Smart Plug-In Dimmer, Wi-Fi

 **legrand**[®]

before you start

Review this guide in its entirety. Consult an electrician with any questions or if you are unsure of your abilities.

Caution: To reduce the risk of injury and/or overheating and damage to other equipment:

- For dry, indoor use only.
- Connect the Smart Plug-In Dimmer to a 120 VAC, 60 Hz power source **ONLY**.
- This Smart Plug-In Dimmer is intended for lamps with dimmable bulbs **ONLY**.
- To reduce the risk of electrical shock, this equipment has a grounding type plug that has a third (grounding) pin. If the plug does not fit in outlet, contact a qualified electrician to install the proper outlet.

Visit www.legrand.us/radiant/smart-lighting/support for support.

INSTALLATION VIDEO

installation & setup

1 | plug in the smart plug-in dimmer

Insert the lamp or device to be controlled into the outlet on the Smart Plug-In Dimmer.

The Smart Dimmer up/down buttons can be reversed for use in outlets with the ground plug up:

- Hold the bottom button while plugging in your dimmer. The dimmer automatically adjusts the orientation.

2 | test the smart plug-in dimmer

- a With the lamp or device on, press the top button on the Smart Plug-In Dimmer to turn your device on.
- b Hold the bottom button to decrease the light level.
- c Hold the top button to increase the light level.
- d Press the bottom button to turn your device off.

TROUBLESHOOTING TIP:

If the device is not responding to the dimmer, confirm that the outlet is powered and that the device is functional.

3 | set up your system

- a Download and launch the Smart Lights, Wi-Fi app by Legrand. The app is available on the App Store or on Google Play.

SCAN TO DOWNLOAD

- b Connect your Smart Plug-In Dimmer to your home network by following the step by step instructions in the app.
- c Use the app to control your Smart Plug-In Dimmer.

specifications

Load	Rating
Incandescent/halogen	300 W
CFL/LED	100 W

Legrand reserves the right to change specifications without notice.

NOTE: The dimmer ships in forward phase mode to accommodate most load types. For loads that require reverse phase dimming, such as ELV loads, adjust the phase using the app.

regulatory information

FCC NOTICE

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesirable operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the transmitter's radiating structure(s) and the body of the user or nearby persons.

NOTE: Any changes or modifications to this device that are not expressly approved by the manufacturer will void the warranty and the user's authority to operate the equipment.

FCC ID: A3LCWAM210S

IC NOTICE

This device complies with Industry Canada license-exempt RSS standards. Operation is subject to the following two conditions: (1) this device may not cause interference; and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

RF EXPOSURE STATEMENT

This equipment meets the SAR evaluation limits given in RSS-102 Issue 5 requirements at the minimum separation distance of 15 mm to the human body. Note: Any changes or modifications to this device that are not expressly approved by the manufacturer, will void the warranty and the user's authority to operate the equipment.

IC ID: 649E-CWAM210S
