

The RFBA floor box is built for multiple applications and environments

### Recessed Floor Boxes for Concrete

RFBA2R, RFBA4R, RFBA6R, RFBA10R

RFBA Series of Floor Boxes are versatile recessed activation solutions that provide power, communication and/or audio/video services to open space areas, or directly to workstations. The floor boxes come in various sizes and depths, including 2, 4, 6 and 10-gangs to best fit your specific application. The boxes utilize FloorPort series covers and can be installed in carpet, wood, tile and polished concrete floor coverings. An optional terrazzo ring is available for the 2 and 4-gang boxes for use with bare concrete and terrazzo applications. The RFBA series is designed with improved wire and cable routing, allowing for easier wire pulling in adjacent compartments and around corners.

### Features & Benefits

- **Suitable for Various Applications.** Steel and on-grade (epoxy coated) to meet your specific installation requirements with support for installation in carpet, wood flooring, tile, terrazzo and polished concrete.
- **Various Gang and Depth Options Available.** Various Gang and Depth Options Available. Choose from either 2, 4, 6 or 10-gang boxes to fit your application. The 2 and 4-gang options are available in either a shallow (2.5") depth or standard (3.0") depth box.
- **Common Mounting Plates.** All models share the same mounting plates, allowing for easier configuration and specification.
- **Numerous Conduit Knockouts.** Features knockouts on all sides and bottom of box to allow for greater installation flexibility to work within your environment.
- **FloorPort Activation Covers.** Provides TopGuard protection from water, dirt and debris plus added strength and durability. Available in brushed aluminum and five decorative powder coat finishes: Black, Brass, Nickel, Gray and Bronze.
- **Improved Cable Management.** Internal compartments feature improved wire and cable routing for easier wire pulling in adjacent compartments and around corners.
- **Post-Pour Features:** Allows for adjustment post-pour and features removable dividers that can be installed or removed before or after the concrete pour.

Rectangular extension ring can be used to extend height of box up to 4 inches

All models share eight (8) common device plates, allowing for data and power within the same box

Interior compartment of box features rounded corners for improved cable routing

### Compliance

 **cULus Listed:** Metallic Outlet Boxes for tile, terrazzo, carpet and wood floors.  
File E2961 Guide QCIT

## RFBA Series Floor Boxes with Rectangular Activations Selection Guide

Box Model	Box Type	Box Capacity	Box Depth	Conduit Size	Cover Type
RFBA2R25	Above Grade	2-Gang	2.5"	¾" – 1 ¼"	FloorPort
RFBA2R25OG	On-Grade	2-Gang	2.5"	¾" – 1 ¼"	FloorPort
RFBA2R30	Above Grade	2-Gang	3.0"	¾" – 2"*	FloorPort
RFBA2R30OG	On-Grade	2-Gang	3.0"	¾" – 2"*	FloorPort
RFBA4R25	Above Grade	4-Gang	2.5"	¾" – 1 ½"	FloorPort
RFBA4R25OG	On-Grade	4-Gang	2.5"	¾" – 1 ½"	FloorPort
RFBA4R30	Above Grade	4-Gang	3.0"	¾" – 2"*	FloorPort
RFBA4R30OG	On-Grade	4-Gang	3.0"	¾" – 2"*	FloorPort
RFBA6R30	Above Grade	6-Gang	3.0"	¾" – 2"*	Large FloorPort
RFBA6R30OG	On-Grade	6-Gang	3.0"	¾" – 2"*	Large FloorPort
RFBA10R55	Above Grade	10-Gang	5.5"	¾" – 2"	Large FloorPort
RFBA10R55OG	On-Grade	10-Gang	5.5"	¾" – 2"	Large FloorPort

\* Additional 2HUB accessory is needed on the 2, 4 and 6-gang boxes if using a 2" conduit feed to the box. Largest knockout without the 2HUB accessory on the 2, 4 and 6-gang boxes is 1 ¼".

## Resource RFBA Series Floor Boxes with Rectangular Activations Ordering Information

### RFBA2R25

**2-Gang RFBA Floor Box, Shallow 2.5" Depth** – Steel floor box designed for above grade installations. Features 2-gangs of box capacity with 3" available behind plates. When ordering device plates for box, 2 blank device plates (Cat. No. RFBAB) must also be ordered to seal off wire and cable routing passageways. Fully adjustable before and after concrete pour. Designed for carpet, wood flooring, tile, terrazzo and polished concrete applications.

**Concrete Pour:** Minimum concrete pour without collar is 2.5". If using the collar, pour should be 3".

Sold Separately:

- FloorPort Covers
- Device Plates

### RFBA2R25OG

**2-Gang RFBA On-Grade Floor Box, Shallow 2.5" Depth** – Steel floor box designed for on-grade installations with a fusion-bonded epoxy for use on metal reinforcement bar and related accessories before encapsulating in concrete. Features 2-gangs of box capacity with 3" available behind plates. When ordering device plates for box, 2 blank device plates (Cat. No. RFBAB) must also be ordered to seal off wire and cable routing passageways. Fully adjustable before and after concrete pour. Designed for carpet, wood flooring, tile, terrazzo, and polished concrete applications.

**Concrete Pour:** Minimum concrete pour without collar is 2.5". If using the collar, pour should be 3".

Sold Separately:

- FloorPort Covers
- Device Plates
