

Designed for superior performance that meets or exceeds industry standard Category 6/Class E according to TIA/EIA 568B 2.1 and ISO/IEC 11801. This panel-type half shielded RJ45 jack includes 110-type IDC termination with strain relief caps, and comes standard with 50 µm pinch gold plating on the jack contacts. The 2-piece shielded cover is designed for easy cable installation and protection from external radiated noise. Use for any unloaded keystone wall plate or patch panel.

Please Note: Our keystone jacks will work with our wall plates or any standard keystone and angled multimedia wall plate or patch panel. Not compatible with C2G surface mount boxes.

Features & Benefits

Designed for superior performance that meets or exceeds industry standards
