

**C2G**  
**200ft (61m) Cat6 Snagless Solid Shielded Ethernet Network Patch Cable - Blue**  
Part No. CG-43122

This shielded snagless Cat6 cable is perfect for use with our [HDBaseT Products](#) or with any other application where long length shielded cable is required. This cable is optimized for superior performance in noisy environments and is designed to handle bandwidth-intensive applications. This cable is designed to meet Cat6 TIA/EIA and ISO/IEC standards for patch cable performance. Each individual pair is bonded together to help maintain the twist-spacing throughout the cable right up to the termination point. The cable design minimizes Near-End Crosstalk (NEXT) levels and features high quality solid conductors, full cable shielding and is terminated with a snagless boot & shielded plug. The combination of the shielded plug, shielded cable, snagless boot and solid conductors provides superior performance over standard stranded conductor patch cables when used with HDBaseT solutions.

## Features & Benefits

HDBaseT Certified

4- pair solid conductor construction

Overall cable shield and shielded connectors

Snagless connector design

## Specifications

### General Info

Product Line	C2G	Color	Blue
UPC Number	757120431220	Country Of Origin	China
Features	Solid Conductors, PoE (Power Over Ethernet)	Application Sector	Residential, Commercial, Industrial
Type	Cable		

### Dimensions

Cable Length	200 ft
--------------	--------

### Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm
--------------------------	-----	--------------------------	------------------------------

### Technical Information

---

Jacket Material	PVC (Polyvinyl Chloride)	Wire Gauge	23 AWG
Cable Type	Ethernet Patch Cable, Booted, Snagless, Shielded (STP)	Jacket Rating	Standard / Non-Rated
Adapter Rear	RJ-45 Male	Adapter Front	RJ-45 Male
