Specifications

Keystone Surface Mount Multimedia Boxes

KEY FEATURES

- Works with standard Signamax key stone jacks

- Snap-on assembling cover design

- UL safety verified

- Can be used in commercial or home cabling environments

- For use with data, multimedia, voice and fiber modules

- ANSI/TIA /EIA -606 compliant

- UL94V -0 fire retardant plastic

- Removing the "knock-out" in the bottom of the box helps to fit a non-Signamax connector in the box.

Surface mount multimedia boxes are available in a 1-, 2-, 3-, 4- and 6-port versions and support all Signamax standard and multimedia key stone jacks. The 3-port surface mount multimedia box prov ides protection of patch cord connection points,which gives the installation an additional flexibility at such locations as open office environments, warehouses, lobbies/hallways, etc.

The 6-port surface mount multimedia box provides the ability to mix and match up 6 copper, fiber or other media types in one location.

Keystone Surface Mount Multimedia Boxes
