

DISPLAY MOUNT SOLUTIONS

PROXIMITY SERIES av storage solutions

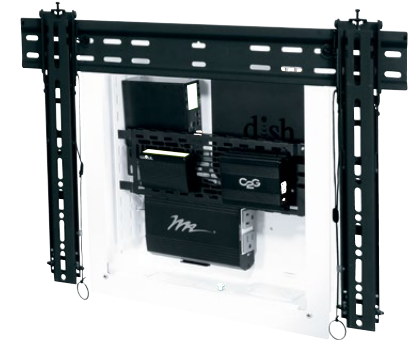

The Proximity Series elevates any mount to an expertly installed AV system by supporting technology behind the display. Options include a mounting plate that integrates with the wall mount and is included with most VDM Series Display Mounts. When more space is required, In-Wall Boxes offer greater storage capacity with the flexibility and convenience of the patented Lever Lock™ tool-free mounting system used in Middle Atlantic racks. With efficient mounting and management of devices, cables and power, Proximity solutions are the professional way to bring technology from the rack to the display.

UNMATCHED CONFIGURABILITY

for behind-display storage

- The industry's only in-wall box built for small device mounting flexibility with patented Lever Lock™ technology built-in
- Four levels of mounting space offer unmatched configurability to maximize space for storage of gear
- Included tool-free Lever Lock™ accessories enable quick installation and efficient servicing of the system
- Patented UMS pattern simplifies mounting of small devices
- Designed to natively incorporate Middle Atlantic compact power solutions
- In-Wall boxes are certified to UL 2416 for safe, reliable installs

Proximity Series Mounting Plates attach to VESA mount arms and provide expert small device mounting and cable management right behind the display

| Model | Description | Dimensions |
|--------------|--|---|
| PRX-WB-9X14 | In-Wall box ideal for storage behind the display, includes 1 Lever Lock™ 4" plate | 9-1/4" x 14-1/4" x 3-13/16" |
| PRX-WB-14X14 | In-Wall box ideal for storage behind the display, includes 2 Lever Lock™ 4" plates | 14-1/4" x 14-1/4" x 3-13/16" |
| PRX-MP-9X12 | Mounting plate attaches to any standard VESA mount | 9" x 12" plate, 17" x 2-3/4" mounting bracket |

VDM SERIES
vision display mounts

The VDM Series is designed to provide safe, reliable display mounting with the professional features that enable efficient installation. Available in a selection of styles and profiles, most models offer the mounting capability you need right out of the box with the included Proximity Series Mounting Plate. When additional capacity is required, pair the VDM mount with a Proximity Series In-Wall Box for even more storage behind the display.

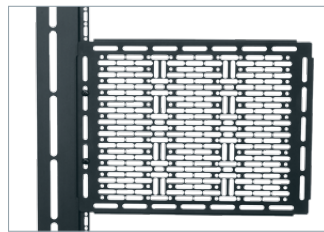

Motion Mounts

Fixed Mounts

Tilt Mounts

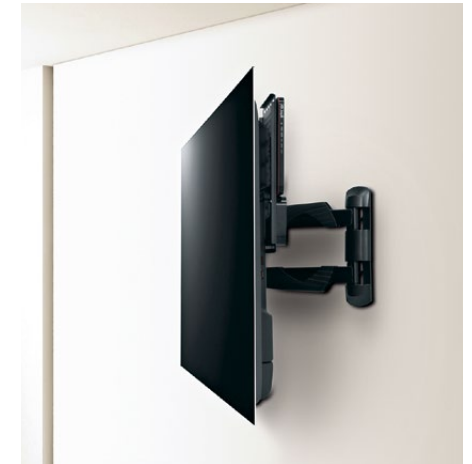

Proximity Series Mounting Plates, included with most standard profile mounts, provide expert small device mounting and cable management right behind the display

DISPLAY MOUNTING

made for you

- Proximity mounting plate included with most standard profile mounts to enable location of the AV system directly behind the display
- Post-install leveling mechanism enables quick micro-adjustment of horizontal plane of display
- Safety locking features keep the display securely mounted
- Certified to UL 2442 for safe, reliable installs
- Available in standard profile or low profile with kick stand for additional space between the mount and wall for ease of installation and servicing
