

UNIVERSAL DUAL-AXIS SPEAKER MOUNT

The PASBR is a heavy-duty wall/ceiling speaker mount, holding speakers up to 15kg/33lbs. The large square plate attaches to the wall/ceiling and the small rectangular plate attaches to the speaker. The dual-axis mount with compression locking allows for 90° tilt while offering 360° rotation. When fully stretched, the mount puts speakers 140mm/5.5" from the wall or ceiling. The included steel cable provides additional security and safety.

Profile	5.5"
Installation	Ceiling mounted or solid wall mounted

LIMITED WARRANTY

With the exceptions noted in the next paragraph, Vanco warrants to the original purchaser that the equipment it manufactures or sells will be free from defects in materials and workmanship for a period of two years from the date of purchase. Should this product, in Vanco's opinion, prove defective within this warranty period, Vanco, at its option, will repair or replace this product without charge. Any defective parts replaced become the property of Vanco. This warranty does not apply to those products which have been damaged due to accident, unauthorized alterations, improper repair, modifications, inadequate maintenance and care, or use in any manner for which the product was not originally intended.

Items integrated into Vanco products that are made by other manufacturers, notably computer hard drives and liquid crystal display panels, are limited to the term of the warranty offered by the respective manufacturers. Such specific warranties are available upon request to Vanco. A surge protector, power conditioner unit, or an uninterruptible power supply must be installed in the electrical circuit to protect against power surges.

If repairs are needed during the warranty period the purchaser will be required to provide a sales receipt/sales invoice or other acceptable proof of purchase to the seller of this equipment. The seller will then contact Vanco regarding warranty repair or replacement.
