

SMOKE DETECTOR TESTER

**ADI
PRO**

0E-SMOKETEST tests both photoelectric and ionization smoke detectors to ensure circuitry, alarm and power are functioning and actively sampling the air for any hint of a fire. When used as directed, our formula simulates the entire range of fire conditions – giving you confidence to know your fire alarm system will respond promptly to all fire conditions.

This product is designed to test smoke detector function per NFPA 72 Chapter 14.
