INSTRUCTION BOOK FOR  
Model C

---

**DA-LITE**<sup>®</sup>

## Suggested Methods Of Installation

---

Use No. 6 Brackets  
To Hang Behind Beam  
Or Valance

Concealed  
(Allow Room For  
Access)

### Wall Mounting

---

1. Select fasteners of proper type for wall or ceiling involved.
2. Insert fasteners through proper openings provided in back side of end caps.
3. Attach screen securely to studding or other solid surface - never to plaster only.
4. MAKE SURE SCREEN IS MOUNTED LEVEL.

### Ceiling Mounting

---

1. Heavy screw hooks may be installed into wood joists. Other types of hooks or chain may be used for other ceilings or for stage installations.
2. Insert hooks or chain through proper openings provided in sides of end caps. Screen must hang so that flat back of case is perpendicular to floor.
3. MAKE SURE SCREEN IS MOUNTED LEVEL.

## To Open Screen

---

Pull down on pull bail until desired picture area is obtained. Lock into position as on a window shade. Be sure surface is locked before releasing.

## To Re-Roll Your Picture Surface

---

The Model C operates on the same principle as a window shade. Pull down about 4 inches to disengage the locking dog and start the fabric up firmly and quickly.

Large picture surfaces are heavy and will start up too slowly to prevent the locking dog from catching unless help is provided, so keep picture surface moving briskly.

Should the locking dog catch, pull the picture surface down about 4 inches and start the surface up rapidly.

However, do not permit the picture surface to roll up uncontrolled, particularly the last few feet. Allowing the bottom slat to strike the case uncontrolled may result in severe damage to your screen. Use the cord provided for control.

## Protect Your Screen

---

Before re-rolling surface into case, examine both front and back of surface to be sure they are free of foreign matter.

## To Use With A Portable Floor Stand

---

**NOTE:** Can only be used if ordered as a Floor Model C. Wall screens will not operate correctly.

1. Assemble stand according to Floor Stand instructions.
2. Lay screen in cradle of stand with pull bail up.
3. Lift surface by pull bail and hook pull bail over gooseneck of elevating support.
4. Raise upper handle of elevating support until it locks in top position.
5. Raise lower handle of elevating support until full picture area is obtained and locked in position. No stretching, no straining.
6. Stand may be placed on table if extra height is needed.
