holding power. They are exceptionally easy to fire, making JT21 staples a favorite with crafters, DIYers, and those with limited grip strength. Used for general home repairs, crafting, art projects, and upholstery.

Available in: Steel.

BASE MATERIAL

The harder the base (Oak, Plywood, MDF) the shorter the staple, the softer (Pine, Douglas Fir, Foam) the base, the longer the staple.

T59™ INSULATED CABLE STAPLES

Made for fastening low voltage wires and communication cables without damaging sensitive communication wires. Perfect for any data, video, or communications wires up to 5/16". The insulators come in clear or black to match the wires being fastened.
**Available in: Steel and Stainless Steel.**

T25™ LOW-VOLTAGE CABLE STAPLES

T25 staples feature a round crown design that secures wires without damaging them. The leading choice for low voltage wire applications such as garage door openers, thermostat wire, doorbell wire, alarm systems, and much more.
Available in: Steel and Monel.

P22™ STAPLES FOR PAPER

Designed specifically for stapling paper, P22 staples are used on desktops and counters in restaurants, dry cleaners, floral shops, schools, and homes around the world. The P22 staple is specially designed to fit the Arrow P22 plier stapler and is great for use on bags, tags, papers, and labels.
Available in: Steel.
