The Escape Series

Designed to mimic the look of landscape lighting, the weather-proof Escape Series brings Rockustic's superior audio quality to discreet, attractive enclosures that will blend seamlessly into your outdoor environment.

For a complete, packaged solution, Rockustics offers the *Music Garden* system, consisting of four spike-mounted satellite speakers featuring high-powered 4" coaxial 2-way drivers, and one in-ground subwoofer with a high-excursion 8" woofer.

If jobs require more customization or 70V operation, Rockustics also offers à la carte options: The *Periscope Satellites* are available in 4" or 6" models, with full 70V operation (bypass for 8Ω operation included) and can be paired with the 8", 10" or 12" *Subscape Subwoofers*.
