

L7 Series

ADA Compliant Height-Adjustable Lectern

Versatile, height adjustable lectern with an elegant design that flexes to the need of any user

features:

- Ergonomically engineered to adjust to the varying height requirements of its users
- Design complies with ADA guidelines, providing ample room for wheelchair access
- Durable, steel frames ships assembled allowing the integrator to immediately start the installation in the shop or on-site
- Turrets available to mount the two most popular Crestron touchscreens
- Open frame includes power distribution as well as cable and thermal management for system reliability
- Connectivity included for easy BYOD connecting on the surface of the Lectern
 - 2 each HDMI and CAT6 connectors
 - Surface power with AC and USB charging as well as Qi wireless charging
- 50" x 19" useable surface area provides adequate workspace and room for all required peripheral devices
- Small device mounting in the frame with tool-free removable Lever Lock™ plates
- Capability to individually replace damaged panels or refinish the entire outer shell to match changing décor without removing equipment
