

Interconnected Locksets

Grade 2 | Electronic

Interconnected Locksets

Grade 2 | Electronic

Convenient and Effortless Access

Yale electronic interconnected locksets are an ideal choice for multi-family facilities that require easy egress for residents. From the inside, the latchbolt and the deadbolt are retracted simultaneously in a single motion for quick and easy exit.

The electronic keypad provides for easy access to unlock the door, which provides a significant benefit in multi-family applications that commonly require re-keying. The ICL is available with Small Format Interchangeable Core (SFIC), and can be ordered in either 4" or 5-1/2" center to center dimensions.

With field-adjustability and ANSI/BHMA Grade 2 reliability, Yale Works for YouSM.

Benefits

- **Flexible:** Customer orderable center to center dimension installs into most standard door preps; available in 3 keypad styles for user flexibility.
- **Convenient:** Latchbolt and deadbolt retract simultaneously for easy egress; interior thumbturn quickly secures opening
- **Stylish:** 14 lever options and 3 finishes complement any décor
- **Strong and Reliable:** ANSI/BHMA Grade 2 certified for long life
- **Secure:** Available with fixed core, SFIC or LFIC cylinders in a variety of keyways

Features

- 14 lever designs and 3 finishes
- Available in 4" or 5-1/2" center to center
- 2-3/8" or 2-3/4" backset
- ANSI/BHMA A156.12 Grade 2 certified
- Available with fixed core, SFIC cylinders
- Field reversible handing
- 1 year electronics and finish, 3 year mechanical warranty
- Conforms to ADA requirements for barrier free access when installed at the correct distance from the finished floor

Specifications
