VP-1124D Digital Power Supply

- Smaller footprint
- Regulated filtered power supply
- Wall, rack/rail mount (mounting bracket included)
- 100-240 V
- Less energy/less heat
- Barrel or wire connection
- Easy installation
- UL certified product
- Meets or exceeds industry standard
- 20 year life cycle for normal paging system
- Output voltage LED indicator
- Indoor use

1 Amp/24 Volt

Description:
The VP-1124D Digital Power Supply is engineered for 20 year life for normal paging service. The VP-1124D is a 1 Amp, 24 Volt regulated filtered power supply that meets federal and state energy requirement including Energy Star Rating. The VP-1124D is UL and cUL Listed and meets VDE and FCC Class B regulations. The VP-1124D is mountable on rack/rail or wall and is easy to install.

SPECIFICATIONS

POWER REQUIREMENTS
Input: 100-240 Vac, 50/60 Hz
IEC-320-C14 input receptacle
Input Current @ 115V, 60 Hz
Rated Output Load: 0.41 A
AC Apparent Power 42.7 VA
Output Voltage: 24 Vdc, 1A Regulated Filtered

ENVIRONMENTS
For indoor use only

HOUSING AND FINISH
Black, high impact ABS plastic case

DIMENSIONS AND WEIGHT
1.22in H X 1.65in W X 4.11in L
(3.10cm x 4.19cmm x 10.44cm)
Weight: 0.40lbs (0.20kg))
Shipping Weight: 3.10lbs (1.40kg)

MOUNTING
Wall, rack/rail, mount near an electrical outlet (wall mount hardware included

ARCHITECTS AND ENGINEERS

The Digital Power Supply, model VP-1124D, shall have an output voltage of 24Vdc, 1 Amp regulated and filtered. Input voltage shall be 100 - 240 Vac, 50/60 Hz. The VP-1124D shall have an input current at 115V, 60 Hz.Rated Output Load shall be 0.41 A. AC Apparent Power shall be 42.7 VA.

The VP-1124D Digital Power Supply shall provide a three conductor grounded power cord with IEC-320-C14 AC input receptacle. 6ft NEMA 5-15P cord. Connections shall be via barrel plug and barrel plug to wire adapter.

The VP-1124D Digital Power Supply case shall be constructed of a black, high impact ABS plastic. The case shall be sealed. VP-1124D shall be rack/rail or wall mountable and shall include a mounting bracket. The VP-1124D shall be UL and cUL Listed. The VP-1124D shall be suitable for indoor use only.

The maximum dimensions shall be: 1.22in H x 1.65in W x 4.11in L (3.10cm x 4.19cm x 10.44cm) Weight shall be approximately: 0.40lbs (0.20kg).
