# HANDCRAFTED REAL HARDWOOD FURNITURE.

Large furniture manufacturers are busy building an empire of “disposable, throw away furniture”. Year after year, technology allows them to slice wood veneers thinner and thinner. A couple years of use and it is ready to be thrown into the landfill. Hint: “heirloom quality” furniture is not “Made in China” and certainly does not come “ready to assemble” (usually with a 20-page manual and bags full of miscellaneous parts that takes hours to put together). For those who truly appreciate quality furniture, Mentor TV now features a selection of handcrafted Amish TV consoles and entertainment centers.
