

Extend the distance between stereo audio devices using the 3.5mm connection, such as CD players, stereos, speakers, PC/TV tuners and other audio devices. You'll enjoy lasting quality and excellent performance no matter the connection. The cable's braided shield design prevents unwanted EMI/RFI interference while fully molded nickel-plated connectors provide excellent strain relief for durable use.

Features & Benefits

Allows for the extension of a 3.5mm connection

Braided shield design prevents unwanted EMI/RFI interference

Fully molded nickel-plated connectors provide excellent strain relief for durable use

Specifications
