

## Special Purpose Wallplates

Pre-Marked with “EMERGENCY” for Easy Identification

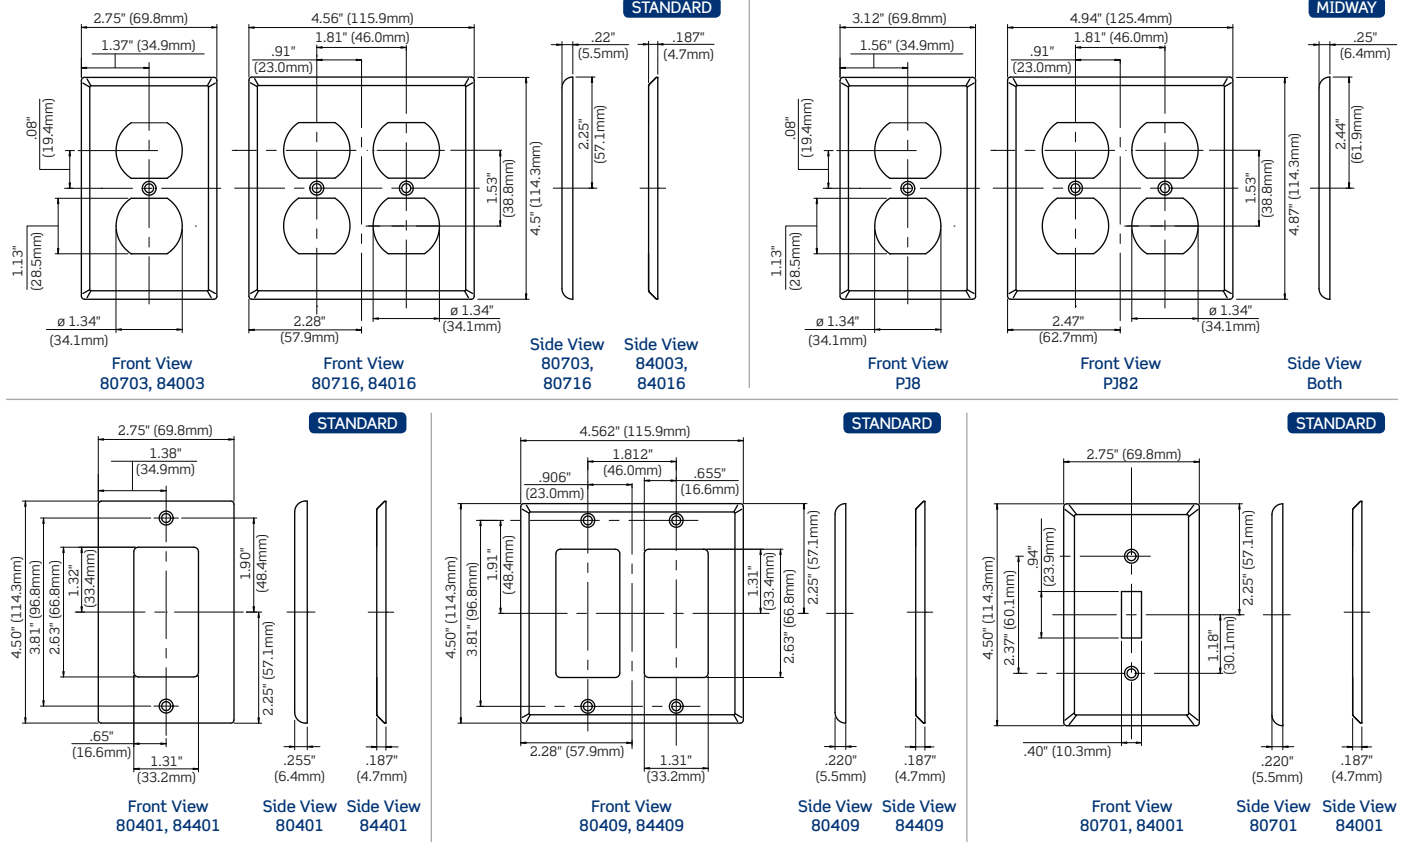

For a convenient and cost effective way to identify switches and receptacles fed by emergency circuits, Leviton offers a series of wallplates pre-marked with the word “EMERGENCY”. This is the simplest way to comply with the National Electric Code® requirements mandating such identification.

### Features & Benefits

- Available in either nylon or stainless steel for durability
- Nylon wallplates are red in color — the most common identifier for emergency circuits — with the “EMERGENCY” lettering in either black or white
- Stainless steel wallplates are non-magnetic, with the “EMERGENCY” lettering in high visibility red
- Available in single- and two-gang configurations; standard or midway sizes
