

STI Keyboxes

PRODUCT OVERVIEW

The Keyboxes are an excellent and inexpensive way to protect emergency keys and documents from theft and wrongful use, while keeping them accessible in the event of an emergency. The STI Keybox is a helpful way to store the keys to fire alarm systems, exit doors and other keys that need to be available in the case of an emergency. Available in three sizes, the Keyboxes allow the keys to remain visible, whilst protecting them from unwanted misuse.

HOW IT WORKS

The glass provides an effective deterrent against theft. The Keyboxes are inexpensive and easy to install, and are supplied with fixing kits. Inexpensive replacement glass is also available.
