

# Tone and Probe Set

Designed specifically for easy cable tracing and identification.

Scan for more information

**Make cable tracing easy** with Platinum Tools' Tone and Probe Set. With its steady tone, push-to-scan button and a clear loudspeaker, quickly trace and identify cable locations on jacks or through walls. Wire bundles are easily penetrated with the tapered probe tip and the probe volume is controlled with a thumbwheel. With common send and receive frequencies, the TP150 is versatile enough to be used with other tone generators or probes.

### Probe Features

- Recessed push-button activates tone scanning when needed
- Tapered tip allows easy penetration of cable bundles
- Side thumb wheel adjusts volume and turns off power to reserve battery power
- Probe Sensitivity: 100Hz~300KHz

### Tone Generator Features

- Slide switch to select TONE/OFF/CONT
- Continuity mode to verify if a wire is broken
- Alligator clips to test pairs and an RJ11 connector for data or phone lines
- Tone Generator Output: 1.5KHz square waveform
