PTD-1

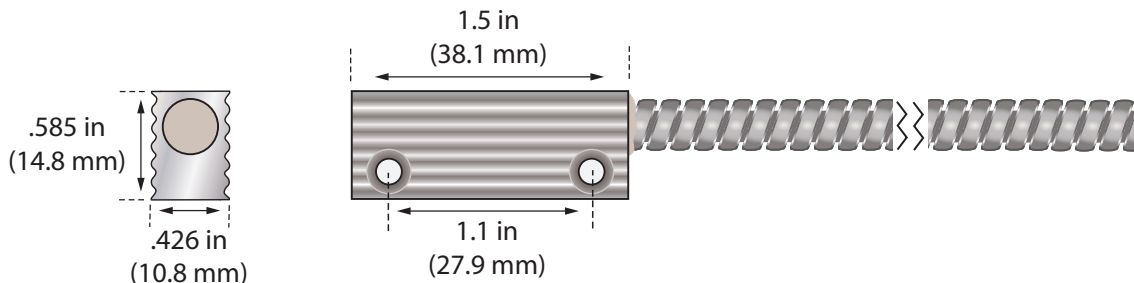

- ◆ 18" armored cable
- ◆ 180° door opening
- ◆ Metal end caps and ferrules
- ◆ Holds wire up to .180" diameter
- ◆ PTD-1-36 available with 36" cable

The GRI PTD-1 Power Transfer Device provides a reliable and attractive method for routing the electrical power from the door into the door frame when installing electric mortise locks or other electrical devices.

The PTD-1 comes complete with 18" of armored cable which provides for a 180° door opening. Also, GRI includes metal end caps and ferrules along with all mounting hardware.

The armored cable allows for up to .180" wire diameter.

WARRANTY: Lifetime warranty against workmanship, material and factory defects.
