Lose Your Keys. For Good.®

Assure Lock Interconnected

Yale Real Living® Assure Lock® Interconnected combines electronic deadbolts with the convenience of a passage lever for panic proof egress. A key free solution for multi-family housing.

- ▶ Lock and unlock without the hassle of keys using the backlit touchscreen or push button keypads.
- ▶ Property managers can forget the days of rekeying costs by deleting old pin codes and programming new codes for tenants.
- ▶ Simple to install. Field adjustable handing. Available in 4" or 5 1/2" center to center – for use in most applications.
- ▶ Sleek, modern design available in a variety of finishes and lever designs
- ▶ Available with Z-Wave Plus for integration into existing alarm or automation systems.
