IEC Power Inlet[™]
IEC-46W-6RA

Provide remote power and surge protection to your wall mounted HDTV with the Midlite IEC Power Inlet.

The IEC wall plate fits flush to wall, typically used in A/V and appliance applications such as Flat Screen TVs and Projectors. Wall Depth required to mount this plate is only 3/4". Use mounting brackets or backless boxes when used with MIDLITE's exclusive non-metallic splice kit 2-wire connection.

Prewired 6" pigtail

Optional Splice Kit for easy installation

Eliminates clearance issues and installs with just a mounting bracket.

1/2" Drywall

3/4"

Hide Outlets Directly Behind Flat Panel HDTV

Décor Style Wall Plate & 6' Right Angle Power Cord included

Power Provided to IEC by Plugging Directly into Wall Outlet or Surge Protector

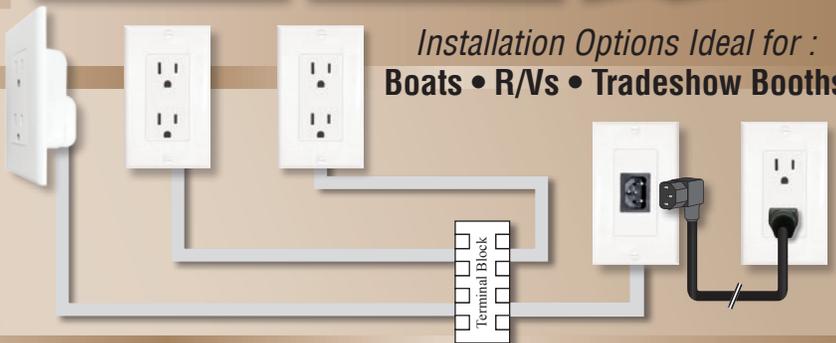

Installation Options Ideal for :
Boats • R/Vs • Tradeshow Booths

Part No: IEC-46W-6RA

(6' Right Angle Power Cord, Wall Plate and Screw Hardware included)
