Starling Tab-Tension CLR® 3

Electric Motorized CLR® Projection Screen

Product Description

The **Starling Tab-Tension CLR® 3 Series** is an electric retractable ultra-short throw front projection screen with Ceiling Light Rejection® technology. Its tab-tension design assures a flat and taut projection surface that produces exceptional images that are ripple-free. The CLR® 3 absorbs overhead light to prevent the washout out effect commonly experienced with conventional matte white materials. This allows projector presentations to have contrast-rich images.

Product Design & Features

- Screen is especially designed for use with Ultra-short Throw (UST) tabletop/bottom mounted projectors
- Lenticular sawtooth micro-structure filters out ambient light for superior image brightness and contrast
- Maximizes projector performance and improves black levels in bright and dark room environments
- Black-backing (non-opaque) enhances image brightness
- Tab-tension design helps maintain a flat, taut, and ripple-free projection surface
- Curved aluminum enamel white case is moisture resistant

Technical Data

Projection Type:	Front projection
Light Reflectivity:	Absorbs up to 90%
Projector Compatibility:	Ultra Short-Throw projectors ONLY
CLR® 3 Material:	0.8 Gain
Viewing Angle:	170°
Black Backing:	Yes
Black Borders:	Top and Bottom
Warranty:	2-Year / 3-Year ENR-G Warranty

Control System

- Includes Radio Frequency (RF) and Infrared (IR) remote controls
- Includes wall box controller for manual on-wall operation
- User-friendly programmable vertical drop position
- Built-in selectable channels allow one RF remote programming to control multiple screens
- 12v trigger feature allows the screen's operation to synchronize with the projector's power cycle

Available Screen Materials

CLR® 3
