(sold separately)

FS8161T  
Outlet Box  
for flat surfaces

**Add another Outlet,  
the Easy  
Way!**

Adapter  
plate  
converts  
flat box  
for use  
on any  
siding type

FS8161T

FS8171T  
for Dutch Lap

Install a receptacle where you need it; add another outlet box later. It's easy with Arlington's non-metallic threaded-opening outlet boxes.

FS8161T  
for flat surfaces

**Saves Time.  
Convenient!**

The FS8161T box gives you the option of installing the receptacle where you need it – in horizontal or vertical orientation. The threaded openings allow for the installation of additional outlet boxes at a later time.

Convenient and versatile, FS8161T is designed for flat surfaces. We also have an adapter plate for each siding type that converts the FS8161T outlet box for use on all siding types.

- Non-metallic, UV-rated
- Includes two threaded openings
- Installs devices on flat, exterior surfaces. Use with adapter plate for installations on any siding type
- Textured, paintable finish
