

# NEW PRODUCT INTRODUCTION EXCLUSIVE TO ADI

Capture Advance launches DVR and NVR kits, 32-channel NVR

## Applications

DVR and NVR kits offer high-quality, convenient video surveillance solutions for small to mid-sized residential and commercial properties. These kits are quick to install thanks to the PoE plug and play feature, while the cameras boast true WDR and an IP66 rating.

Choose the new 32-channel NVR for larger IP installations, and pair any of these products with our W Box monitors (transitioning now to Capture branding).

## Features

- Easy installation with PoE plug and play
- Cameras provide true WDR, ensuring a clear HD image even in low light environments
- Kit DVRs and NVRs include a hard drive with at least 2TB storage
- 32-channel NVR does not include a hard drive, but can support two hard drives up to 16TB each
- All products are NDAA compliant

## Available Now
