General Terms and Conditions of Sale

1. Acceptance. The following Terms and Conditions of sale are applicable to all Quotations, Contract, Purchase Orders, Order Acknowledgement Forms, and sales of Seller's services and products, and are the only applicable terms and conditions thereto, except for terms establishing prices, quantities, delivery schedules, terms of payment, invoicing, shipping instructions, and the identification of the products associated with each transaction. If any conflict exists between the Terms and Conditions and a Quotation, Purchase Order, Order Acknowledgment form, or sale, these Terms and Conditions shall prevail BY REQUESTING A QUOTATION OF ORDERING ANY PRODUCTS OR SERVICES FROM SELLER, BUYER AGREES TO ALL THE FOLLOWING TERMS AND CONDITIONS. If a written contract signed by both parties is in existence covering the sale of the goods and services, the terms and conditions of the contract shall control to the extent they are inconsistent with these Terms and Conditions.

1. Order Procedure. Buyer may or may not request the preparation of a Quotation prior to ordering any products or services from Seller. Buyer then shall place a Purchase Order with Seller. By placing a Purchase Order, Buyer makes an offer to purchase products or services from Seller pursuant to these Terms and Conditions. Seller, in its discretion, may accept or reject the Purchase Order. If Seller accepts the Purchase Order, Seller shall issue an Order Acknowledgement Form confirming Buyer's order. No Purchase Order is binding on Seller unless accepted by Seller as provided in these Terms and Conditions.

2. Quotations. All Quotations by Seller are subject to change or withdrawal without prior notice to Buyer unless otherwise specifically stated in the Quotation. Quotation prices are valid on Purchase Orders placed within 90 days of the quote being issued, unless otherwise specifically stated in the quotation. If no order is placed within the stated time frame, prices may be adjusted to reflect the then-current published prices, surcharges, escalators, or other pricing adjustment due to, among other things, costs of materials, labor, transportation, taxes, duties, and other cost increases to Seller. All resulting Purchase Orders become effective only if and when approved and accepted in writing by Seller by the issuance of its Order Acknowledgement Form. Seller reserves the right to discontinue manufacture of any products or change products materials, design, or specifications without notice.

Quotation prices are valid on Purchase Orders placed within 90 days of the quote being issued, unless otherwise specifically stated in this quotation. If no order is placed within the stated time frame, prices may be adjusted to reflect the then-current published prices, surcharges, escalators, or other pricing adjustment due to, among other things, costs of materials, labor, transportation, taxes, duties, and other cost increases to Seller. All resulting Purchase Orders become effective only if and when approved and accepted in writing by Seller by the issuance of its Order Acknowledgement Form. All Quotations and resulting orders are subject to Seller's Terms and Conditions set forth in the price book.

3. Site Requirements.

a. The Quotation is contingent upon all work being performed during normal business hours unless otherwise negotiated and a mutually agreeable schedule. The Quotation is calculated on one continuous installation engagement based on acceptable site conditions where other dependent scopes have completed preparation for proposed materials (i.e. electrical work, floor work, adjacent construction). When Buyer has given authorization for work to begin, no other

scopes may impede Seller's ability to complete installation in agreed upon area. Seller reserves the right to invoice for costs that are incurred due to unacceptable site conditions or delays by others resulting in additional installation visits.

b. Signed acceptance by Buyer of shop drawings and/or submittals shall be interpreted as acceptance that proposed scope is the correct interpretation of construction documents. Any field verification and/or work required by others as detailed in the submittal will be provided and coordinated by Buyer. Work shall not begin nor shall orders be placed for any projects until all shop drawings and submittals have been approved in writing by Buyer.

4. Warranty. Seller warrants only that all products sold pursuant to a Quotation or Purchase Order will conform to the description in the Price Book and will be free from defects in workmanship and materials. The duration of each product warranty is dependent on the particular product. Refer to EAD & DHW warranty statement. Extended warranties may be available for an additional cost. Seller is not responsible for defects or damages caused by wear and tear, consumable materials, vandalism, fires, storms, floods, acts of God, misuse, abuse or alteration by any company other than Seller. Seller further warrants that Buyer will receive good and valid title to the products. Any claim on account of nonconforming or defective products or for any other cause whatsoever shall conclusively be deemed waived by Buyer unless written notice thereof is given to Seller promptly after discovery but no later than sixty (60) days from date of shipment. Seller shall have the right either to replace or repair any nonconforming or defective products, to refund the purchase price upon return of the products, or to grant a reasonable allowance on account of such nonconformance or defect Seller's liability and Buyer's exclusive remedy for nonconforming or defective products shall be limited solely to replacement, repair, refund, or allowance as Seller may elect. Seller shall be given reasonable opportunity to investigate all claims and no materials shall be returned to Seller until after inspection and approval by Seller and receipt by Buyer of written shipping instructions from Seller. Buyer acknowledges and agrees that the remedies set forth in this paragraph are Buyer's exclusive remedies for the delivery of nonconforming or defective products.

Additional Warranties

a) No credit will be provided for any work completed by others during warranty term.

b) Warranty work will be performed during normal business hours with our standard response times. Any warranty work taking place beyond normal business hours or with expedited response time may be billable.

c) Products repaired or replaced under the warranty are warranted only through the remainder of the original warranty period.

DISCLAIMER OF FURTHER WARRANTIES. EXCEPT AS SET FORTH ABOVE, THERE IS NO WARRANTY, REPRESENTATION, OR CONDITION OF ANY KIND, EXPRESS OR IMPLIED (INCLUDING NO WARRANTY OF MERCHANTABILITY OR FITNESS OF THE PRODUCTS FOR ANY USE CONTEMPLATED BY BUYER) CONCERNING SELLER'S PRODUCTS OR SERVICES AND NONE SHALL BE IMPLIED BY LAW.

5. LIMITATION OF LIABILITY AND REMEDIES. SELLER SHALL NOT BE LIABLE, AND BUYER WAIVES ALL CLAIMS AGAINST SELLER FOR ANY INCIDENTAL, CONSEQUENTIAL, OR SPECIAL DAMAGES, INCLUDING WITHOUT LIMITATION, LOST REVENUES AND PROFITS EVEN IF SELLER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. BUYER'S EXCLUSIVE REMEDY FOR ANY CAUSE OF ACTION UNDER THESE TERMS AND

General Terms and Conditions of Sale (cont)

CONDITIONS IS A CLAIM FOR DAMAGES AND IN NO EVENT WILL DAMAGES OR ANY OTHER RECOVERY OF ANY KIND AGAINST SELLER EXCEED THE PURCHASE PRICE OF THE SPECIFIC PRODUCTS OR SERVICES AS TO WHICH THE CLAIM IS MADE. SELLER WILL NOT BE LIABLE TO BUYER FOR ANY LOSS, DAMAGE, OR INJURY TO PERSONS OR PROPERTY RESULTING FROM THE HANDLING, STORAGE, TRANSPORTATION, RESALE, OR USE OF THE PRODUCTS IN MANUFACTURING PROCESSES, OR IN COMBINATION WITH OTHER SUBSTANCES, OR OTHERWISE.

6. Intellectual Property Indemnification. (a) Seller agrees to defend, indemnify and hold Buyer harmless against any claims, costs, damages, liability and expenses resulting from actual or alleged patent, trademark, or copyright infringement, misappropriation of confidential information, or violation of any other intellectual property right, domestic or foreign, in the selling or use of any part or product that is owned by Seller and that pertains to the subject matter of a Quotation, Purchase Order, or sale of products or services (provided that the product is not modified in anyway by Buyer or any other party, and that the product is used in the manner intended by Seller). If a suit or claim results in any injunction or any other order that would prevent Seller from supplying any product falling under a Quotation, Purchase Order, or sale, or if the result of such a suit or claim would, in the reasonable opinion of Seller, otherwise cause Seller to be unable to supply such products, Seller shall have the right, at its option, if it so chooses, to do one or more of the following: (i) secure an appropriate license to permit Seller to continue supplying the products to Buyer; (ii) modify the relevant product so that it becomes non-infringing, provided that any modification does not cause any material change to the operation or performance of the product; or (iii) replace the relevant product with a non-infringing but practically equivalent product. (b) Buyer agrees to defend, indemnify, and hold Seller harmless against any claims, costs, damages, liability and expenses resulting from actual or alleged patent, trademark, or copyright infringement, misappropriation of confidential information, or violation of any other intellectual property right, domestic or foreign, in the making, using or selling of any product or using any process that is owned by Buyer or is designed or specified by Buyer and that pertains to the subject matter of a Quotation, Purchase Order, or sale.

7. Ownership of Inventions. All drawings, know-how, designs, confidential information, and the like disclosed to Buyer by Seller and all rights therein will remain the property of Seller. Buyer shall have no claim to, ownership interest in, no license to, or no rights to any information provided or communicated by Seller.

8. Lead Times. If applicable, lead times are based on standard requirements by factory to provide materials proposed. Ship dates will be provided as estimate only once order is placed with the factory. Adequate packaging will be provided for any normal shipping circumstance such that materials will be protected and labeled as required. Special packaging may be provided for an additional expense. Shipping will be cost effective unless expedited fees are accepted by Buyer. If materials are to be provided to job site or Buyer location, Seller will make an informed decision as to the best instruction to provide the shipping company. If materials are not required to have direct delivery, materials will be brought to branch for pickup by Buyer. All freight terms shall be FOB. Any claims for damage in transit or lost freight, receiving, and inspection of materials is the responsibility of Buyer. It is a requirement of Buyer to inspect and review all materials prior to accepting shipment.

9. Title/Risk of Loss. All products shall be shipped FOB Seller's manufacturing facility to Buyer's designated delivery location. Unless otherwise agreed by the parties, Seller shall select the method of and carrier for the products. Seller reserves the right to ship items in a single or in multiple shipments. Title and risk of loss to products ordered passes to Buyer upon delivery of the products to the freight carrier. Unless mutually agreed upon in writing, shipping dates are approximate and are based upon prompt receipt of all necessary information.

10. Prices. Quoted price is valid for 90 days. Seller reserve the right to revise quotations after the 90 days. All accepted Purchase Orders are subject to Seller's price in effect at time of shipment. Buyer shall be responsible for any increase in freight rates or transportation charges occurring after Seller prepared the Order Acknowledgment Form. on the Order Acknowledgment Form. Buyer shall pay to Seller in addition to the purchase price the amount of all fees, duties, licenses, and all sales, use, privilege, occupation, excise, or other taxes, federal, state, local, or foreign which Seller is required to pay or collect in connection with products or services sold to Buyer.

11. Payments. Unless otherwise agreed in writing between the parties, all Seller's invoices are payable within thirty (30) days of their date. Time is of the essence. Interest on past due amounts will be assessed at the rate of 2% per month (24% per annum), or the maximum allowable by law.

Seller reserves the right to full payment upon completion of work unless credit is pre-established. For any work requiring materials purchase or scheduling, a 50% deposit is due at time of proposal acceptance. Twentypercent (20%) of the Quotation, Purchase Order value may be billed after job award. Joint check agreements may be requested at the discretion of Seller. If payment is outstanding for any one account, work may be stopped and outstanding orders cancelled until account is restored. Should Seller require the use of collection, attorney's fees, or fees for insufficient funds, Buyer agrees that these funds will be repaid to Seller. Seller retains the right to file a lien against all or part of the property being improved. Seller reserves the right to add a 2.5% charge if invoice becomes delinquent beyond terms.

12. Cancellation. In the event a Buyer's Purchase Order and the issuance of an Order Acceptance Form is cancelled, it will be subject to standard 35% restocking fees, cancellation fees, engineering fees, materials & freight costs incurred, and administrative fees. Standard cancellation is 20% of order as long as no materials have been ordered. Should Buyer release material orders, Buyer will be liable for that portion of the job and 20% of the remaining amount of work unperformed/unordered.

13. Storage. If applicable, Seller reserves the right to implement a storage fee if delivery is delayed after agreed upon date. Should project timeline require storage of materials, Seller reserves the right to bill for those materials at the time they have been received at a Seller location, Buyer location, or at job site. Certificate of insurance for stored materials can be provided to Buyer upon request. Signed acceptance by Buyer of shop drawings and/or submittals shall be interpreted as acceptance that proposed scope is the correct interpretation of construction documents. Any field verification and/or work required by others as detailed in the submittal will be provided and coordinated by Buyer.

General Terms and Conditions of Sale (cont)

14. **Insolvency.** Seller may, at any time or times, suspend performance of any order or require payment in cash, security, or other adequate assurance satisfactory to Seller when, in Seller's opinion, the financial condition of Buyer or other grounds for insecurity, including the filing of a petition for bankruptcy, warrant such action.

15. **Force Majeure.** Seller shall not be liable for any delay in fulfilling any order due to (a) fires, floods, strikes, or other labor disputes, accidents to machinery, acts of sabotage, riots, precedence or priorities granted at the request or for the benefit, directly or indirectly, of the federal or any state government or any subdivision or agency thereof, delays in transportation or lack of transportation facilities, restrictions imposed by federal or state legislation or rules of regulations thereunder; or (b) any cause beyond the control of Seller.

16. **Ownership of Equipment.** Unless otherwise agreed in a writing, all material, equipment, facilities, and special tooling, which term includes but is not limited to jigs, dies, fixtures, molds, patterns, special taps, special gauges, special test equipment, and manufacturing aids and replacements thereof, used in the manufacture of the products covered by any order shall remain the property of Seller. Any material, tooling, and equipment furnished to Seller by Buyer shall be and remain the personal property of Buyer with the title to and right of possession remaining in Buyer.

17. **Confidential Information.** All information furnished or made available by Seller to Buyer in connection with a transaction shall be held in confidence by Buyer. Buyer agrees not to use such information or disclose such information to others without Seller's prior written consent. The obligations of this paragraph does not apply to any information which (a) at the time of disclosure was, or thereafter becomes, generally available to the public by publication or otherwise through no breach by Buyer of any obligation herein, (b) Buyer can show by written records was in Buyer's possession prior to disclosure by the disclosing party, (c) is legally made available to Buyer by or through a third party having no direct or indirect confidentiality obligation to Seller with respect to such information, (d) was independently developed by Buyer without use of any of Seller's confidential information, or (e) is required to be disclosed pursuant to applicable law.

18. **Waiver.** No waiver by Seller of any of these Terms and Conditions shall be effective unless explicitly set forth in writing and signed by Seller. No failure to exercise, or delay in exercising, any rights, remedy, power, or privilege arising from these Terms and Conditions shall operate or be construed as a waiver thereof, nor shall any single or partial exercise of any right, remedy, power, or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, remedy, power or privilege.

19. **Assignment.** No assignment of any right or interest or delegation of any obligation or performance of Buyer under this order may be made without the prior written consent of Seller. Any attempted assignment or delegation will be wholly void and totally ineffective for all purposes.

20. **Choice of Law.** All sales, agreements for sale, offers to sell, proposals, acknowledgments and contracts of sale, including, but not limited to, Purchase Orders accepted by Seller, shall be

considered a contract under the laws of the State of Delaware, and the rights and duties of all persons, and the construction and effect of all provisions hereof, shall be governed by and construed according to the laws of the State of Delaware.

21. **Integration Clause.** These Terms and Conditions constitute the entirety of terms and conditions, except as set forth in paragraph one, governing the sale and purchase of products and services sold by Seller. No modification of these Terms and Conditions shall be of any force or effect unless in writing and signed Seller and Buyer. Buyer may desire to utilize its own form of acknowledgment or acceptance of these Terms and Conditions. However, the use of any such form shall be for convenience only. No modification of these Terms and Conditions shall be affected by the acknowledgment or acceptance of purchase orders, shipping instruction forms, bills of lading or any other document containing terms or conditions at variance with or in addition to those set forth herein, all such varying or additional terms being hereby objected to and rejected by Seller and deemed to be waived by Buyer.

22. **Installation Projects. Communication:** Buyer shall communicate all of these installation terms to any end-user receiving installation services from dormakaba. **Work Execution:** Any installation quote is prepared with the understanding that openings within the scope of work ("Work") have doors and frames in good working order. dormakaba will perform the Work in the order set forth in a field survey conducted by an end-user, an end-user consultant, or Buyer prior to beginning the installation. Work shall occur weekdays during normal business hours (M-F, 8am – 5pm, local time). Work performed outside of normal business hours is available at a rate of 135% of the normal base rate. Any Work requested to be performed outside of normal business hours will require start and stop time confirmation with installation site, such start and stop time to be obtained by the Buyer or the end-user. Installation Projects are performed as one continuous installation event, from commencement until the completion of the installation. Unless specifically noted otherwise in writing, there will be additional charges for delays or additional trips not caused by dormakaba. Commencement of installation is conditioned on acceptable site conditions, including the completion of dependent scopes of work (e.g., electrical work, keying meetings, distribution of credentials). When Buyer or end-user has given authorization for work to begin, Buyer or end-user shall ensure no other scopes may impede dormakaba's ability to complete installation in agreed upon area. dormakaba reserves the right to assess a fee for costs incurred due to unacceptable site conditions or delays by others resulting in additional installation visits. Union labor, prevailing wage, and certified payroll are excluded from the installation quote unless otherwise set forth in writing. Insurance certificates will be provided upon request. Coverage is limited to the types and amounts set forth on the insurance certificate. Includes execution of materials only as detailed within proposal. **Additional Charges:** Additional charges may be assessed for delays or additional install time to correct any deficiencies or discrepancies between scope of work and actual jobsite. Any dormakaba materials delivered to Buyer but missing from installation site will be reordered at customer's expense. Any hardware changes or change orders shall be quoted on a separate proposal and timeline. **Storage:** dormakaba reserves the right to assess a storage fee if Buyer or end-user causes delivery to be delayed after the agreed upon delivery date. Should project timeline require storage of materials

General Terms and Conditions of Sale (cont)

after delivery to Buyer or end-user, through no act or omission of dormakaba, dormakaba reserves the right to assess a storage fee, Buyer location, or at job site. Certificate of insurance for stored materials can be provided to Buyer upon request. Exclusions: Unless explicitly included in the installation quote, these are excluded: Distribution to staff of any form of keys, fobs or cards or credentials; any temporary security, barricades, or signage; all carpentry work outside of this specification including drywall, paint, framing, patching of existing holes, etc.; union labor, prevailing wage & certified payroll unless noted otherwise; permits are the responsibility of the end-user; Any special consideration for asbestos and lead paint hazards; any bonds; any NFPA or other certification of tolerances or rating concerning product, door, and frame configuration; disposal of material and packaging; damage from negligence, vandalism or Force Majeure; cleaning of site beyond broom clean; cost for special insurance requirements; consumable materials (e.g., batteries); any electrical work including 120v connections and low voltage wiring pulls; and other similar categories of labor and materials not included in the installation quote.

23. Installation Warranty dormakaba will provide one (1) year warranty on materials to be free from manufacturer defects and on installation labor performed. Extended warranties are available for an additional cost. dormakaba is not responsible for defects or damages caused by wear and tear, consumable materials (e.g., batteries), vandalism, fires, storms, floods, acts of God, misuse, abuse, or alteration on by any company other than dormakaba. No credit will be provided for any work completed by others during warranty term. dormakaba reserves the right to withhold the performance of warranty work if Buyer payments have become past due. Warranty work will be performed during normal business hours with our standard response times. Any warranty work taking place beyond normal business hours or with expedited response time may be billable. In the event that Buyer, its agents, employees, successors, and/or assigns tampers with, misuses, removes any parts, or adds any parts or equipment, Buyer agrees to indemnify, save and hold harmless dormakaba, its agents, employees, successors, and/or assigns, from any and all liability, damages, or losses, including reasonable attorney's fees, arising out of, or incidental to, the aforementioned conduct. dormakaba warrants that all goods manufactured by dormakaba and all services provided by dormakaba hereunder will be free from defects in workmanship and materials for twelve (12) months from the date of final project invoice to the carrier, unless sold as "With All Faults", "Shop", "As Is", "As They Stand" or other similar designation. Products repaired or replaced under the warranty are warranted only through the remainder of the original warranty period.

Return Merchandise (RMA) Policy

When returning products to dormakaba Inc. (formerly "Keyscan Inc.") follow the procedures outlined below otherwise the returned merchandise will not be accepted.

- Obtain a Return Merchandise Authorization (RMA) number from dormakaba prior to shipment.
- dormakaba will not accept any products without an RMA number.
- Dealers must contact dormakaba's Technical Support Department before requesting an RMA.
- Proof of delivery of products not previously documented with a dormakaba RMA number is required.
- Collect shipments will be refused.
- Do not insure products

Returns from outside Canada

In addition to the above procedures, the following conditions apply:

- Use dormakaba's Commercial Invoice when returning items from outside Canada.
- Attach dormakaba's Commercial Invoice to the outside of the package clearly indicating the RMA number.
- Also enclose a copy of the dormakaba commercial invoice inside the package.
- Products should be returned to dormakaba UPS
- Prepaid. Products not marked as Prepaid will have additional shipping/handling charges and these charges will be passed on to the customer.

Defective products covered under warranty

- Defective Products that are within the warranty period will be assessed and if found defective due to manufacturer's defect, will be replaced at dormakaba's discretion.
- Power surges and water damage void the warranty on products. Applicable repair charges apply in these cases.
- Should the product be no fault found, they will be returned to the customer as is.
- dormakaba will return the products prepaid to the customer.

Defective products not covered under warranty

- For products where applicable warranty period has expired or which have suffered non-warrantable damage, dormakaba will advise customer of estimated replace cost. A purchase order or credit card (Mastercard/Visa) is required at the time the RMA is issued in order to expedite replacement.
- Upon receipt, dormakaba will replace product(s). The shipping cost will be charged to the customer.

If upon review the defective products are not replaceable, dormakaba's RMA Department will advise customer and agree on the disposition of the products. An evaluation and handling fee will be assessed to customer and charged against the purchase order or credit card provided.

No fault found

In both warranty and non-warranty products if upon evaluation, it is determined products are not defective (No Fault Found), dormakaba will charge an Evaluation and Handling Fee. This fee is charged to the customer for dormakaba's testing and evaluation time. These products will be returned to the customer as is.

Applicable return shipping charges are invoiced to the customer in these instances.

Return for credit

- Products that the customer wishes to return for credit must be of a current version and found to be in first inventory condition.
- A copy of the original Purchase Order is required as any credit will be based on the original invoice amount.
- Restocking fees apply in all cases.
- Markings, labels and other non-dormakaba notations on the products may require repackaging and handling.
- Credit for products will only be given once products have been evaluated by dormakaba.
- Power surges and water damage void the warranty on products. Applicable repair charges will apply in these cases.
- Should the product be functional at dormakaba, they will be returned to the customer as is with no credit issued.
- dormakaba reserves the right to deny credit.

Packaging instructions

Improperly packaged products may result in damage during transit. Damage incurred during transit will void any Warranty coverage and may render products non-repairable or increase repair costs depending on the extent of the damage.

Please observe the following:

- Where possible, ship RMA products in the original packaging. This packaging, when properly used, is designed to protect the products during transit.
- When the original packaging is not available, use an appropriately sized box with bubble wrap or other similar material to wrap and protect the products. Improper packaging can result in damage to the products.
- ACU boards should be individually wrapped and not packed with heavy devices that could cause damage.
- For further packaging recommendations consult with dormakaba's RMA Department prior to shipment.

General RMA disclaimer

dormakaba assumes no responsibility for any data that resides on RMA returned products. It is the sole responsibility of the customer requesting an RMA to ensure any and all sensitive or essential data is off loaded, backed up and/or erased prior to shipment to dormakaba. The customer requesting an RMA understands that through the standard RMA repair and evaluation process dormakaba will clear all data elements on the returned products.

Return Merchandise (RMA) Policy (cont)

Readers – warranty claims procedures

- The third-party manufacturer provides warranties on all Keyscan readers. To ensure shipments of warranty replacements are not delayed, please observe the following procedures:
- Readers must have been originally purchased through one of dormakaba's sales channels using dormakaba part numbers. Confirm product has a dormakaba date label attached to the back of the reader.
- Reader wiring pigtailed must be left intact for product testing purposes. Failure to leave the pigtailed intact will void warranty, and the reader will be returned to the customer as is.
- Return reader(s) to dormakaba, following dormakaba's Return Merchandise Policy outlined on this document.
- Once readers are received at dormakaba they will be tested to confirm they are defective.
- Defective readers will be replaced and returned to customer requesting RMA with prepaid shipping.
- Readers that work at dormakaba will be returned to the customer requesting RMA as is with no replacement issued. Readers will be returned collect and an evaluation fee may apply.
- dormakaba does not offer credit for readers covered by warranty.
- Readers subjected to vandalism, harsh environments and other extenuating circumstances may be denied warranty coverage.

Contact dormakaba RMA Department for Warranty coverage details if necessary.

Repair and Return

dormakaba will not accept returns for repair of any dormakaba wireless transmitter key Fobs after the warranty period has expired. dormakaba will offer out of warranty repair services for RF receiver units.

Standard Wear and Tear

While dormakaba endeavors to provide only the very best products, specific field use and/or abuse can reduce the lifespan of any product. RF Transmitters are ruggedly built, however it is to be expected that there may be a moderate failure rate resulting from heavy physical abuse, exposure to excessive moisture, etc. These products do not justify significant repair costs, freight for return, administrative overhead, etc.

Battery Lifespan

dormakaba has selected a battery that should provide extended use for these transmitters. However, as with any battery-operated device, their lifespan is a direct result of usage, frequency and environment. As such, dormakaba assumes no responsibility for battery life and batteries are not under warranty.

Software

Please observe the following procedures:

- All software is assessed a restocking fee.
- Replacement software and electronic license keys are non-returnable.
- Software must be unregistered. Registered software will be returned to the customer as is.

Proximity and Graphic Cards – Credit Returns

Please observe the following guidelines to ensure your credit is processed quickly:

- Items should be returned in their original packaging.
- The item quantity, batch number and sequential numbering of any cards returned should be the same as on the original invoice.
- Refer to the quantity marked on the original packaging and return same amount. dormakaba cannot give credit for broken carton quantities.
- The original packaging must be in re-saleable condition. Please do not write on or mark the packaging or labels. The product may be returned as is with no credit issued in these cases.
- Any handling of the graphic-quality cards will result in degraded print. If the original packaging of graphic-printable cards is opened, it cannot be returned.
- Items should be repacked in such a way as to ensure the product is not damaged in transit

dormakaba cannot be held responsible for product that is damaged in shipment due to improper packaging. Credit may be denied if the preceding guidelines are not followed and the product is damaged in shipment.

Door Controllers

Keyscan LUNA Single Door Controller Part No: SDAC

Functions exclusively with Keyscan LUNA software. SDAC operates on a point-to-point Wi-Fi or WLAN network connection. SDAC functions with multiple card formats up to 10,000 credential holders, 6000 transaction buffers, 24hr and no access schedules and 15 Groups. It features SPDT door relay for 12VDC or dry contact. Requires Keyscan LUNA™ access control software. Download no charge from www.dormakaba.us/LUNAsoftware.

Features and Benefits:

- Requires Keyscan LUNA™ access control software
- Complementary download from www.dormakaba.ca/Lunasoftware
- Grey two-piece enclosure (7.5" H X 6.75" W X 1.75" D)
- ½" knockouts (top, bottom & two on back)
- Requires 12VDC external power supply for control, reader(s), RTE and lock.

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP \$ 773.00
---------------	-------	------------------------	----------------------------	--	----------------

Keyscan LUNA SDAC Smart Kit Part No: SDACSKT

Kit includes 1 – SDAC control; 1 – 12VDC plug-in transformer; 1 – K-SMART3 13.56 MHz mobile-ready reader; and 1 ten-pack K-SECURE 1K credentials. Add one electric strike for your door application (sold separately) and you have a complete door control solution. SDAC control operates on a point-to-point Wi-Fi or WLAN network connection. The system offers up to 10,000 credential-holders, 6000 transaction buffers, 24hr and no access schedules and 15 Groups. It features a SPDT door relay for a 12VDC output or dry contact (Form C). Requires Keyscan LUNA™ access control software Additional battery backup power supply required for this type of application.

Features and Benefits:

- Includes 1 – SDAC, 1 – power supply, ten pack of credentials and 1 – BLE and smart card reader.
- Complementary download of Keyscan LUNA™ software from www.dormakaba.ca/Lunasoftware
- Grey two-piece metal enclosure (7.5" H X 6.75" W X 1.75" D)
- ½" knockouts (top, bottom & two on back)
- Provided plug-in transformer powers control unit, reader and low current electric strike. Can also provide 12VDC external power for additional reader and RTE.

Access Control Management Software Licenses

Keyscan Aurora i3 International VMS Integration License Part No: EAUR-I3

Aurora software I3 International video integration add-on module license. Aurora optional licensed and add-on modules are already installed during the Aurora installation process. To activate any optional licensed module for use, you need to register the module's license number provided when you purchase the module. This module still requires installation of video manufacturer software.

Features and Benefits:

- Requires Aurora V1.0.10 or higher
- For integration with i3 International video products
- Requires purchase & installation of i3 VMS software on required workstations/PC's
- If multiple VMS support is needed - only one video integration license is required
- Limit of one video integration license per database
- License serial number now emailed.
- Visit Keyscanregistration.ca to register the software and obtain an unlock code

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP \$ 1061.00
---------------	-------	------------------------	----------------------------	--	-----------------

Keyscan Aurora OnSSI VMS Integration License Part No: EAUR-ONSS

Aurora software OnSSI video integration add-on module license. Aurora optional licensed and add-on modules are already installed during the Aurora installation process. To activate any optional licensed module for use, you need to register the module's license number provided when you purchase the module. This module still requires installation of video manufacturer software.

Features and Benefits:

- Requires Aurora V1.0.11 or higher
- For integration with OnSSI CCTV VMS
- Requires purchase & installation of OnSSI VMS software on required workstations/PC's
- If multiple VMS support is needed - only one video integration license is required
- Limit of one video integration license per database
- License serial number now emailed.
- Visit Keyscanregistration.ca to register the software and obtain an unlock code

Access Control Management Software Licenses

Keyscan Aurora Enhanced Lockdown License Part No: EAUR-911

Enhanced Aurora Lockdown is available with version 1.0.19. In addition to the basic Aurora lockdown features, this licensed module allows administrators to program custom lockdown response scenarios for one or more sites across an entire Keyscan system. In the event of any emergency protocol, any users on the network can initiate one or more lockdown scenarios by clicking an icon programmed to their PC, laptop or desktop - regardless of whether Aurora client is installed on their respective PCs.

Features and Benefits:

- This is an emailed EAUR-911 license code for enhanced lockdown activation
- Aurora license must be registered to function
- Network based Lockdown from any PC that has network connectivity to the Aurora Database
- Requires light installation of pre-requisite files. No Aurora Client required
- Single/double-click Desktop Icon initiates lockdown functions are all pre-configured in Aurora
- Multiple shortcuts on same desktop each performing different lockdown tasks
- Applies to all wired doors, controlled elevator floors and wireless E-Plex locks

Keyscan Upgrade Program

Providing new capability and greater performance for your client's access control investment

Keyscan access control systems have shown far greater longevity and performance than the 7-year industry average for access control systems. However, access control technology has now vastly outpaced legacy systems even though legacy systems continue to function.

Three key benefits your clients will immediately see with a system upgrade:

Greater Integration Options

Upgrading access control systems will support integration with SMART elevator systems, mobile devices, VMS and IP camera systems, biometrics, intrusion detection technology, IT-centric services, sensor technology, HR and workforce management systems, even HVAC and other building management systems.

Improved Flexibility, Efficiency and Longevity

Modern access control systems can function with new reader and credential products and technologies. Efficiency and savings can be substantial even for small organizations.

Increased Data and Personal Security

Growing demand for integration is constantly spurring innovation. Keyscan Aurora software was engineered to mitigate both integration challenges and escalating security threats.

Your clients invested in Keyscan access control systems to protect what is important to them.

Now is the time to propose enriching those investments with affordable and critical technology upgrades. This will continue to yield high security coupled with opportunities for substantial efficiencies and savings for their businesses.

Keyscan Upgrade Program

Providing new capability and greater performance for your client's access control investment

An upgraded Keyscan access control system breathes new capability and greater performance into your client's existing investment. It gives your customers:

- Advanced functionality,
- More integrations,
- Faster operability, and
- Improved performance.

Keyscan Aurora is affordable and offers a host of features and benefits that legacy systems simply cannot match.

- No performance-limiting governors
- No recurring fees
- System VII migration tools
- Free technical support
- Modern user-friendly interface
- Support for advanced reader and credential technologies
- SQL Express 2012 10GB database (Upgradeable to full SQL 2012 or 2016)
- Multi-threaded communication structure
- Optional module expansions for enhanced services
- Multiple credential assignments
- Up to 10 assigned groups per credential-holder
- Support for 45,000 (up to 90,000) credentials
- New event management capabilities
- New time zone management
- Web browser-based client
- New software development tools

Ask your dormakaba representative about our Access Control Upgrade Programs for Dealers!

Our team can work with you to find a solution that works best for both you and your clients

Control & Communications

Keyscan Network Communication Board Part No: NETCOM2P

Networking a Keyscan access control unit is made easy by using the Keyscan NETCOM2P plug-on adaptor. Allows maximum system design options. NETCOM2P is designed to plug directly onto the CIM to establish network communication using CAN Bus communication network. You can also plug onto ACU board in other specific applications. Also available with AES Rijndael 256 bit encryption (see NETCOM6P).

Features and Benefits:

- For direct installation on PC109x ACU/ECU boards and CIM communication boards
- Comes with programming software on CD
- Not suitable for Centrally Managed Access Control (CMAC) or Keyscan Hosted Services (KHS)

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP	\$ 630.00
---------------	-------	------------------------	----------------------------	--	------	-----------

Keyscan Network Communication Board (with Encryption) Part No: NETCOM6P

Networking a Keyscan access control unit is made easy by using the Keyscan NETCOM6P encrypted plug-on adaptor. Allows maximum system design options. NETCOM6P is designed to plug directly onto the CIM to establish network encrypted communication using CAN Bus communication network. You can also plug onto ACU board in other specific applications. Also available non-encrypted (see NETCOM2P).

Features and Benefits:

- For direct installation on PC109x ACU/ECU boards and CIM communication boards
- Comes with programming software on CD
- Suitable for CMAC applications or high security data transmission applications that require encryption

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP	\$ 732.00
---------------	-------	------------------------	----------------------------	---	------	-----------

Control & Communications

Keyscan Network Communication (off-board module) Part No: NETCOM2

Networking a Keyscan access control unit is made easy by using the Keyscan NETCOM2 TCP/IP module. Allows maximum system design options. NETCOM2 is designed as an off-board adapter that can be installed within the metal enclosure and connected to the CIM to establish network communication using CAN Bus communication network. You can also connect to ACU board in other applications.

Features and Benefits:

- Allows connection to all versions of ACU/ECU boards and legacy communication boards CB-485, CPB-10-2 & CPB-10.
- Not suitable for CMAC or Hosted Services
- Comes with programming software on CD
- New DIP switch for easier programming
- Keyscan recommends that you use a NETCOM2P for new systems
- Data cable also available (part # 40-2322)

Availability: Stock

See Warranty Statement

Lead time: 4 business days

MSRP \$ 796.00

Keyscan Communication Interlink Module Part No: CIM

A new communication control module designed to use a CAN Bus communication network. The CIM provides optimized server to Access Control Unit (ACU) communication giving users an ACU to ACU network providing inter-panel communication for global functions. The CIM also includes enhanced device-based diagnostics and improved communication speeds.

Features and Benefits:

- Communication module provides both global communications and ACU to PC communications for two or more ACUs on same communication loop. Comes with ribbon cable
- Requires Rev. 11, PC101x or PC109x ACU boards with minimum of v 7.40/8.20 firmware.
- One module required for each ACU. Powered by ACU p/s (150 mA)
- Optional NETCOM2P/6P can be mounted directly on this board

Availability: Stock

See Warranty Statement

Lead time: 4 business days

MSRP \$ 312.00

Control & Communications

Keyscan Global Network Connectivity Kit (LAN/WAN) Part No: CIM-LINK

The Keyscan CIM-Link is a TCP/IP companion module, which incorporates multiple CIM CAN Bus communication loops into a single global infrastructure via LAN/WAN network. It maximizes system design options and promotes greater global communication flexibility across your facility. CIM-Link expands ACU to ACU functionality to multiple independent CAN Bus global networks.

Features and Benefits:

- This connectivity kit consisting of two units, provides global communications between two CIM communication loops
- Includes two CIM-LinkB boards, two NETCOM2P boards & two ribbon cables
- Requires Rev. 11, PC101x or PC109x ACU boards with minimum of v 7.40/8.20 firmware
- Keyscan Aurora software

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP	\$ 1770.00
---------------	-------	------------------------	----------------------------	--	------	------------

Keyscan USB Communication Adapter Part No: USB-SER

When connecting directly to a computer, the USB-SER provides a Keyscan system with compatibility. USB-SER is used for RS485 or RS232 to USB conversions and is available as one compact and easy-to-use device. It is ideal for IT personnel, technicians and instances where the access control computer does not have a serial communication port. It is used for programming without a serial port.

Features and Benefits:

- USB to RS-232 or RS-485 converter to be used when no serial port is available on PC
- Serial can be used with direct ACU communications, CIM, CIM-Link or with legacy products
- USB 1.1 or 2.0 compatible
- Comes with 6' USB extension cable to allow mounting USB device away from PC if required
- Compatible with Windows 7 pro, Windows 8 and Windows 10

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP	\$ 207.00
---------------	-------	------------------------	----------------------------	---	------	-----------

Control & Communications

Keyscan I/O Board with Enclosure & Power Supply Part No: IOCB1616

When high-level system design calls for additional input and output capabilities, look to the Keyscan IOCB1616 expansion board. It provides 16 additional inputs with 16 additional open collector outputs. It is easy to add relay output option if desired. With IOCB1616 you can connect up to four (4) IOCB1616 boards to CA4500 and CA8500. It features new DIP switch banks for easier set up and feature configuration and is ideal for monitoring exit only doors, glass breaks, motion detectors and any other sensing device throughout your Keyscan system.

Features and Benefits:

- New smaller I/O board IOCB1616B with 16 supervised inputs and 16 digital outputs
- Comes complete with black enclosure, key lock, tamper switch, DPS-15 power supply
- Works with Rev. 11, PC101x and PC109x ACUs and higher
- For CA4500 and CA8500 controls only
- Certain versions of Rev. 11 ACUs may require firmware upgrade.
- Maximum of 4 IOCB1616B per ACU

Availability: Non Stock

See Warranty Statement

Lead time: 4 business days

MSRP \$ 949.00

Keyscan I/O Board Only Part No: IOCB1616B

When high-level system design calls for additional input and output capabilities, look to the Keyscan IOCB1616B expansion board. It provides 16 additional inputs with 16 additional open collector outputs. It is easy to add relay output option if desired. With IOCB1616B you can connect up to four (4) IOCB1616B boards to CA4500 and CA8500. It features new DIP switch banks for easier set up and feature configuration and is ideal for monitoring exit only doors, glass breaks, motion detectors and any other sensing device throughout your Keyscan system. This is only the IOCB board it does not come with power supply or enclosure.

Features and Benefits:

- I/O board IOCB1616B with 16 supervised inputs and 16 digital outputs
- For adding additional I/O boards to IOCB1616 enclosure or service replacement of existing board
- Maximum of 4 board per ACU
- Works with Rev. 10 ACUs and higher
- Maximum of 4 IOCB1616B per ACU
- New smaller board

Availability: Non Stock

See Warranty Statement

Lead time: 4 business days

MSRP \$ 494.00

Control & Communications

Keyscan 8 Relay Output Control Board Part No: OCB8

The Keyscan OCB8 is a Form-C relay output board with durable and reliable construction for long-term use. For use with Keyscan door and elevator floor controllers wherever you need a dry contact closure for auxiliary equipment. With OCB8 you can expand floor control for Keyscan EC1500 and EC2500 elevator floor controllers or add auxiliary outputs to Keyscan CA4500 and CA8500 door controllers to trigger response such as sirens, alarms, strobe lights or to further restrict access. The OCB8 also features DIP switch bank allowing easy changes to state of relays.

- Features and Benefits:
- New DIP switch plug on board with independent reverse pole switches for relay control
 - New blue circuit board (PC1102)
 - Works with all current and previous ACU/ECUs

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP \$ 447.00

Wireless Lock Solutions

E-Plex 7900 Wireless lock Part No: E79N2031LLKFOA626

The E-Plex 7900 offers more compatibility and greater performance in virtually any access control credential environment. Models are available with variable modules each designed to function with a designated list of credential types. The E-Plex 7900 wireless model integrates with Keyscan Aurora software using a ZigBee wireless network, which creates a two-way communication from lock to Aurora software. E-Plex 7900 also functions offline with Keyscan LUNA software.

- Features and Benefits:
- E-Plex 7900
 - Cylindrical model; 2 3/4" backset
 - 125 kHz proximity
 - Long return outside/inside lever
 - KIL (Schlage C, incl)
 - Door Sensing input (switch not included)
 - Keyed Alike
 - Satin chrome

Wireless Lock Solutions

E-Plex 7900 Wireless lock Part No: E79N1151LLBF20626

The E-Plex 7900 offers more compatibility and greater performance in virtually any access control credential environment. Models are available with variable modules each designed to function with a designated list of credential types. The E-Plex 7900 wireless model integrates with Keyscan Aurora software using a ZigBee wireless network, which creates a two-way communication from lock to Aurora software. E-Plex 7900 also functions offline with Keyscan LUNA software.

Features and Benefits:

- E-Plex 7900
- MiFare w/BLE
- Cylindrical w/privacy, 2 3/4" Backset, 3/4" Bolt
- Long return outside/inside lever
- Best (SFIC) and equivalents (core not incl.)
- Dual handed
- Door sensing input
- Satin chrome

Wireless Lock Solutions

E-Plex 5700 electronic lock – 125kHz Part No: E5731XSWL

The E-Plex 5700 electronic lock comes as a standard lock but is easily upgraded to a wireless lock that seamlessly integrates with Keyscan access control systems running Keyscan Aurora software version 1.0.14.2 or higher. E-Plex 5700 integrates using a ZigBee wireless network, which creates a two-way communication from lock to Aurora software. This integration is an ideal solution that will support your existing Keyscan 13.56 MHz credentials and provide a cost-effective solution for adding up to 100 E-Plex 5700 wireless locks to your system.

Features and Benefits:

- Cylindrical lock with Schlage C Key override (includes 2 keys)
- Satin chrome finish
- Use with wireless inside (75424) or outside antenna (75419) for complete wireless
- E-Plex wireless locks require firmware 3.74 (Select locks may require 3.75 firmware)
- Requires wireless antennae and a ZigBee wireless gateway with firmware V2.076 (some existing gateways can be used but may require factory flashing)
- Gateways set as routers can create "mesh" areas to expand system size
- Wireless range up to 100'*

Availability:	Non Stock	See Warranty Statement	Lead time: 6 - 8 weeks		MSRP \$ 1861.00

Wireless Lock Solutions

E-Plex Wireless Wall Mount Gateway Kit Part No: 75428

An E-Plex Gateway provides two-way communication from an E-Plex Lock to Keyscan Aurora software. A Gateway communicates to Aurora by a direct connection to a USB (non-network) or TCP/IP network. A Router acts as a repeater, extending the radio frequency (RF) communication between the Gateway and E-Plex Locks.

Features and Benefits:

- Also available for a desktop mount
- Factory configured as a gateway; software is used to reconfigure a unit as a router
- 100 locks per Gateway network/eight Routers per Gateway
- Eight Routers per Gateway/Router; 25 lock capacity (in range)
- Dimensions: 6" x 2¼" x 1½"
- Emissions: FCC 47 CFR Part 15 Class B compliant
- For mounting on recessed electrical box. POE data connection found on back of gateway
- Comes with 120V to 5V plug in transformer
- Features POE and Data connections

Availability: Non Stock

See Warranty Statement

Lead time: 6 - 8 weeks

MSRP \$ 859.00

E-Plex Wireless Surface Mount Gateway Kit Part No: 75425

An E-Plex Gateway provides two-way communication from an E-Plex Lock to Keyscan Aurora software. A Gateway communicates to Aurora by a direct connection to a USB (non-network) or TCP/IP network. A Router acts as a repeater, extending the radio frequency (RF) communication between the Gateway and E-Plex Locks.

Features and Benefits:

- Also available for a wall mount
- Factory configured as a gateway; software is used to reconfigure a unit as a router
- 100 locks per Gateway network/eight Routers per Gateway
- Eight Routers per Gateway/Router; 25 lock capacity (in range)
- Dimensions: 6" x 2¼" x 1½"
- Emissions: FCC 47 CFR Part 15 Class B compliant
- For mounting on a surface or wall, POE data connection found on side of gateway
- Comes with 120V to 5V plug in transformer
- Features POE and Data connections

Wireless Lock Solutions

E-Plex Wireless Inside Antenna Part No: 75424

E-Plex wireless inside antenna kit with 4C batteries for use with E5600/E5700 Series locks. Converts E-Plex 5600 or 5700 hardware to operate with ZigBee wireless system integrating with Keyscan Aurora software. Includes antenna with back-plate and connecting cable; RF antenna is located on top of the E-Plex Lock. Enables optimum RF signal when a Gateway or Router is located on the opposite side of secure opening.

Features and Benefits:

- Real-time functionality of events and alarms
- Centralized access control management using Keyscan Aurora
- Provides wireless prosperity and operation of lock
- Extends duration of battery charge at lock
- Requires a site survey using site survey unit (Part No: 75427) to determine proper antenna type (inside or outside) for application.

Availability:	Non Stock	See Warranty Statement	Lead time:	6 - 8 weeks		MSRP	\$ 477.00
---------------	-----------	------------------------	------------	-------------	--	------	-----------

E-Plex Wireless Outside Antenna Part No: 75419

E-Plex wireless outside antenna kit with 4C batteries for use with E5600/E5700 Series locks. Converts E-Plex 5600 or 5700 hardware to operate with ZigBee wireless system integrating with Keyscan Aurora software. Includes antenna with back-plate and connecting cable; RF antenna is located on the back side of the E-Plex Lock, on the secure side of the door. Enables optimum RF signal when a Gateway or Router is located on the opposite side of secure opening.

Features and Benefits:

- Real-time functionality of events and alarms
- Centralized access control management using Keyscan Aurora
- Provides wireless prosperity and operation of lock.
- Extends duration of battery charge at lock
- Requires a site survey using site survey unit (Part No: 75427) to determine proper antenna type (inside or outside) for application.

Availability:	Non Stock	See Warranty Statement	Lead time:	6 - 8 weeks		MSRP	\$ 477.00

Wireless Lock Solutions

Programming Cable Part No: 940401

Required USB cable for programming E-Plex gateway 75425 and 75428 wall or desk mounted gateway models.

Features and Benefits:

- 6 foot length
- Installer tool, keep for future installations
- Powers gateway via USB to allow gateway to be programmed.
- Not required for permanent installation

Availability: Non Stock

See Warranty Statement

Lead time: 6 - 8 weeks

MSRP \$ 36.00

M-UNIT Part No: 75427

The M-Unit is a diagnostic and configuration data transfer tool designed to be used with E-Plex locks. It allows programming of offline E-Plex locks by gathering data from Aurora/LUNA software and transferring it the lock. It can also transfer audit trails and be used as a site survey tool for efficient placements for E-Plex wireless lock systems. (formerly MUNIT-51-114)

Features and Benefits:

- Determines gateway or router placement for new and existing systems
- Scans existing wireless networks when adding a gateway or router or E-Plex lock to an existing configuration
- Extremely robust and designed to withstand regular wear and tear; protective carry case included.
- Uses the USB mass storage standard supported by Windows® and Apple® operating systems.
- No synchronization, software, batteries or drivers required
- Locks are programmed through infrared communication between the M-Unit and E-Plex locks

The Keyscan K-KPR offers the same features as its K-PROX3 and K-PROX2 counterparts with an added keypad security layer. This proximity keypad reader provides a sleek finish with clear LED illumination for access granted and denial indications. It also features an on board beeper to generate audible tones or sound a local "door-held-open" alert and offers versatile mounting options. It is also well-suited for both interior or exterior use. K-KPR is ideal for dual verification security by prompting both an access credential and/or personal PIN number.

Features and Benefits:

- Combination proximity & keypad reader with 12" wire pigtail
- Single gang wall mounting plate with both black & off-white covers
- Functions with Keyscan, Farpointe and HID 125 kHz technology 36 bit or 26 bit credentials
- Suitable for indoor and outdoor applications
- 12 VDC operation @ 80 mA with 4"-6" read range; Keypad wiegand output signal of 8-bit word burst

Availability:	Stock	See Warranty Statement	Lead time:	4 business days		MSRP	\$ 803.00

Readers & Credentials

Keyscan Vandal Resistant Proximity Reader Part No: K-VAN

When planning access control for hostile environments rely on the Keyscan K-VAN vandal resistant proximity reader. This reader is constructed of a solid stainless steel body. Its features include proximity RFID technology, vandal and bullet resistant, Fibertex, insert and compact size with optional tamper-proof blind mounting. K-VAN is an ideal proximity reader for all indoor or outdoor applications where aggressive behavior, crime or high-threat environments could be expected.

Features and Benefits:

- Vandal resistant prox reader, stainless steel, mullion mount housing. Comes with 36" wire pigtail
- Functions with Keyscan, Farpointe and HID 125 kHz technology 36 bit or 26 bit credentials
- Suitable for indoor and outdoor applications
- 1" read range
- 12 VDC operation @ 90 mA
- Available in small quantities (1-10). Large orders will require 2-3 weeks lead time

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP \$ 1409.00
---------------	-------	------------------------	----------------------------	--	-----------------

Keyscan Stainless Steel Keypad Part No:WSSKP-1

The WSSKP-1 keypad is an alternative to card readers and functions with any Keyscan control unit or other systems that support a Wiegand (36-bit format) input signal. It can also be used conjointly with a proximity reader. It has stand-alone capability storing up to 28 PIN codes, which can be used to activate an alarm panel for arming and disarming, locking and unlocking a door, or triggering a video surveillance system. The WSSKP-1 is rugged and water-resistant. With a stainless steel body, it may be installed indoors or outdoors.

Features and Benefits:

- Wiegand output or digital output for stand-alone operation
- As stand-alone unit will accommodate 28 user codes
- Rugged stainless steel buttons with braille markings
- Default 36-bit output; can operate 26-bit but not recommended

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP \$ 682.00

Readers & Credentials

Keyscan 125 kHz Clamshell Prox Card-36 bit Part No: CS125-36

The Keyscan CS125 standard proximity clamshell cards are designed to be used with Keyscan proximity readers K-PROX3, K-PROX2, K-KPR, and K-VAN as well as a series of HID 125 kHz compatible readers. They are an affordable alternative to other compatible card credentials.

Features and Benefits:

- Keyscan and HID compatible clamshell card-with slot punch.
- For use with Keyscan readers K-PROX3, K-PROX2, K-KPR , and K-VAN readers , Farpointe P-620-H; P-710-H, P-900-H as well as most HID 125 kHz technology readers
- Package of 50 cards
- Note: up to 4" read range
- Cards have batch & card number on back

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP \$ 319.00
---------------	-------	------------------------	----------------------------	--	----------------

Keyscan K-PROX3 Reader Programming Card Part No: K-PC1

This programming card is designed to toggle on or off K-PROX3 enhanced features. This will enable backward compatibility with previous versions of Keyscan ACUs. Card must be presented to a properly installed, configured and functioning K-PROX3 reader to function.

Features and Benefits:

- Present this programming card to a functioning K-PROX3 reader to enable or disable proprietary Keyscan functions
- Required to toggle on/off the K-PROX3 enhanced features for use with non-Keyscan access panels or older Keyscan panels
- Available in package of 5 cards that can be distributed among installing staff
- Requires 9.39 firmware

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP \$ 35.00

Readers & Credentials

Farpointe Mullion-Mount Keypad Reader Part No: P-620-H

The Farpointe P-620-H reader is a mullion version of Keyscan's K-KPR keypad reader. Fully supported by Keyscan and other access control systems the Farpointe P-620-H is a cost effective alternative to other traditional 125 kHz technology readers. Available Black only.

Features and Benefits:

- Keypad & reader with pigtail cable in one unit
- Read range up to 5 "(126 mm)
- IP67 rated for indoor and outdoor applications
- 12VDC at 110mA peak
- Dimension 1.78" W x 6.1" H x 0.91" D (45 mm x 155 mm x 23 mm)
- Functions with select Farpointe, Keyscan and HID 125kHz prox credentials

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP \$ 803.00
---------------	-------	------------------------	----------------------------	--	----------------

Farpointe Enhanced Range Reader Part No: P-710-H

The Farpointe P-710-H reader offers an enhanced range that may be suitable for access scenarios where time may be of the essence. Fully supported by Keyscan and other access control systems the Farpointe P-710-H offers a unique up to 15" read range and is a cost effective alternative to other traditional 125 kHz technology readers. Available Black only.

Features and Benefits:

- Longer read range reader with pigtail cable, read range up to 15" (378 mm)
- Black enclosure with black label concealing mounting screws
- IP67 rated for indoor and outdoor applications
- 12VDC at 350 mA peak. May require separate 12VDC power supply
- Dimension 6" W x 8.5" H x 1" D (216 mm x 152 mm x 25.4 mm)
- Functions with select Farpointe, Keyscan and HID 125kHz prox credentials

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP \$ 803.00
---------------	-------	------------------------	----------------------------	---	----------------

Readers & Credentials

Farpointe Long Range Reader Part No: P-900-H

The Farpointe P-900-H reader is a long range reader solution ideal when long-range read applications are required. Fully supported by Keyscan and other access control systems the Farpointe P-900-H offers up to 20" read range and is a cost effective alternative to other traditional 125 kHz technology readers. Available Black only. This reader will require additional 12VDC power supply.

Features and Benefits:

- Longer read range reader with pigtail cable, read range up to 20" (504 mm)
- Black enclosure with black label concealing mounting screws
- IP67 rated for indoor and outdoor applications
- 12VDC at 500 mA peak. Will require separate 12VDC power supply
- Dimension 10.5" W x 10.5" H x 2" D (267 mm x 267 mm x 51 mm)
- Functions with select Farpointe, Keyscan and HID 125kHz prox credentials

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP \$ 1350.00
---------------	-------	------------------------	----------------------------	--	-----------------

Farpointe Graphics Quality Card Credential Part No: K-PSM-2P-H

PSM-2P-H is a 125kHz (prox) ISO graphics quality PVC card. Ready for use with any CR80 supported dye-sublimation card printer. Programmed with Keyscan 36-Bit format. Card batch and card number printed on the card for easy identification. This credential functions with Keyscan K-PROX3, K-PROX2, K-KPR, K-VAN; Farpointe P-300, P-620-H, P-710-H and P-900-H as well as 125 kHz readers using a Wiegand protocol.

Features and Benefits:

- ISO Style, printable PVC proximity card
- Keyscan 36-bit format
- HID 125 KHz compatible card
- 2.1" W x 3.4" H x 0.031" D (53mm x 86mm x 0.79mm)
- Package of 50 Cards per box
- Alternative to HID-C1386

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP \$ 628.00
---------------	-------	------------------------	----------------------------	---	----------------

Readers & Credentials

Farpointe Fob Credential Part No: K-PSK-3-H

PSK-3-H is a 125kHz (prox) key ring style Fob. This Fob functions with Keyscan K-PROX3, K-PROX2, K-KPR, K-VAN; Farpointe P-300, P-620-H, P-710-H and P-900-H as well as 125kHz readers using a Wiegand protocol.

Features and Benefits:

- ABS Plastic with reinforced brass eyelet Fob
- Keyscan 36-bit format
- 1.2" W x 1.5" H x 0.15" D (30 mm x 38 mm x 3.8 mm)
- HID 125 kHz compatible Tag
- Package of 50 tags per box
- Alternative to HID PROXKEYIII

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP \$ 658.00
---------------	-------	------------------------	----------------------------	--	----------------

Farpointe Adhesive Tag Credential Part No: K-PDT-1-H

PDT-1-H is a 125kHz (prox) adhesive tag. Ideal for adding an single and/or additional credential to a non-125 kHz access control card, ID badge or the case of a mobile phone to convert it to your access control credential. This adhesive tag functions with Keyscan K-PROX3, K-PROX2, K-KPR, K-VAN; Farpointe P-300, P-620-H, P-710-H and P-900-H as well as 125kHz readers using a Wiegand protocol.

Features and Benefits:

- PVC style adhesive tag
- Keyscan 36-bit format
- 1" diameter x 0.0625" thick (25.4mm x 1.6mm), glossy white
- HID 125 KHz compatible Tag
- Package of 50 Tags per box
- Alternative to HID-C139

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP \$ 476.00
---------------	-------	------------------------	----------------------------	---	----------------

Wireless RF Access Solutions

Keyscan Wireless RF Receiver-4 Channel Part No: K-RX

The Keyscan K-RX wireless receiver is recommended for parking garage, gate and many other longrange applications. K-RX transmits a signal via hardwired Wiegand for access control panel authentication and functions with transmitters from up to 200 feet. Fobs also perform as credentials when used within your facility. K-RX RF Receiver and fob transmitters together deliver a secure wireless access control solution.

Functions with K-TX2 or K-INTX2 (125 kHz) or K-TX2-1K and K-TX2-1KB fob transmitters (13.56 MHz)

Features and Benefits:

Electronic Access & Data Keyscan Price Book - December 2021

- Four (4) channel receiver. Frequency is 433 MHz (UHF).
- Read range adjustable up to 200' (61 m) with activation LED
- 12VDC operation @ 120 mA typical
- Keyscan 36 wiegand format only-Keyscan heartbeat
- May not work with other access systems-call us for details
- Now with Max Secure™ encryption between transmitter and receiver for additional security

Availability:	Stock	See Warranty Statement	Lead time:	4 business days		MSRP	\$ 652.00
---------------	-------	------------------------	------------	-----------------	--	------	-----------

Keyscan 1-Channel 433MHz Long Range Edge Receiver Part No: K-RX-1

Keyscan K-RX-1 is an edge receiver that natively supports K-TX series transmitters with its integrated receiver antenna. Additionally, via the on-board Wiegand input, the K-RX receiver may optionally support a variety of RFID reader and credential technologies, including mobile, smartcard and proximity, as well as a comprehensive range of access identification applications, including keypads (PIN) and biometrics. The K-TX-1 Edge Receiver offers single location point of control with all configurations done directly on the unit, eliminating the requirement for separate mobile smartphone or PC programming devices.

Functions with K-TX2 or K-INTX2 (125 kHz) or K-TX2-1K and K-TX2-1KB fob transmitters (13.56 MHz)

Features and Benefits:

- One channel receiver, Frequency is 433 MHz (UHF)
- Read range adjustable up to 100' (30.5 m)
- SPDT relay output interface
- One year warranty
- 5 LED's for Status, Program/Run, Relay, DPS and RTE (request to exit)

Availability:	Non Stock	See Warranty Statement	Lead time:	20 - 25 business days		MSRP	\$ 540.00
---------------	-----------	------------------------	------------	-----------------------	---	------	-----------

Wireless RF Access Solutions

Keyscan 4 Button RF Transmitter (with K-SECURE 1K chip) Part No: K-TX2-1K

Keyscan offers this SMART RF transmitter. It functions with Keyscan K-RX and K-SMART series high-frequency (13.56MHz) environments. A simple way to grant access in parking gate, garage and other long-range read access control environments.

Features and Benefits:

- Key Fob style
- Package of ten (10) transmitters c/w 1" key ring
- 4 button RF transmitter w K-SECURE 1k
- Same batch and card number programmed for both HID & RF operation.
- Max Secure™ encryption between transmitter and receiver for additional security
- Functions with K-RX wireless receiver , K-SMART, K-SMART3 and K-SKPR readers
- 36 bit format for physical presentation; and 36 bit for RF output at receiver.

Availability: Non Stock

See Warranty Statement

Lead time: 20 - 25 business days

MSRP \$ 803.00

Keyscan Dual Purpose RF Transmitter (with blank mifare programmable chip) Part No: K-TX2-1KB

The Keyscan K-TX2-1KB is a long-range radio-frequency (RF) dual-purpose transmitter credential **designed specifically for use with dormakaba Multihousing or Lodging access control applications integrating with Keyscan networked access control systems.**

Features and Benefits:

- Key Fob style
- Package of ten (10) transmitters
- 4 button RF transmitter w/blank programmable 13.56MHz coil for use with Keyscan SRK reader series in multihousing/lodging access control applications
- Max Secure™ encryption between transmitter and receiver for additional security
- Functions with K-RX wireless receiver and Keyscan SRK reader series only
- 36 bit format for physical presentation; and 36 bit for RF output at receiver

Availability: Contact a dormakaba Multihousing or Lodging sales representative

MSRP \$ 893.00

Wireless RF Access Solutions

Keyscan 4 button RF Transmitter - 125kHz (36 bit with HID chip) Part No: K-TX2

Keyscan K-TX2 transmitter is a simple way to grant access in parking gate, garage and other long-range access control environments. It can also function within your facility.

Features and Benefits:

- Package of ten (10) transmitters
- 4 button 36 bit RF transmitter, c/w HID compatible proximity chip also 36 bit format
- Same batch and card number programmed for both HID & RF operation
- Max Secure™ encryption between transmitter and receiver for additional security
- Works with K-RX wireless receiver
- 36 bit format for physical presentation; and 36 bit for RF output at receiver.

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP \$ 606.00
---------------	-------	------------------------	----------------------------	--	----------------

Keyscan 4 Button RF Transmitter – 125kHz (36 bit with Indala chip) Part No: K-INTX2

Keyscan K-INTX2 transmitter is a simple way to grant access in parking gate, garage and other long-range read access control environments. It can also function within your facility. Functions with K-RX receiver and Keyscan Indala readers only

Features and Benefits:

- Package of ten (10) transmitters
- 4 button RF transmitter c/w Indala proximity chip 36 bit format
- Same batch & card number programmed for both Indala & RF operation.
- Max Secure™ encryption between transmitter and receiver for additional security
- 36 bit format for physical presentation; and 36 bit for RF output at receiver.

Availability:	Stock	See Warranty Statement	Lead time: 4 business days		MSRP \$ 682.00
---------------	-------	------------------------	----------------------------	---	----------------

Keyscan KS-1 HID® Signo™ Seos Profile Readers

Keyscan HID Signo Mullion Reader Part No: KS20NKS1

The Signo Reader Series goes beyond traditional reader models. It is the signature line of physical access control readers from HID for use with Keyscan access control systems.

- Can replace R10SO and/or R10SOM readers
- Functions with I8KSEOS and IDSOSE credentials
- **If using Keyscan Elite Key these readers will only function with IDSOSE dual technology credentials**

For functionality and compatibility refer to Reader Credential Cross Reference document found in HID Signo Reader Series downloads on our website.

Features and Benefits:

- 13.56 MHz mullion mount contactless smart card reader
- Available as Seos PUBLIC KEY only
- 2-3" read range
- IP65 rating for indoor or outdoor use with optional gasket
- 12VDC; 60mA; 250mA peak;
- Easy to install, often reusing existing cabling
- 1.9"W x 4.1"H x 0.9"D (4.8cm x 10.3cm x 2.3cm)

Availability:	Non Stock	See Warranty Statement	Lead time:	20 - 25 business days		MSRP	\$ 425.00
---------------	-----------	------------------------	------------	-----------------------	---	------	-----------

Keyscan HID Signo Mullion Keypad Reader Part No: KS20KNKS1

The Signo Reader Series goes beyond traditional reader models. It is the signature line of physical access control readers from HID for use with Keyscan access control systems.

- Can replace R10SO and/or R10SOM readers
- Functions with I8KSEOS and IDSOSE credentials
- **If using Keyscan Elite Key these readers will only function with IDSOSE dual technology credentials**

For functionality and compatibility refer to Reader Credential Cross Reference document found in HID Signo Reader Series downloads on our website.

Features and Benefits:

- 13.56 MHz mullion mount contactless smart card keypad reader
- Available as Seos PUBLIC KEY only
- 2-3" read range
- IP65 rating for indoor or outdoor use with optional gasket
- 12VDC; 65mA; 250mA peak;
- Easy to install, often reusing existing cabling
- 1.9"W x 4.1"H x 0.9"D (4.8cm x 10.3cm x 2.3cm)

Availability:	Non Stock	See Warranty Statement	Lead time:	20 - 25 business days		MSRP	\$ 816.00
---------------	-----------	------------------------	------------	-----------------------	---	------	-----------

Keyscan KS-1 HID® Signo™ Seos Profile Readers

Keyscan HID Signo Reader Part No: KS40NKS1

The Signo Reader Series goes beyond traditional reader models. It is the signature line of physical access control readers from HID for use with Keyscan access control systems.

- Can replace R40SO and/or R40SOM readers
- Functions with I8KSEOS and IDSOSE credentials
- **If using Keyscan Elite Key these readers will only function with IDSOSE dual technology credentials**

For functionality and compatibility refer to Reader Credential Cross Reference document found in HID Signo Reader Series downloads on our website.

Features and Benefits:

- 13.56 MHz contactless smart card reader
- Available as Seos PUBLIC KEY only
- 2-3" read range
- IP65 rating for indoor or outdoor use with optional gasket
- 12VDC; 65mA; 250mA peak;
- Easy to install, often reusing existing cabling
- 3.15 in x 4.78 in x 0.77 in (80 x 121.5 x 19.5 mm)

Availability:	Non Stock	See Warranty Statement	Lead time:	20 - 25 business days		MSRP	\$ 442.00
---------------	-----------	------------------------	------------	-----------------------	--	------	-----------

Keyscan HID Signo Keypad Reader Part No: KS40KNKS1

The Signo Reader Series goes beyond traditional reader models. It is the signature line of physical access control readers from HID for use with Keyscan access control systems.

- Can replace RK40SO and/or RK40SOM readers
- Functions with I8KSEOS and IDSOSE credentials
- **If using Keyscan Elite Key these readers will only function with IDSOSE dual technology credentials**

For functionality and compatibility refer to Reader Credential Cross Reference document found in HID Signo Reader Series downloads on our website

Features and Benefits:

- 13.56 MHz contactless smart card keypad reader
- Available as Seos PUBLIC KEY only
- 2-3" read range
- IP65 rating for indoor or outdoor use with optional gasket
- 12VDC; 70mA; 250mA peak;
- Easy to install, often reusing existing cabling
- 3.16 in x 4.79 in x 0.85 in (80 x 121.5 x 21.5 mm)

---------------	-----------	------------------------	------------	-----------------------	---	------	-----------

Keyscan KS-2 HID® Signo™ Smart Profile Readers

Keyscan HID Signo Mullion Reader

Part No: **KS20NKS2**

The Signo Reader Series goes beyond traditional reader models. It is the signature line of physical access control readers from HID for use with Keyscan access control systems.

- Can replace: KR10SO, KR10SOM, KR10SE, KR10L (SE legacy)
- Functions with Seos, Seos (HID) mobile, iCLASS SE, iCLASS SR, iCLASS, MiFare DESFire EV1, EV2 (SIO), EV3 and MiFare Classic (SIO) **PUBLIC KEY** credentials
- **If using Keyscan Elite Key these readers will only function with IDSOSE dual technology credentials**

For functionality and compatibility refer to Reader Credential Cross Reference document found in HID Signo Reader Series downloads on our website.

Features and Benefits:

- 13.56 MHz mullion mount contactless smart card reader
- Available as Seos/SE/SR Legacy PUBLIC KEY only
- 2-3" read range
- IP65 rating for indoor or outdoor use with optional gasket
- 12VDC; 60mA; 250mA peak;
- Easy to install, often reusing existing cabling
- 1.9"W x 4.1"H x 0.9"D (4.8cm x 10.3cm x 2.3cm)

Availability:	Non Stock	See Warranty Statement	Lead time:	20 - 25 business days		MSRP	\$ 495.00
---------------	-----------	------------------------	------------	-----------------------	---	------	-----------

Keyscan HID Signo Mullion Keypad Reader

Part No: **KS20KNKS2**

The Signo Reader Series goes beyond traditional reader models. It is the signature line of physical access control readers from HID for use with Keyscan access control systems.

- Can replace KR10SO, KR10SOM, KR10SE, KR10L (SE Legacy)
- Functions with Seos, Seos (HID) mobile, iCLASS SE, iCLASS SR, iCLASS, MiFare DESFire EV1, EV2 (SIO), EV3 and MiFare Classic (SIO) **PUBLIC KEY** credentials
- **If using Keyscan Elite Key these readers will only function with IDSOSE dual technology credentials**

Keyscan KS-0 HID® Signo™ Standard Profile Readers

Keyscan HID Signo Mullion Reader

Part No: KS20NKSO

The Signo Reader Series goes beyond traditional reader models. It is the signature line of physical access control readers from HID for use with Keyscan access control systems.

- Can replace KR10SO, KR10SOM; KR10L, KR10SE; most HID 125kHz readers
- Functions with Seos, Seos (HID) mobile; iCLASS SE, iCLASS SR, iCLASS; MiFare DESFire EV1, EV2 (SIO), EV3, MiFare Classic (SIO), MiFare DESFire EV1, EV2 (CSN) plus 125kHz HID, and 125 kHz EM4102 **PUBLIC KEY** credentials. Will also function with 125kHz Keyscan Indala (40010) credentials.
- **If using Keyscan Elite Key use with IDSOSE dual technology credentials.**

For functionality and compatibility refer to Reader Credential Cross Reference document found in HID Signo Reader Series downloads on our website.

Features and Benefits:

- 13.56 MHz mullion mount contactless smart card reader
- Available as Seos/SE/SR Legacy and 125kHz PUBLIC KEY only
- 2-3" read range
- IP65 rating for indoor or outdoor use with optional gasket
- 12VDC; 60mA; 250mA peak;
- Easy to install, often reusing existing cabling
- 1.9"W x 4.1"H x 0.9"D (4.8cm x 10.3cm x 2.3cm)

Availability:	Non Stock	See Warranty Statement	Lead time:	20 - 25 business days	 MSRP	\$ 561.00
---------------	-----------	------------------------	------------	-----------------------	--	-----------

KeyscanHID Signo Mullion Keypad Reader

Part No: KS20KNKSO

The Signo Reader Series goes beyond traditional reader models. It is the signature line of physical access control readers from HID for use with Keyscan access control systems.

- Can replace KR10SO, KR10SOM; KR10L, KR10SE; most HID 125kHz readers
- Functions with Seos, Seos (HID) mobile; iCLASS SE, iCLASS SR, iCLASS; MiFare DESFire EV1, EV2 (SIO), EV3, MiFare Classic (SIO), MiFare DESFire EV1, EV2 (CSN) plus 125kHz HID, and 125 kHz EM4102 **PUBLIC KEY** credentials. Will also function with 125kHz Keyscan Indala (40010) credentials.
- **If using Keyscan Elite Key use with IDSOSE dual technology credentials.**

For functionality and compatibility refer to Reader Credential Cross Reference document found in HID Signo Reader Series downloads on our website

Features and Benefits:

- 13.56 MHz mullion mount contactless smart card reader
- Available as Seos/SE/SR Legacy and 125kHz PUBLIC KEY only
- 2-3" read range
- IP65 rating for indoor or outdoor use with optional gasket
- 12VDC; 65mA; 250mA peak;
- Easy to install, often reusing existing cabling
- 1.9"W x 4.1"H x 0.9"D (4.8cm x 10.3cm x 2.3cm)

Keyscan KS-0 HID® Signo™ Standard Profile Readers

Keyscan HID Signo Reader

Part No: KS40NKSO

The Signo Reader Series goes beyond traditional reader models. It is the signature line of physical access control readers from HID for use with Keyscan access control systems.

- Can replace KR40SO, KR40SOM; KR40SE; KRK40SE, KR40L, KRK40SL and most HID 125kHz readers
- Functions with Seos, Seos (HID) mobile; iCLASS SE, iCLASS SR, iCLASS; MiFare DESFire EV1, EV2 (SIO), EV3, MiFare Classic (SIO), MiFare DESFire EV1, EV2 (CSN) plus 125kHz HID, and 125 kHz EM4102 **PUBLIC KEY** credentials. Will also function with 125kHz Keyscan Indala (40010) credentials.
- **If using Keyscan Elite Key use with IDSOSE dual technology credentials.**

For functionality and compatibility refer to Reader Credential Cross Reference document found in HID Signo Reader Series downloads on our website.

Features and Benefits:

- 13.56 MHz contactless smart card keypad reader
- Available as Seos/SE/SR Legacy and 125kHz PUBLIC KEY only
- 2-3" read range
- IP65 rating for indoor or outdoor use with optional gasket
- 12VDC; 65mA; 250mA peak;
- Easy to install, often reusing existing cabling
- 3.15 in x 4.78 in x 0.77 in (80 x 121.5 x 19.5 mm)

Availability:	Non Stock	See Warranty Statement	Lead time:	20 - 25 business days	 MSRP	\$ 578.00

HID Readers & Credentials

iCLASS® SE Credential with Seos® Profile Part No: I8KSEOS

High frequency contactless smart card for securing identities. ISO style printable card. Can use direct imaging and thermal transfer printers. 8K-processor card for standard applications. Functions with the HID Signo Series Readers as well as Seos® readers and Public Key SE readers. Keyscan 36 bit format. Leverages SIO data model and security. Seos® is a breakthrough credential technology. Seos® offers the freedom to use your device of choice – from smart cards to smartphones – for secure access and confidence of best-in-class security and privacy protection.

Features and Benefits:

- 13.56MHz contactless smart card; 2.127"W x 3.375"L x 0.033"D (5.4cm x 8.57cm x 0.084cm)
- 8K memory
- Functions with Keyscan Public key Seos® readers and Public key SE readers. Will also function with HID Signo Series Readers. **Will NOT function with Keyscan Elite Key**
- Package of 50 credentials
- Seos credential cannot be slot punched. Requires card grip for use with lanyard or card clip
- **If using Keyscan Elite Key - you must use IDSOSE dual technology credentials (see below)**

Availability: Non Stock

See Warranty Statement

Lead time: 20 - 25 business days

MSRP \$ 793.00

Dual Technology Seos/SE Credential with Keyscan Elite Key Profile Part No: IDSOSE

The IDSOSE smart card is a dual technology card that is commonly used when transitioning from Keyscan iCLASS Elite Key environments to a more secure Seos environment. Organizations can save time and resources by managing a one card credential solution instead of two separate cards. If you have a Keyscan Elite Key environment and choose to install the new HID Signo readers you'll need this credential to bridge from Elite Key to Public Key.

Features and Benefits:

- 13.56MHz contactless smart card; 2.127"W x 3.375"L x 0.033"D (5.4cm x 8.57cm x 0.084cm)
- 8K memory
- ISO Printable
- Designed to function within Keyscan SE and SR Elite Key environments PLUS HID Signo readers Call your dormakaba representative for details.
- Package of 50 credentials
- Seos credential cannot be slot punched. Requires card grip for use with lanyard or card clip

HID Readers & Credentials

Keyscan iCLASS® SR Legacy Smartcard (Clamshell) Part No: KC2K2SR

iCLASS® offers customers a multiple layer of card-to-reader security. End users receive a high security credential that is exclusive to the Keyscan access control system and backward compatible with legacy iCLASS® SE readers. iCLASS® credentials and readers are 'factory programmed' to match. As a result, only matching cards and readers will work together, further prohibiting other cards and readers from inadvertently functioning within your company's secured areas.

Features and Benefits:

- Package of 50 standard clamshell cards
- 13.56 MHz contactless smart card
- 2 k memory with 2 application areas
- Function with Keyscan iCLASS® SE Legacy readers using Keyscan Elite Key high security format
- Will NOT function with SIGNO readers (use IDSOSE credentials)
- Keyscan iCLASS® SE readers (use SE credentials)

Availability:	Stock	See Warranty Statement	Lead time:	4 business days		MSRP	\$ 618.00
---------------	-------	------------------------	------------	-----------------	--	------	-----------

Keyscan iCLASS® SR Legacy ISO Smartcard Part No: KI2K2SR

iCLASS® offers customers a multiple layer of card-to-reader security. End users receive a high security credential that is exclusive to the Keyscan access control system and backward compatible with legacy iCLASS® SE readers. iCLASS® credentials and readers are 'factory programmed' to match. As a result, only matching cards and readers will work together, further prohibiting other cards and readers from inadvertently functioning within your company's secured areas.

Features and Benefits:

- Package of 50 standard (printable) cards
- 13.56 MHz contactless smart card; 2 k memory with 2 application areas
- Keyscan Elite Key high security format
- Function with Keyscan iCLASS® SE Legacy readers using Keyscan Elite Key high security format
- Will NOT function with SIGNO readers (use IDSOSE credentials)
- Keyscan iCLASS® SE readers (use SE credentials)

Availability:	Stock	See Warranty Statement	Lead time:	4 business days		MSRP	\$ 924.00

UHF Readers & Credentials

Keyscan UHF Long Range Reader Part No: KU90UHF

The SIO enabled UHF smart card provides a secure ultra high frequency (UHF) long-range parking and gate control solution. This UHF reader can read from distances of up to five meters for long-range identification. Requires standard VESA mounting hardware, not included. Functions with the most secure UHF credential available, the reader issues a password to obtain access to secured areas of the card's memory. Secure Identity Object (SIO) data model adds a layer of encryption and authentication for advanced security. Available black only.

Features and Benefits:

- Requires the use of KIUHF credentials
- Reads UHF cards from up to 5 meters away
- 12VDC at 1.0 A peak. Requires separate power supply, 12 or 24 VDC
- 9.1"W x 9.1"H x 2.25"D (23.1cm x 23.1cm x 7cm)
- Does not work with HID iClass, iClass SE or Mobile Credentials
- Recommended installer take HID on-line training to learn how to program this reader with laptop

Availability: Non Stock

See Warranty Statement

Lead time: 20 - 25 business days

MSRP \$ 3993.00

Keyscan UHF Credential Part No: KIUHF

The most secure UHF credential available, the reader issues a password to obtain access to secured areas of the card's memory. Secure Identity Object (SIO) data model adds a layer of encryption and authentication for advanced security.

The UHF Smart Card meets strict ISO standards for thickness and can be used with high definition printers for custom artwork or photo identification imprinted directly on the card.

Features and Benefits:

- UHF technology can be read from up to five meters depending on mounting and environment
- For use only with KU90UHF long-range reader
- Secure Identity Object (SIO) enabled, for multi-layered security
- 2.127"W x 3.375"H x 0.033"D (5.4cm x 8.57cm x 0.084cm)
- Available in packs of 50 cards, minimum order 100

Availability: Non Stock

See Warranty Statement

Lead time: 20 - 25 business days

MSRP \$ 1538.00

UHF Readers & Credentials

Keyscan Dual iCLASS® SE & UHF Credential Part No: KI4KSEUHF

A dual UHF and SE credential. Designed specifically for parking and building applications. It is designed to function with KU90UHF reader. Keyscan iClass Elite key, 36-bit format.

Features and Benefits:

- Ultra-High Frequency format can be read from up to 5 meters from the KU90UHF reader
- 13.56MHz format for use with iCLASS® SE standard profile readers
- 4K memory with 2 application locations
- 2.127"W x 3.375"H x 0.033"D (5.4cm x 8.57cm x 0.084cm)
- Keyscan high security format works with Keyscan iCLASS® SE readers
- Available in packs of 50 cards, minimum order 100

Availability: Non Stock

Keyscan Wiegand Communications Line Extender Part No:WIEEX2

When circumstances dictate a long cable run between control panel and reader, exceeding 500 feet, rely on the Keyscan WIEEX2 wiegand extender. This interface converts the Wiegand signal to standard RS485 providing a communication range of up to 4000 feet between WIEEX2 receiver and WIEEX2 transmitter while using standard CAT5 cable between units.

Features and Benefits:

- Converts wiegand to RS-485 then to wiegand
- 2 modules included 1 for reader and 1 for ACU
- Maximum distance 4000' on 2 wires (CAT5)
- 12VDC @ 50 mA required for each unit
- Supports Present3 feature as well as 26 bit to 80 bit wiegand
- Supports baud rates of 19,200 and 9600 baud
