C2G
4-Port USB 2.0 over Cat5 Extender (TAA Compliant)
Part No. CG-34020

The 4-Port USB 2.0 over Cat5 Extender was designed for systems integrators, installers and other end users seeking an innovatively simple yet powerful solution for extending USB signals beyond their native 16.4 foot length limitation. Specifically for use in commercial environments, the 4-Port USB 2.0 over Cat5 Extender provides connectivity for up to 4 USB devices.

Using true USB 2.0 speed and power, this solution provides increased bandwidth and faster data transfer speeds over standard Cat5/6 cabling at lengths up to 328ft. Integrated UTP power inserter technology provides 500 milliamps of power through the power adapter connected to the receiver. This provides enough power to operate most new USB devices and allows for flexibility in equipment placement. Installation is quick and easy with no software or driver installation required.

Note: If the USB signal is being extended to support a 300 series or 500 series Promethean interactive whiteboard, then we recommend using our product

Features & Benefits

Extends USB 2.0 signals up to 328 feet for 4 USB devices

Uses a single standard network patch cable

Supplies 500 milliamps of power at the receiver

Powered with a single power supply at the receiver

Specifications

General Info

Product Line	C2G	Color	Black
UPC Number	757120340201	Country Of Origin	Canada
Application Sector	Residential, Commercial	Type	Extender, Kit

Listing Agencies / 3rd Party Agencies

CE	Yes

Additional Information

Prop 65 Warning Required	Yes	Prop 65 Warning Language	Cancer and Reproductive Harm

Technical Information

Jacket Material	PVC (Polyvinyl Chloride)	Data Transfer Rate	480 Mbps
Adapter Rear	USB-A Female, RJ-45 Female	Adapter Front	USB-B Female, RJ-45 Female
