
PRE-CONFIGURED L7 SERIES LECTERN IN BRITE WHITE WITH SILVER ACCENTS

L7-F61A-WD-SLHA7 |

FEATURES & BENEFITS

Pioneering the path to designer, height adjustable technical furniture—the L7 Series Lectern, a pinnacle of the workspace desired, height required and aesthetically inspired. This first-of-a-kind lectern visually transforms presentation spaces while delivering the ergonomic flexibility essential to users with varying height requirements, complying with ADA requirements. Flaunting dramatic curves that highlight the generous workspace and a boastful mix of materials—silver accents uniting with a beautiful Brite White finish—results in a lectern that looks as elegant in standing position as it does in the seated position. Distinguish which configurable storage option provides the designated space needed to support the desired AV experience below, then simply select a touchscreen cutout option* or extra storage to don the elegant contour frame top.

*Turret models accommodate either a 7" or 10" touch screen cutout, perfectly pairing with the Crestron 760 and 1060 touch panels.; If turret is not desired, extra storage will be provided.

Built For Integrators:

- Welded steel frame ships assembled allowing the integrator to immediately start the installation in the shop or on-site
- Flexible storage packages to meet the equipment mounting and storage needs:
 - 6 RU rack with document camera drawer and storage
 - 8 RU rack with document camera drawer
 - 10 RU rack with storage
 - 12 RU Rack
- Additional small device storage equipped with removable, tool-free Lever Lock™ small device mounting hidden just below the worksurface
- Integrated power, cable and thermal management for ultimate system reliability
- Popular AVIP plates for higher education application

Designed For Educators:

- Ergonomically engineered to adjust to varying height requirements of its users via electronic lift with 10" of vertical adjustment
 - Design complies with ADA, providing ample room for wheelchair access as well as acceptable height minimum
 - 50" x 19" useable surface area provides adequate workspace and room for all required peripheral devices
 - Wireless charging pad to charge Qi cellular devices during class
 - Additional BYOD connectivity with plenty of USB and AC outlets
 - Storage for markers and microphones
