

4MP Outdoor Floodlight Camera

Redefine your video offering

The V729 features 4MP video, Video Analytics, and Two-Way Audio while adding the convenience of integrated outdoor lighting. Customers also benefit from proactive deterrence features like red and blue warning lights and a powerful siren. Plus, three SKUs—DC-powered, AC-powered, and PoE—enable installation across diverse property types.

Key Features

Light up the night

Two 3,000-lumen floodlights ensure property owners never miss a detail—day or night.

Control and customize

Since it's fully integrated with Alarm.com, customers can manage settings and automation right from the app and website.

Deter and protect

Customers can use basic motion detection or advanced Video Analytics to create a range of responses to intruders. Up to six settings include full flood light, strobe light, and combination of flood and red/blue lights.

Don't miss a second

A PoE variant provides continuous, encrypted local recordings that can be viewed anytime, anywhere from the Smart View player on web and mobile.

Visit the Alarm.com Partner Portal to access service package pricing, installation, and support resources.
