

WattBox UPS Battery Pack for IP Power Conditioners | 1500 VA

This Pure Sinewave UPS provides battery backup, fully automatic voltage regulation (AVR) to prevent costly interruptions, and Graceful Shutdown of a connected PC via USB port. With this model, you'll get a 1500 VA capacity, up to 5 ½ minutes of battery backup at full load (1200W), and 13 ½ minutes of battery backup at 50% load (600W). This UPS is also designed with user-replaceable batteries, so the battery needed for this unit can easily be found at a local battery store.

OVRC® CAPABILITY

By using the single outlet to back up a WattBox IP power conditioner, you can receive system OvrC updates, which allow you to monitor power and perform basic functions like load shedding configuration. You can also monitor battery health, charge percentage, voltage levels, and current run time.

LOAD SHEDDING CONFIGURATION

This UPS can control outlets based on battery charge percentages when connected to a WattBox product. You can view critical and non-critical percentages through the WattBox user interface and prioritize components via OvrC.

AUTOMATIC VOLTAGE REGULATION

Keep equipment operating safely and protect against voltage fluctuations with automatic voltage regulation (AVR). This technology prevents any voltage drops below 112 volts and any spikes or surges above 128 volts. This unit uses Boost/Buck Topology, which actively corrects brownouts and over-voltages to usable levels.

GRACEFUL SHUTDOWN

With Graceful Shutdown, you can fully protect your computer system, components, peripherals, and data via USB port. In the event of a power loss, this UPS automatically instructs the computer to save your files and then safely shuts it down in an intelligent and orderly manner, avoiding costly damage to critical components.

WattBox UPS Battery Pack for IP Power Conditioners | 1500 VA

WB-OVRC-UPS-1500-1

Battery Recharge Time	4 Hours
Battery Runtime @ Full Load	5 ½ Minutes
Battery Runtime @ Half Load	13 ½ Minutes
Battery Size	12V/9AH
Current Rating	16A
Energy Dissipation (Joules)	1080
Outlets	1
Overload Protection	Yes
Battery Type	Sealed Lead Acid
Color	Black
Dimensions (W x H x D)	17.24" x 3.46" x 20.08"
Power Rating	1350W (Max)
Line Voltage	110 / 120V AC
Rack Mountable	Yes
Rack Spacing	2U
Battery Runtime Based on Load	In Minutes 100%: 0:06:01 90%: 0:07:22 80%: 0:08:83 70%: 0:010:87 60%: 0:13:61 50%: 0:17:30 40%: 0:23:16 30%: 0:33:07 20%: 0:49:62 10%: 0:111:25
Weight	48.30 lbs
