EZ Patch™

PATCH CORD
DISPENSING
SOLUTION

Installation Made EZ!

The Ortronics® patent pending EZ Patch solution is a revolutionary way to dispense and manage patch cords, reducing installation time and waste. There are no bags to open, tie wraps to undo or straightening necessary; the cords dispense one after another, ready to install. With EZ Patch, staging areas are clean, neat and completely organized.

FEATURES & BENEFITS

- Dispenses patch cords quickly and easily, reducing staging and installation time
- Significantly reduces the amount of trash typically generated from the opening of bagged patch cords, creating a greener, friendlier approach to patch cord packaging
- Provides a more organized staging area for patch cords, eliminating the errors and tangles from traditional staging
- 100% recyclable

EZ Patch uses an innovative clip to connect patch cords together, allowing cords to be distributed over an internal cardboard reel and fed through the front box opening. The corrugated cardboard box and internal dispensing reel are made from 100% recyclable materials, and the clip is made from 25% regrind plastic. Each of these components is fully recyclable after use, making the EZ Patch solution a contributor towards LEED certification.
