

Features

- Provides Class A connection for NACs & P-Link
- Exclusive to the PFC-4064 FACP
- Product includes a 5 year warranty

Description

The CA-4064 is a Class A Expander for the PFC-4064 conventional fire control panel. The CA-4064 allows for Class A wiring of the built in P-Link communication bus and the four (4) built in NAC circuits.

Installation

The Class A configuration requires the use of the CA-4064. The CA-4064 mounts to the provided framework in the fire alarm control panel. Once the card is installed, the additional terminals are provided for the return loop of the NACs and P-Link.

Notes:

1. One (1) CA-4064 Class A expander may be installed per panel.
2. The CA-4064 provides the terminals for NACs and P-Link.

Technical Specifications

Standby Current	15 mA
Alarm Current	60 mA
Ambient Operating Temperature	32°F - 120°F (0°C - 49°C) 10%-93% @ 30°C (86°F) non-condensing humidity
Maximum CA-4064 Expanders	1
Size	(W x H x D) 4" x 6" x 1-5/8"
