

Diva LED+ dimmer

Diva LED+ Dimmer for Dimmable LED Bulbs

Works with:

Dimmable
LEDs

Incandescent/
halogen bulbs

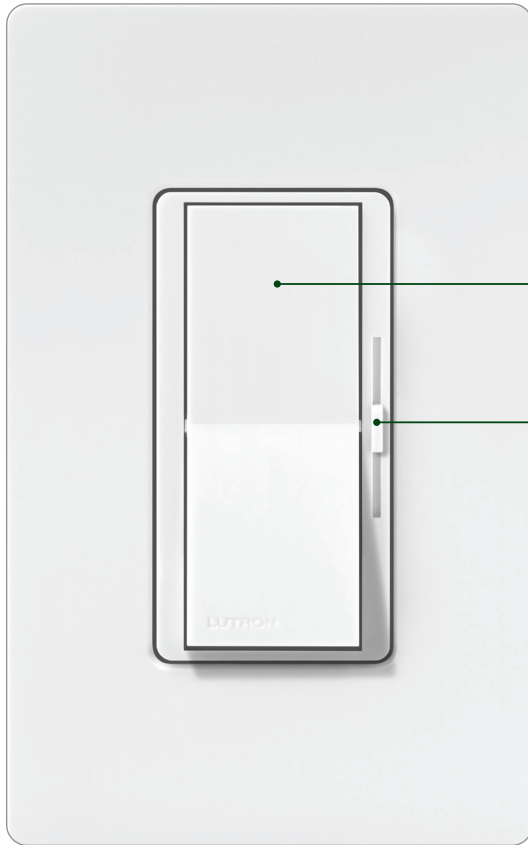

Features and Benefits

- Advanced technology for superior dimming of LEDs
- Patented technology to prevent dimmer interaction, flicker, and shimmer for beautiful LED dimming
- Can be used in single-pole or 3-way applications
- Easy-to-adjust low-end trim using lever on the side
- Large paddle switch with captive linear slider to turn your lights on to your favorite level
- Matches the Diva family of controls including dimmers, switches, fan controls, and more

Elegant aesthetic with expanded color palette
for any application
