

This DisplayPort to VGA Active Adapter Converter is an easy and convenient solution for connecting a VGA monitor to a DisplayPort computer in your home or your office. This adapter converter carries an analog video signal, supports up to a 1920 x 1200 resolution and meets the requirements of high performance applications.

Avoid frustration by simply plugging the adapter into your computer, then attach to the existing VGA cable from your monitor or projector. The portable, compact design also makes it easy to carry in a laptop bag when traveling or on the go.

This adapter converter automatically converts the digital DisplayPort signal to analog VGA, supporting full HD up to a 1920 x 1200 resolution.

Note: EDID is required in order to correctly pass the video signal.

Features & Benefits

Supports legacy VGA display devices, so no need to purchase a new monitor

Dongle style adapter reduces strain, prolonging the life of the port

Plug-and-play, so no additional software or drivers needed

Supports resolutions up to 1920 x 1200, for viewing your screen content at full HD
