Cat6a 110-Style Angled Patch Panel, 48-Port, 2RU, Cable Management Bar Included

MANAGING AND ORGANISING COPPER ETHERNET NETWORK

Overview

The 48-port Cat6a angled patch panel with 110 punch down termination is color coded for both T568A and T568B wiring, providing the perfect solution for any voice or LAN application. For hassle-free connections, this Ethernet patch panel offers straight Cat6a ports with 110 type termination, making it easy to insert and remove your cables. The clear numbering on the front and back of the network patch panel enables quick and easy identification of cable runs. The angled design facilitates proper bend radius control to manage the cable.
