Smart Security

Alarm.com partners with best-in-class security panel providers to seamlessly integrate with our solutions. Most compatible panels support Dual-Path and offer cutting-edge LTE network options.

Modules also available for Interlogix LTE upgrades: Concord 4, NetworX (NX), Simon XT, and Simon XTi-5i.

◆ *Multi-partition support*
◇ *Ideal for commercial properties*
▼ *SmartStart-enabled*

LTE Compatible Panels

2GIG EDGE

2GIG GC2e
Dual-path not supported

DSC PowerSeries Pro

DSC PowerSeries Neo

Qolsys IQ4 Hub

Qolsys IQ Panel 2

Qolsys IQ Panel 4

Qolsys IQ Pro

Wi-Fi Router

Qolsys IQ WiFi 6

System Enhancement Module

The SEM, now with dual-path, LTE, and Cat-M support, is the easiest and most cost-effective solution to upgrade compatible Honeywell Vista and DSC PowerSeries panels without replacing the existing hardware.

(ADC-SEM300-PS, ADC-SEM300-VT)

Sensors

Sensors are the key to gathering the data needed to successfully automate smart homes and businesses. Compatible sensor types vary by panel, but Alarm.com powered systems can integrate numerous types of sensors.

Types of Sensors

+   Fire
+   Smoke
+   Carbon Monoxide
+   Water
+   Motion
+   Window
+   Door
+   Glass Break

Flex IO™ – Remote Awareness

(ADC-FLEX-100)

The next-generation Flex IO sensor is designed for monitoring property and assets anywhere there's LTE cellular coverage—panel or Wi-Fi not required. From the backyard to the other side of the country, our durable, battery-powered sensor provides real-time alerts so users can keep an eye on what matters most.

Connected Car

Extend smart security beyond the home with Connected Car, an intelligent sensor that allows customers to track their vehicle's location, view engine status and analyze fuel efficiency right from the Alarm.com mobile app. Real-time driver safety alerts, diagnostic alerts and trip information offer customers peace of mind and 24/7 awareness.

Video Cameras & Equipment

Our line of HD, infrared night vision cameras includes indoor, outdoor and commercial-grade hardware controlled through the Alarm.com app. Customers with Video Analytics-capable cameras can receive insightful, intelligent notifications about important activity around their property—including the presence of people, vehicles, and animals. Enjoy an added layer of proactive deterrence with Perimeter Guard™, plus an elevated monitoring experience with Visual Verification at the monitoring station.

□ *Video Analytics supported*
∞ *Two-Way Audio supported*

Third Party Camera Support

You can integrate third-party cameras to any Alarm.com for Business account, making it easy to retrofit video surveillance installations, offer custom systems, and pair third-party cameras to the unified Alarm.com for Business platform. Integrations with cameras using ONVIF and VAPIX will allow for seamless integrations with the Pro Series CSVR.

Pro Series Business Surveillance Kit

Save time and money when installing commercial video at small-to-medium businesses with the Pro Series Business Surveillance Kit. This kit is an all-in-one, 24/7 video monitoring solution that includes everything your customers need to get started: four VC827P small dome cameras, four microSD cards, and a PoE switch—just bring your own ethernet cables!

◆ *Onboard Recording supported*

◑ *White finish; includes optional dark gray cover*

Front and back view.

Business Activity Analytics

With Business Activity Analytics (BAA) for commercial video, your customers can use their Alarm.com security cameras to gain insights on things like foot traffic patterns, counting customers, measuring queue wait times, and more. Add value and improve your customer's business operations with proactive alerts and insightful reports that help them gain a deeper understanding of their business.

The Cloud Video Platform

Interested in supporting larger commercial video applications with more than 64 cameras? Alarm.com's **OpenEye** platform for cloud-managed video surveillance is available for larger commercial installations that need more specialized camera options.

Visit **openeye.net** for more information.

Energy Management

Solar Integrations

Alarm.com is compatible with SolarEdge and Enphase inverters to monitor energy consumption and solar production.

Energy Monitoring Devices

Install power modules and clamps that can manage, monitor and automate every appliance and track the energy footprint of the entire home or business.
