

XS4 Locker Locks

The SALTO XS4 Locker is a locker lock designed to bring all the advantages of access control to lockers and cabinets. The XS4 Locker is perfect for controlling access to lockers, cupboards, cabinets, boxes and show cases, where access control and full audit trailing are required.

Features

- Fully integrated with the SALTO XS4 platform.
- Easy to maintain: Battery change is all that's needed.
- Outer thumbturn with red/green indicator for availability of the locker; electronically managed release.
- User on card audit trailing capability via the SALTO Virtual Network (SVN).
- All communication between the carrier and the electronic lock is encrypted and secured.
- Low battery status information is obtained from users' keycards (SVN) or wirelessly (BLUEnet).
- Full access control rights programmed via software.
- Comes with BioCote® antimicrobial technology.
- Battery pack, electronic components and locking mechanism are all located on the inside of the door, safe from potential vandalism or sabotage.
- Emergency opening through portable programming device (PPD).
