Walldriller Plus Anchors & Kits

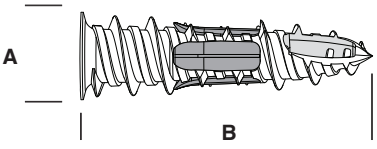

The Walldriller Plus is designed to offer superior holding power in drywall material. Its fine centered point helps guide the anchor into the wall with flawless precision. A sharp profile thread cuts deeply into the hole without damaging the drywall, ensuring superior holding power and stability. The sharp cutting edge reduces the force required to cut the material, making it a self-drilling anchor without pre-drilling. Available sizes: #6, #8, #10 and #12.

Features and benefits:

- Bi-material technology.
- Fast and easy to install.
- No pre-drilling, the only tool required is a driver.
- Designed to install smoothly and easily through drywall.
- Expands and grips tightly behind the wall.
- Superior support loads.
- Anti-vibration.
- Safe for ceiling application.

Do not use for mounting televisions using swivel or full-motion mount and/or extending arm.
